SHOCK REPORT SHAMES BRITAIN

POVERTY TRAPPED

DESPERATE
Millions of kids are suffering

BY JASON BEATTIE

THE number of Britons living in poverty has soared to one in three, a shock report reveals.

Almost 18 million cannot afford adequate housing and 2.5 million kids live in damp homes.

It also shows that poverty has more than doubled in 30 years, as David Cameron allows the gap between rich and poor to become a chasm.

Furious Labour MP Frank Field branded the rise "horrendous".
