QUESTION 23 Poor now

Stress genuinely and try to avoid facetiousness at this point. Question 23 (a) explores what the informant understands by feeling "poor". If the word "poor" seems inappropriate use the alternative "very hard up".

QUESTION 24 Poverty

Stress the word "poverty". Do not explain what you think it means if you are asked. Seek from the informant his definition and write it in the box as clearly as you can.

QUESTION 25 Voting

Ask for those old enough to have voted in the last election (March 1965). We are not concerned who they voted for (although they will probably say) but would like to know if they are sufficiently involved to vote at all. Be careful to reassure people that this is confidential and as far as you are concerned non-voting is blameless—many people consider that voting is legally compulsory or morally obligatory and so voting figures are over-estimated. Try to get a clear recollection by fixing the incident (time of day, who they went with) if necessary. Stress National, not local elections.

QUESTION 26 Action on poverty

We are interested in what the informant thinks can be done. Give as full an answer as possible.

Please write in any additional notes.

Q 26 H.O.H.
2nd.

Family allowances are not necessary
sometimes they are paid, then given to the children
as pocket money — as ~~the~~ their's of right — there should be
some assessment of need before giving it —
the population growing so fast — we have to gear our spending
to cope with it — pop^{l'n} should be stabilised — at not more
than say 2-3 children — education is needed to train people
to believe that they should not have such large families.
Money going down in value — so no one wants to save —
more incentive is needed to save. Insurance that savings
won't depreciate. People should have their pensions & still be
allowed to earn where they can — INCOME TAX should
be cut at 65
