SECTION I HOUSING AND LIVING FACILITIES	
I'd like to start by asking a few questions about your house/flat	
I(a) How many rooms are there - I mean for the sole use of the household?	
number of living and dining-rooms (excluding	
number of kitchens	
Is the kitchen large enough to eat in? Yes	
*number of bedrooms (including bed-sitter)	24 25
*total number of living and dining and bedrooms (including kitchen if large enough to eat in)	26 27
(b) How many of these rooms are usually heated during the evenings in winter (whether by coal, gas or electric, paraffin stove or central heating)?	28 29
DK	X
Would you and your family like to have more rooms or fewer rooms in the home?	30
X* more than one room extra Y an extra bedroom	
CODE 0 an extra living room ONE 1 number of rooms about right ONLY 2 one room fewer	
ONLY 2 one room fewer 3 two or more rooms fewer 4 DK	2 3 4
3. Is electricity laid on? yes, power points and lighting yes, lighting only	(5)
yes, lighting only No DK	8
4. Has the household the sole or shared use of the following INDOOR facilities?	.31
(a) A flush W.C.* X yes, sole use Y yes, shared	(X)
PROMPT Y yes, shared O none	0
(b) A sink or washbasin yes, sole use	2 3
(c) A fixed bath or 4 yes, sole use 5 yes, shared 6 none	4 5 6
(d) A gas or electric 7 yes, sole use cooker 8 yes, shared 9 none	0
	9
yard?	38
X sole use garden CODE ONE ONLY Y sole use yard ASK Q. 5(a)	(\$)
0 shared garden shared yard SKIP TO 0.6.	0 1
2 neither garden SKIP TO Q.6.	2
(a) <u>Is it</u> - too small for the household to sit in the sun (e.g. smaller than 10 feet x 10 feet)	(3)
ONE - at least big enough for the household to sit in the sun, but not equal in size to a tennis court	4
ONLY - substantial in size (e.g. equal in size to a tennis court or bigger)	5
6. One or two other questions about living here. Do you find the air in this neighbourhood clean or is it dirty, smoky or foul-smelling?	33
always dirty, smoky, foul-smelling	(x)
sometimes dirty, smoky or foul-smelling not dirty, smoky or foul-smelling DK	0-

QUESTIONNAIRE ON HOUSEHOLD RESOURCES &
STANDARDS OF LIVING IN THE UNITED KINGDOM
1967-68

	I	Housing and Living Facilities
	II	Employment
	III	Occupational Facilities and Fringe Benefits
	IV	Current Monetary Income
	V	Assets and Savings
	VI	Health and Disability
1	VII	Social Services
	VIII	Private Income in Kind
	IX	Style of Living

A Survey carried out from the University of Essex and the University of London (L.S.E.)

Queries should be addressed to: Miss Sheila Benson Skepper House 13 Endsleigh Street London WC1

