Form of introduction

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

SECTION II EMPLOYMENT

General

This section and the next (Occupational Facilities) should normally be asked of each adult earner in the household. If you happen to be interviewing the housewife during the day you should ask these questions as they apply to herself (and also to any children and adult dependants—e.g. elderly widowed mother) and then a separate (shorter) interview with the husband (and any other adult earner who is not available at the time of the first interview) to ask him for answers to this section, to the section on occupational facilities, to the questions on earnings in Section IV and any other questions which cannot be answered by the housewife.

QUESTION 1 Attended paid employment

All persons working for gain. If a housewife, retired person or even a schoolchild works a few hours for pay each week, he or she should be included. Also count man who is not at his main occupation (and even who may be thought of as unemployable) but who has pay from a minor job. We will be able to check in analysis. Our purpose is not to miss casual earnings and supplementary sources of income.

QUESTION 2 Two jobs

If a person does some kind of job for a different employer or on own behalf in his "spare" time this counts as a second job. Even if it is the same kind of job but is separately paid for (e.g. decorator working in spare time for himself) it should be counted as second job.

QUESTION 3 House or flat

Includes house combined with business premises or farm; but the question has been introduced primarily to cater for women home-workers on piece rates. Note that it refers to any second as well as the principal job.

QUESTION 4 Starting and finishing work times

The question applies to last week. Ignore variations in working hours from week to week. If working times were the same on at least three days of the week regard them as "usual". If there were two shifts (e.g. morning and evening), list according to starting time of the first and finishing time of the second, and note fact on left.

QUESTION 5 Aid in calculating hours of work

The table below assumes a 5-day week and 1 hour for lunch. Note that each digit should be put in each separate part of the box (i.e. one digit under No. 29 and the other under No. 30).

| Starting time | Finishing time | | | |
|---------------|----------------|-----------|-----------|-----------|
| | 4.30 p.m. | 5.00 p.m. | 5.30 p.m. | 6.00 p.m. |
| 7.00 a.m. | 42½ | 45 | 47½ | 50 |
| 7.30 a.m. | 40 | 42½ | 45 | 47½ |
| 8.00 a.m. | 37½ | 40 | 42½ | 45 |
| 8.30 a.m. | 35 | 37½ | 40 | 42½ |
| 9.00 a.m. | 32½ | 35 | 37½ | 40 |
| 9.30 a.m. | 30 | 32½ | 35 | 37½ |
| 10.00 a.m. | 27½ | 30 | 32½ | 35 |

QUESTION 6 NOT AT WORK

Note that this question must also be answered for persons working last week for less than 30 hours. **Unemployed:** as distinct from "off sick" or temporarily off work (e.g. on holiday). The replies will be, for example: "I lost my job"; "I'm out of a job"; "There was redundancy at the firm so I'm out of work for the moment". Sometimes a person may say he is both unemployed AND sick or disabled, or it may for other reasons be difficult to specify just one code. Accept the best answer given by the informant even if you observe that someone who says he is unemployed is obviously sick or disabled (and vice-versa). Later questions are designed to establish whether or not he is seeking work and whether or not he is chronically sick or disabled.

Unpaid holiday

Part of our purpose in asking if holidays are unpaid is to ensure that 5 is not coded rather than the underlying reasons coded as 7, 8 or 9. Distinguishing between paid and unpaid holidays introduces complications but may be worthwhile (a) for the opportunity afforded to probe the reasons an unpaid holiday is being taken and (b) later when calculating weeks not at work in previous year.

QUESTION 8 Work record

Our aim is to trace persons whose work record is not full and to establish both numbers of weeks off work and numbers of weeks in which fewer than 30 hours were worked.

Weeks off work in year

The procedure is first to ask the general question about numbers of weeks off work. Some informants will be uncertain of the right answer. They can be encouraged by prompts about the last spell off work for unemployment, then sickness and so on down the list. Whenever it is clear they are going back more than 12 months you should move on to the next eventuality on the list. In the appropriate column note the number of weeks for all spells of unemployment, sickness, etc. You must record "O" in all open boxes when the person has had no spell off work for that reason. You may ignore the codes "X" and "Y" under each open box. They are for office use. For easy reference you can record each spell off work alongside the months listed below. (You may in rare instances interview persons, say, who had five or six spells off work through sickness and may need to show some rough working to arrive at the right total. (Please leave any rough working in case of queries.)

