How to explain lack of access of disabled to resources.

Affects wives — lose time at work to look after them in iller episodes  
Affects ~~children~~ <sup>relatives</sup> — e.g. child of elderly (restriction of life No. 6)

Employment — restrict <sup>range of choice</sup> ~~number of jobs~~ of jobs — distance, hearing, time  
in travelling, transport not easy or costs more,  
— liable to sack or redundancy (can't always do duties asked of them)  
change to lighter less well-paid work (No. 17)

Long-term incapacity, subject to public scepticism — neighbours don't  
~~understand~~ always understand why men up & walking about may be  
advised medically not to work — cancer, epilepsy,  
carried over into scrutiny by sickness benefit investigators

Quote from  
Fisher Cree

Fall after 6 mths in earnings-related benefit — not compensated  
by new invalidity pension.

Difficulties if employment interrupted of maintaining contributory record

st Credit — without regular work more difficult  
— insurance difficult