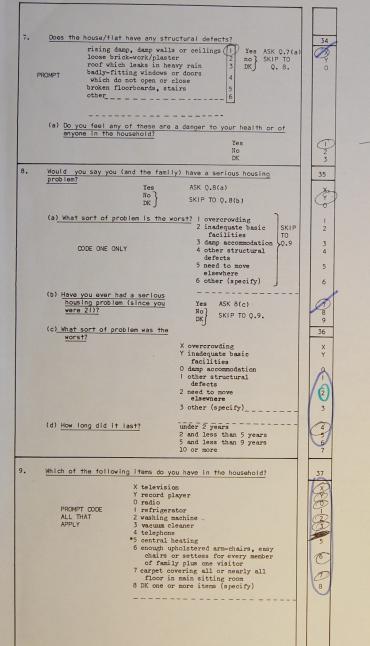

3 Lovet Willeams SERIAL NUMBER Date(s) of interview(s) Length of interview(s) or contacts Total actual interviewing time

Form of introduction

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

SUMMARY: COMPLETE AFTER INTERVIEW

Interview carried out at first call at second call at third or later call	10 (X) Y 0	Which sections were answered in whole or in part by which persons on the household? Informant	Write Section 1, 2, 3, etc.	5. Number of other households at address None	21
Information for household complete	11 (X) Y 1 2 3 4 5 6	2nd member CODE ALL THAT APPLY AS LISTED IN Q'AIRE (Some Sections may be and the section of the	14 (2)-24 15 (3) 16	6. Household living on ground basement floor 1st floor 2nd floor 3rd floor 4th floor 5th or above Specify	22 X Y 1 2 3 4 5
Soc. Services Inc. in kind Style of living (b) Reasons if incomplete	7 8 9	listed twice)	17 3	(a) Is there a lift in the building? Yes	6 7
— ill/disabled does not know information unwilling to give information other (specify)	X Y O 1	4. Semi or detached house or bungalow Ter. h'se or bungalow Self-con. flat in block Self-con. flat in house Other (specify)	19 20 X Y 0 1 1 2 3 4	7. Is there an internal or external flight of at least 4 steps or stairs to the dwelling entrance? Yes No	23

eventually of its blove - it will continue oll the more

had be get out of rooms I brokend thou - council bound become husbands had spot on long would have had to mait on the list for a couple of years.

QUESTION 13(a)

"Marriage": include common law marriage if in fact revealed by informant.

QUESTION 13(b)

Code whereabouts of parents only in terms of the replies so far given (or given later) by the informant. Direct questions might seem to be very offensive and they must be avoided. Indirect questions will be helpful according to the circumstances. For example, it may transpire that one child is the half-sister of another. It would then be very reasonable to ask "How are they related?" Or when it becomes obvious that one parent is not present, it would be reasonable to ask "Does John see his father regularly?"

"Accepted stepfather" or "Accepted stepmother" describes a man or woman not legally married to the natural mother or father of the child(ren) who has been in the household for at least 13 weeks and who is clearly accepted by the informant as the "stepfather" or "stepmother" of the child(ren) living in the household, albeit not accepted by law in this role. QUESTION 14(a) Play within easy reach

This means that the mother can rush to a tearful child within, say, 30 seconds of hearing a wail. A "safe place" could of course include the garden.

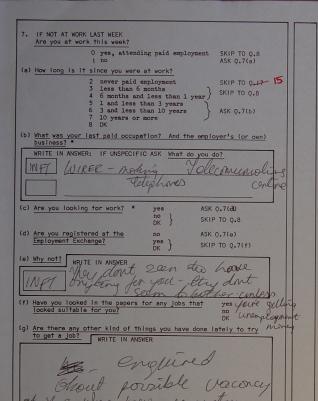

the was out of

13. ASK ALL WITH CHILDREN OR WITH CHILDREN LIVING TEMPORARILY AWAY (IF NONE SKIP TO 0.17)
We have to check on adopted children or step-children. Have you or your husband/wife been married before?
X yes, married twice or more > F ANY CODED
Y no, married once O never married or too young SKIP to Q.I3(b)
I married DK times 2 does not apply
(a) Is the child (are any of the children) In the household from a previous marriage? 4 no CODE EACH CHILD 5 DK
(b) <u>is the child (are any of the children) an</u> 6 yes, adopted adopted or foster child? 7 yes, foster
CODE EACH CHILD 9 DK
INTERVIEWER: NOTE ANY HELPFUL INFORMATION SELOW AND CODE FOR EACH DEPENDENT CHILD X both (natural) parents present: married Y 1 : not married : and accepted stepfather 2 father present: and legal stepfather 3 and accepted stepmother 4 mother present only 5 father present only 6 neither present: both alive 7 neither present: father alive 8 neither present: mother alive 9 neither present: neither alive
14. ASK ALL WITH CHILD AGED I - 4
Is there a safe place for him/her to play within easy reach of
the home? Y yes O no
1 DK 2 does not apply
15. ASK ALL WITH CHILDREN AGED 5 - 10 Is there a safe place nearby to which he/she can go unaccompanied
to play? 3 yes
4 no 5 DK
6 does not apply 16. ASK ALL WITH CHILDREN AGED 1 - 10 Code Child.
16. ASK ALL WITH CHILDREN AGED I - 10 Do the children have enough good places to play indoors without troubling the neighbours?
X no, not enough space and annoys neighbours Y no, not enough space
O no, enough space but annoys neighbours I yes
2 DK 3 does not apply
17. ASK ALL
How long have each of you in the household lived at this
Y all life 0 less than 3 months 1 3 months and less than 6 months 2 6 months and less than 1 year 3 1 year and less than 2 years 4 2 years and less than 5 years 5 5 years and less than 15 years 6 15 years or more 7 DK
(a) How many times have each of you moved in the past two years?
l once
2 twice 3 three times
4 four times 5 five times
6 six or more times 7 DK

QUESTION 8 Work record

Our aim is to trace persons whose work record is not full and to establish both numbers of weeks off work and numbers of weeks in which fewer than 30 hours were worked.

