QUESTION 23 Poor now

Stress genuinely and try to avoid facetiousness at this point. Question 23 (a) explores what the informant understands by feeling "poor". If the word "poor" seems inappropriate use the alternative "very hard up".

QUESTION 24 Poverty

Stress the word "poverty". Do not explain what you think it means if you are asked. Seek from the informant his definition and write it in the box as clearly as you can.

QUESTION 25 Voting

Ask for those old enough to have voted in the last election (March 1965). We are not concerned who they voted for (although they will probably say) but would like to know if they are sufficiently involved to vote at all. Be careful to reassure people that this is confidential and as far as you are concerned non-voting is blameless—many people consider that voting is legally compulsory or morally obligatory and so voting figures are over-estimated. Try to get a clear recollection by fixing the incident (time of day, who they went with) if necessary. Stress **National**, not local elections.

QUESTION 26 Action on poverty

We are interested in what the informant thinks can be done. Give as full an answer as possible.

Please write in any additional notes.

Some difficulty here. The couple - before retirement owned a butcher's business. Now it is run by a manager. After completing the sections on income and savings. I felt all was not well - and it then appeared that the couple have a substantial income from this business - and that they pay super tax. As this is unearned income - it is recorded in section on income for the self employed. Could you please note that a total figure for this income is recorded at the end of the savings section and that ~~the~~ the information recorded in sections IV and V are part of this.

Additional difficulty in that the couple found it hard to think out the answers. Inf. by the end seemed to be tiring although he insisted on completing the questionnaire. Both slightly deaf too.

Difficult to get an answer here - Inf kept interrupting + putting ideas into his head. He D.K. for some time + seemed too tired to try hard - but felt have got the gist. Interviewer fatigued & fear.
