Name of Interviewer R. S. Moore Number 1 2 3 4 5 6 7 8 9

Name of Interview(s) 27/8/68

Length of interview(s)

Total actual interviewing time 1

# Form of introduction

"My name is X. I'm from Essex/London University, We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are, We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

# SUMMARY: COMPLETE AFTER INTERVIEW

1. Interview carried out at first call at second call at third or later call	10 X Y 0	Which sections were answered in whole or in part by which persons on the household?     Informant	Write Section 1, 2, 3, etc.	5. Number of other households at address None	21
2. Information for household	11 X Y 1 2 3 4 5 6 7 8 9	2nd member  CODE ALL THAT APPLY AS LISTED IN Q'AIRE (Some Sections may be listed twice)  5th	15 16 (6) 17	6. (b) Reasons if incomplete	12 X Y O 1	Other (specify)  4. Semi or detached house or bungalow Ter, h'se or bungalow Self-con. flat in house Accomm. Self-con. flat attached to shop/business Room(s): furnished Other (specify)	18 19 20 X Y 0 1 1 2 3 4	7. Is there an internal or external flight of at least 4 steps or stairs to the dwelling entrance?  Yes No	23 (8) 9

At this point put any christian name of informant in first box on back flap, then christian names of all other adults and children in household. In complex households always list children immediately after their parentles) or guardian(s). Otherwise, in the case, say, of a married couple and adolescent children you may find it easiest to list according to age; first the wife who is, say 54, husband 55, children 26, 24, 20, 17 and 14. When you write in information throughout the questionnaire please keep rigorously to the particular column for each named person in the household. Specifically "household" information is recorded in the first column. The informant's answer alby "household" information is recorded in the first column. The list of members under Q. 10 may have to be later modified according to who is temporarily residing in the household or who is temporarily away. This should be checked carefully. Boarders of more than four weeks residence should be recorded as members of the household; lodgers and sub-tenants will require separate questionnaires.

On the back of the questionnaire you will find a code list of household composi-tions. When you are checking the questionnaire put the appropriate code for this household in the box allocated under the double asterisk

#### Definition of a Household

A private household comprises one person living alone or a group of persons living together, having some or all meals together and benefiting from a common housekeeping. Persons who have resided in the household for at least four weeks and are not expected to leave shortly, and persons who have resided in the household for less than four weeks but are not expected to leave again after that period, should be listed as members. Persons who are felt to be members of the household but are away (e.g. students or men at work) should only be included if they have been away for less than 13 weeks and are expected back within the total period of 13 weeks (code under 10(d)).

QUESTION 1	0(e)	QUESTION 10(d)
Age-group: co 0 - 1 2 - 4 5 - 9 10 - 14 15 - 19 20 - 29 30 - 39 40 - 49 50 - 59 60 - 64 65 - 69 70 - 79 80 and over DK		Code reasons as below Hospital/nursing Home/convalescent Home Staying with relative or friend Otherwise away on holiday In armed services/merchant navy In armed services/merchant navy Prison approvising away from home Prison approvising away from home Children's Home or foster home Boarding school, college, university Other (specify)

### QUESTION 10(f) - Court order

A maintenance order secured through the courts. If no action has been taken to confirm the separation then code 1; in this situation at least the spouse in the household accepts that man and wife are not living together and there is no immediate prospect of them so doing.

If answer yes, complete other parts of question and amend Q. 10 if someone included in answers to that question who proves in fact to be a temporary visitor or guest (i.e. who has stayed less than 4 weeks and not expected to stay for total period longer than 4 weeks).

# QUESTION 11(a)

If there is more than one visitor enter information for all in box or on this left hand page.

# QUESTION 11(f) Code as follows:

Relative staying without payment	1
Friend staying without payment	2
Relative staying with payment	3
Friend staying with payment	4
Other person staying with payment	5
Other (e.g. nurse/student specify	6

If any person is felt to belong to the household and is expected to return to it after a total absence of less than thirteen weeks (e.g. at University, in hospital, at work, staying with relatives), then the interviewer should include such a person in the replies to Q. 10. But the information should also be recorded here in Q.12.

QUESTION 12(n) Prompt and code as follows:
Hospital/nursing/convalescent/residential Home
Staying with relative or friend
Otherwise away on holiday
In armed services/merchant navy
At boarding school, college or university
Otherwise working away from home
Approved school/Borstal/detention centre, etc.
Children's Home/foster home
Prison
Other (specify)

Probably older

# QUESTION 18 Birthplace

Note that some coloured persons (especially children) will have been born in UK.

## QUESTION 18(b) Non-white

We are seeking to distinguish between coloured and non-coloured immigrants. Listen carefully to the informant when he or she is answering for other members of the household about country of origin and years of residence. You should base your codes on observation together with inferences from what you are told in the interviews. When you have not observed a particular member of the household and there is reasonable cause for asking whether he or she is coloured (e.g. because statements have been made about an external country of birth, or you are working in an immigrant area), you may ask "Is he/she coloured?" If this question would seem tactless do not ask but code "DK white/non-white". In general, people of African, Indian, Asian or Arab origin should be coded as non-white, in that our society at large tends to classify such people as "coloured". Those of European origin should in general be coded as white.