Weeks off work in year

The procedure is first to ask the general question about numbers of weeks off work. Some informants will be uncertain of the right answer. They can be encouraged by prompts about the last spell off work for unemployment, then sickness and so on down the list. Whenever it is clear they are going back more than 12 months you should move on to the next eventuality on the list. In the appropriate column note the number of weeks for all spells of unemployment, sickness, etc. You must record "O" in all open boxes when the person has had no spell off work for that reason. You may ignore the codes "X" and "Y" under each open box. They are for office use. For easy reference you can record each spell off work alongside the months listed below. (You may in rare instances interview persons, say, who had five or six spells off work through sickness and may need to show some rough working to arrive at the right total. (Please leave any rough working in case of queries.)

List member of household (informant, 2nd, 3rd) and weeks off work and reason

January	July
February	August
March	September
April	October
May	November
Tune	December

Some informants may have a quick answer for the first general question (usually because they have a very full or almost empty record of work in the year). You should nonetheless use the same procedure of asking about each type of eventuality and each spell off work as a check. If an informant says he hasn't been off work except for "just odd days because of colds and so on" ASK How much would it amount to over the past twelve months — one week, two weeks? AND CODE ACCORDINGLY. For informants (e.g., housewives or students) who have only worked for a few weeks in the year, you may find it quicker to establish first how long they were at work.

As with so many other questions about "the last twelve months" in this questionnaire, informants will often find it helpful if you encourage them to think forwards from a date exactly a year ago.

3-448

QUESTION 9

Exclude Bank Holidays in counting up holiday entitlement. List number of weeks to nearest week. Do not insert " $\frac{1}{2}$ ".

QUESTION 10 Occupation

See instructions above for Q. 7(b). Start by recording member of household in left-hand box (informant, 2nd, 3rd, etc.) and then carefully note occupation and industry or business. The office will code in the right-hand columns on the basis of your information. Avoid all vague terms, e.g. "engineer". If you find the answer too general or difficult to understand always ask "What do you do?" and write in the answer. In many households there will be only one or two persons who have been at work in the past twelve months. If necessary you can use all the space in the box just for one or two persons, providing it is clear to which person(s) the information applies.

QUESTION 11 Change of Job

Note that sub-questions (a) - (d) apply only to persons changing their jobs less than five years previously.

 $11(c).\ IRU,$ etc., means Industrial Rehabilitation Unit or any other Government training centre.

QUESTION 12 Training Course

Our object is to check on men taking a re-training or training course, whether or not they changed their job. Some men may have taken a course and gone back to their former job or employers. Others may be unemployed and yet have taken such a course.

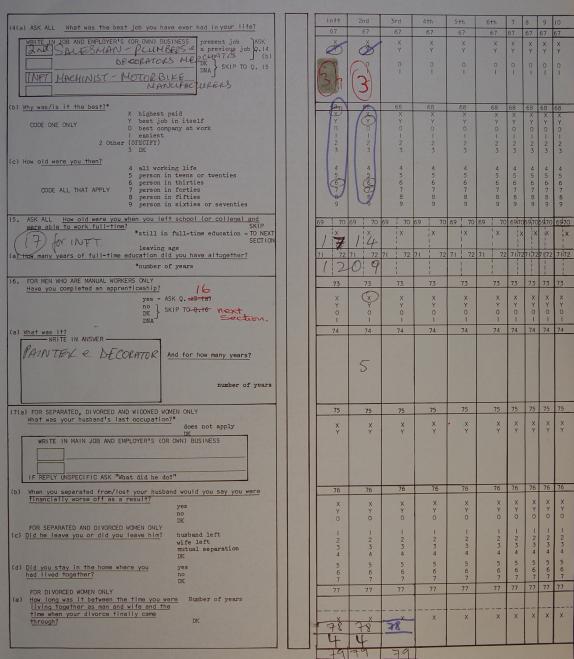

QUESTION 13 Fall in Earnings

You may be asked what you mean by "big" fall. Accept whatever the informant thinks is big. Put the information in the box, including the approximate earnings previously as well as the subsequent earnings and code the extent of the fall in the right-hand columns.