List member of household (informant, 2nd, 3rd) and weeks off work and reason

| | |
|---------------|----------------|
| January..... | July..... |
| February..... | August..... |
| March..... | September..... |
| April..... | October..... |
| May..... | November..... |
| June..... | December..... |

Some informants may have a quick answer for the first general question (usually because they have a very full or almost empty record of work in the year). You should nonetheless use the same procedure of asking about each type of eventuality and each spell off work as a check. If an informant says he hasn't been off work except for "just odd days because of colds and so on" ASK How much would it amount to over the past twelve months — one week, two weeks? AND CODE ACCORDINGLY. For informants (e.g. housewives or students) who have only worked for a few weeks in the year, you may find it quicker to establish first how long they were at work.

As with so many other questions about "the last twelve months" in this questionnaire, informants will often find it helpful if you encourage them to think forwards from a date exactly a year ago.

V SAVINGS AND ASSETS

QUESTION 1 Personal

This excludes a business bank account which is covered by Q. 4. Avoid double-counting the same bank balance or assets when questioning husband and wife.

QUESTION 2 Savings

Note that you should proceed by prompting all items to see how many are appropriate, then try to establish a total and then establish totals for each item only as a check or if necessary. Care should be taken to avoid double-counting. If the informant is hesitant or confused repeat the question to make sure he or she knows what kind of savings you are referring to and THEN show Flashcard No. 4 to get the total. Then try to obtain an absolute total rather than a range. For example, you could ask: "Would you say the figure was at the top end or the lower end of that range — nearer X or nearer Y?"

*Q 2 (7)
Is member of Savings Club
draws out savings in
August & at Christmas.*

QUESTION 2(c) Interest

Try to establish the amounts the informant receives **in the form he receives it** — that is, before tax is deducted or after it has been deducted at source. In difficult instances you need not waste time converting a "before tax" total into "after tax" so long as you make plain what it is. We will do that work in the office.

QUESTION 3 Value of stocks and shares

This question of the value of stocks and shares is crucial and every encouragement should be used to obtain an answer. Some informants simply will not know. Remember that brokers sometimes send an annual valuation. If there is considerable uncertainty, tactfully suggest or imply that it would be very helpful to know and take any opportunity to see the valuation or to leave a note (and s.a.e.) so that a more reliable estimate can be made and either you can pick it up at a second call or ask for it to be sent on.

QUESTION 3(b) Interest

Proceed as in Q. 2c above. Mostly amounts will be received **after tax** has been deducted.

QUESTION 4

This is to cover any type of business which is owned in part or in whole by the informant. Being a director does not necessarily mean ownership. The answer to this question should not duplicate the answer to the previous question. Shares come under Q. 3. This is to cover such things as shops, professional practices and small businesses of every kind except limited companies. In all cases make sure that money in the business, bank account and stocks are borne in mind when the valuation is made. When the business (e.g. shop or farm) is run from the owner occupier's dwelling, the value of the dwelling will often have been included in the answer to this question (i.e. Q. 25 in Section V). **UNDER NO CIRCUMSTANCES MUST THE DWELLING BE COUNTED TWICE.** The valuation should be on the assumption that the informant had to sell but was in no great hurry. A year or even more could be taken to find a purchaser. The valuation should NOT be made on the basis of: "What would you take for your business?" — that is, when the informant has to be persuaded to sell. NOTE that vehicles should be included in the valuation of a business — say of a haulage contractor, a cab owner or even a building contractor or window cleaner.

QUESTION 5 Other property

Remember that some people use two houses. Others have houses which they rent off to others. This last is not uncommon among elderly people who may be very poor themselves. A "boat" may include anything from a luxury yacht to a small rowing boat.