Some difficulties will inevitably be encountered (an Arab informant who looks European) but the majorities of such difficulties should be solved by learning the country of origin. A minority will remain (e.g. the man born in France who may or may not be an Indian or a Tunisian Arab) and we must rely on the interviewer obtaining the best information possible.

Later said she had been in V.K. 16 years

# QUESTION 8 Work record

Our aim is to trace persons whose work record is not full and to establish both numbers of weeks off work and numbers of weeks in which fewer than 30 hours were worked.

#### Weeks off work in year

Weeks off work in year

The procedure is first to ask the general question about numbers of weeks off work. Some informants will be uncertain of the right answer. They can be encouraged by prompts about the last spell off work for unemployment, then sickness and so on down the list. Whenever it is clear they are going back more than 12 months you should move on to the next eventuality on the list. In the appropriate column note the number of weeks for all spells of unemployment, sickness, etc. You must record "O" in all open boxes when the person has had no spell off work for that reason. You may ignore the codes "X" and "Y" under each open box. They are for office use. For easy reference you can record each spell off work alongside the months listed below. (You may in rare instances interview persons, say, who had five or six spells off work through sickness and may need to show some rough working to arrive at the right total. (Please leave any rough working in case of queries.)

# List member of household (informant, 2nd, 3rd) and weeks off work and reason

January	July
February	August
March	
April	October
May	November
Tuno	December

Some informants may have a quick answer for the first general question (usually because they have a very full or almost empty record of work in the year). You should nonetheless use the same procedure of asking about each type of eventuality and each spell off work as a check. If an informant says he hasn't been off work except for "just odd days because of colds and so on "ASK How much would it amount to over the past twelve months—one week, two weeks? AND CODE ACCORDINGLY. For informants (e.g. housewives or students) who have only worked for a few weeks in the year, you may find it quicker to establish first how long they were at work.

As with so many other questions about "the last twelve months" in this questionnaire, informants will often find it helpful if you encourage them to think forwards from a date exactly a year ago.

losus o'mbib whis siretly

### QUESTION 11 "Windfalls"

The procedure is the same as in the last question (Q. 10). Remember that for some people an occasional windfall is the only hope they have of getting out of debt, and please make a note if you come across any interesting example.

# QUESTION 12 Hire purchase

The informant may know neither the total amounts nor the amounts less interest which are owed. If the total is less than £25 simply write it in and do not waste time asking detailed questions about original price, etc. Otherwise ask each of the questions and tick the box if any documents are seen. Sometimes there may be several large items and you may need to use the margins on the page for any additional notes. Remember that we are concerned to establish the total owed altogether, less interest, and so long as this can be estimated you should not be concerned to take up time with every subsidiary question. If you cannot get the informant to give an estimate of the total owed less interest and succeed only in answering the questions under (a) you can leave to the office the job of estimating and writing in the total.

# QUESTION 14 Rent or mortgage arrears

As elsewhere, remember to write in an amount in only one column (not in two columns, e.g. wife and husband). The amount should be debited to the person who normally pays the rent or the mortgage payments. Do not trouble to calculate the exact total amount owed. You have asked about the weekly or monthly payments earlier and so long as you tell us the number of payments (and whether weekly or monthly) we can calculate the figure in the office.

Noboldy Come 5 collect

QUESTION 17 Total assets

Like the question at the end of the Income section, this question is designed to be used when an informant does not wish to go into detail or finds great difficulty, either in the first or in a subsequent interview, in answering preceding questions. Encourage him or her to help you gain at least a broad estimate of total assets, but remember this includes the value of any owner-occupied house, a car, the surrender value of any life insurance policy and personal possessions of value, as well as any savings or stocks and shares. Again, try to get a separate estimate for each income unit in the household, and if the informant shows willingness to go back to the preceding detailed questions encourage him to do so. Try if you can to get the informant to give an exact figure rather than a range.

#### QUESTION 23 Poor now

Stress genuinely and try to avoid facetiousness at this point. Question 23 (a) explores what the informant understands by feeling "poor". If the word "poor" seems inappropriate use the alternative "very hard up".

#### QUESTION 24 Poverty

Stress the word "poverty". Do not explain what you think it means if you are asked. Seek from the informant his definition and write it in the box as clearly as you can.

#### QUESTION 25 Voting

Ask for those old enough to have voted in the last election (March 1965). We are not concerned who they voted for (although they will probably say) but would like to know if they are sufficiently involved to vote at all. Be careful to reassure people that this is confidential and as far as you are concerned non-voting is blameless—many people consider that voting is legally compulsory or morally obligatory and so voting figures are over-estimated. Try to get a clear recollection by fixing the incident (time of day, who they went with) if necessary. Stress National, not local elections.

### QUESTION 26 Action on poverty

We are interested in what the informant thinks can be done. Give as full an answer as possible.

### Please write in any additional notes.

is in real of help. She has This woman no friends or may be mentally unstable. The other women in the house are nightened offer her as She walks about going into peoples rooms o never speaking. Her responses & my questions were monosyllabic or non existent. The room in which she lives is virtually have of personal possessions. One leg of the bad is broken. Her evering meal consisted of one sourage s a ay of ten. Although obviously poor She appears to avoid answering questions in a way that would allow that she needs assistance. one stage that the job was als temporary (may gear the sack). Appears the lambland is about to give her notice to quit. As she is a R.C. I think had better have a word with her priest & see he can help.