NB is by sol

9. You've told me how many weeks paid holiday you took last year. How many weeks are you entitled to (excluding Bank Holidays)?
* number of weeks

QUESTION 16 Pension

Only include if a pension scheme has been worked out in relation to the business, or is available from an insurance company or another body, because of the nature of the business or self-employment. Note that provision is made in a series of questions on this page for entries to be made in the office (Qs 16a, 16b, 17a, 18c). Much depends, however, on the information you can provide in boxes on the left, leaving us to make necessary calculations.

QUESTION 19 Cheap goods and services

You should normally expect positive answers. A garage-owner may be able to purchase a car and run it well below ordinary retail prices. A grocer will obtain household stores cheaply. An insurance company sometimes reduces certain premiums. A small-holder may receive supplies cheaply in exchange for produce at market costs. There are exchange arrangements between people in different trades. It will, of course, be difficult to explore all these things properly but Q. 19a conveys our object and you should probe carefully whenever possible.

QUESTION 20 Tax savings because of combined home and business

The real incomes of many self-employed persons tend to be underestimated. Their difficulties are not always easy to explain to the tax authorities and in practice low real incomes and insecure incomes are compensated because part of housing and other costs can be offset against tax. Ask the questions openly and straightforwardly.

If informants seem doubtful about answering, say: "We have nothing at all to do with the tax people. We know it is difficult for you to divide costs between the business and yourself. But we also know that even if they have more problems many self-employed persons can live a little more cheaply than people getting a salary. I wonder whether you'd mind guessing how much more cheaply—I mean because of savings of tax".

CURRENT MONETARY INCOME

General

This section asks questions in turn of the employed, the self-employed and then everyone, including those who are not employed. Our object is to obtain reliable estimates of income, before and after tax, for each income unit in the household, both for "last week" and "the last 12 months".

This is any person aged 15 or over, or if in full-time education any person aged 19 or over, together with wife or husband (if she or he has one) and children under 15 (or aged 16:18 fir in full-time education), if any. According to this definition a man, wife, and children aged under 15 count as one income unit, but a middle-aged widow and a son who is a university student, or an elderly widow and a single daughter of 40, so who is two income units. A household consisting of man and wife with three single children has real university of age and who are all over 15 years of age and who are all over Kounts as four income units.

Allocating Income

Usually amounts of income can be entered in the appropriate column, according to the person receiving it. Do not enter any income twice. Do not, for example, enter a particular amount both for the wife and the husband. Nor need you split up any amount part of which is payable for a dependent wife or child. Thus, do not attempt to divide up the total of family allowances; enter the total in the wife's column. And enter an amount for sickness benefit, say, even if it includes sums for the wife and children, in the husband's column (if indeed it is he who receives it).

Gross and Net

In the first question you carefully ask for the last pay net of deductions and go on in the second question to establish what these deductions are. The answers to both questions effectively give gross and net earnings for the last period for which pay was received and you can build up further information in the questions that follow. You should be conscious of this distinction throughout the section. It will not always be possible to get information both for income after tax and income before tax. Remember that if you cannot get an answer for one you may be able to get it for the other. Make a note whenever you can. We can calculate in the office.

Last 12 months

Though you start by finding what was the last amount of pay received it is very important also to find what was the average pay during the previous 12 months and gradually build up the total income received by the income unit and the household in those months. You have already filled in a work-record and this will help you to answer several of the questions in the section.

QUESTION 1 Last earnings

Remember to check earnings for each member of the household, even those of a wind who had a job for only a few weeks in the year, a young son who works only on Saturdays, and a retired man with a part-time job. Second or subsidiary earnings are dealt with in Q. 14. Note that each digit is ruled off from the next. Insert "O" in any column which does not apply. Please note also that we have allowed wider columns on these income pages so that you have enough room to write in figures. But note that you will have to indicate which member of the household received any income if you are obliged to use a fifth or sixth column.

QUESTION 2 Deductions

Don't forget that a total is better than nothing. If the informant is uncertain say, "I believe it is on your pay slip" and encourage him or her to check. We have asked you to put a tick if in fact you are shown a slip or the informant reads off the amounts. As before a tick if in fact you are shown a slip or the informant reads off the amounts. As before a tick if in fact you to put a low in the member of the household: "Int." "2nd" "3rd", etc.

National Insurance contributions
A male employee ordinarily pays 15s. 8d. and a female employee 13s. 2d. per week, although note that a married women can elect to pay only 7d. per week to cover industrial injuries benefits. Boys under 18 pay 10s. 1d. and girls 8s. 5d. per week. Persons over 18 who are contracted out of the graduated pensions scheme pay a higher flat rate insurance contribution of 18s. 1d. (men), 14s. 8d. (women).

flat rate insurance contribution of 18s. Id. (men), 14s. 8d. (women).

Graduated pension contributions

The employee contributes 41 per cent of each pound of gross weekly earnings between the ninth and the eighteenth, i.e. approximately 114d. for each of these pounds, plus \(\frac{1}{2} \) per cent for each pound between the 19th and the 30th, i.e. rather more than 1d. for each of these pounds. In fact a man with gross weekly earnings of \(\frac{1}{2} \) pays nothing, one with \(\frac{1}{2} \) pays 4s. 0d., one with \(\frac{1}{2} \) pays 4s. 0d., and one with \(\frac{1}{2} \) pays 4s. 0d., one with \(\frac{1}{2} \) pays 4s. 0d., and one with \(\frac{1}{2} \) pays 4s. 0d., one with \(\frac{1}{2} \) pays 4s. 0d., and one with \(\frac{1}{2} \) pays 4s. 0d., and one with \(\frac{1}{2} \) pays 4s. 0d., one with \(\frac{1}{2} \) pays 4s. 0d., or a with \(\frac{1}{2} \) pays 5s. 0d., and one with \(\frac{1}{2} \) pays 6s. 0d., and one with \(\frac{1}{2} \) pays 4s. 0d., and one with \(\frac{1}{2} \) pays 4s. 0d., one with \(\frac{1}{2} \) pays 5s. 0d., and one with \(\frac{1}{2} \) pays 4s. 0d., and one with \(\frac{1}{2} \) pays 4s. 0d., one with \(\frac{1}{2} \) pays 5s. 0d., and one with \(\frac{1}{2} \) pays 4s. 0d., one with \(\

QUESTION 3 Highest and lowest

Check the number of weeks worked by turning up the work record. Some people's earnings will have varied only in one or two weeks of the year and it will not be difficult for you to establish an average in (b). Remember Q. 3(b) is very imported. Other people's earnings may have varied widely, either because of changes of job or variations in overtime. Do not include variations due to holidays or sickness. If it is difficult to arrive at an average write in the box or in the margins, e.g. 10 weeks @ £15 10s., six weeks @ £15 10s. and 32 weeks @ £24 11s. We will work out the rest. Do not include weeks of holiday or sickness, which are explored later.

QUESTION 4 Bonuses

If a commission or bonus has been included in Q. 3 do not now amend the answer to that question. If the information is given for the first time write the amount in the box and also strike out "Before" or "After" Tax as appropriate.

QUESTION 16 Supplementary Benefit

It is most important that you should not overlook anyone who may be receiving or who has received supplementary benefit. There are two problems. One is, as noted above, that an informant may neglect to tell you that a standard benefit, like retirement pension and sickness benefit, is in fact supplemented. The other is that the official term "supplementary benefit" is fairly new. You may therefore have to prompt "supplementary assistance?", 'national assistance?" or "public assistance?".

QUESTION 16(c) Rent paid by Supplementary Benefits Commission

If the rent is in fact paid by the S.B.C. we shall be asking later how much that is

Note that you have already asked how many years it is since such a man last worked (in Section II). Now you are asking for the actual year when last at work, and, if it is 1955 or a later year, for the wage and household income. Do not neglect to find the composition of the household at that time (for example, write: man, wife and adult single son, or, man, wife and wife's widowed mother). We realise memories may be faulty but most people remember the last occasion they were at work and we are anxious (for retired and disabled persons, for example) to get a rough estimate of their fall in income upon giving up work. In the office we shall of course allow for average wage increases in the intervening years in interpreting the information you collect.

cluscreporcy of to whether he ues entitled b inenflowert tuy A single payment may be made to meet an exceptional need—such as bedding, clothing or household equipment. It may also be made to meet the said he was a such as bedding, clothing or household equipment. It may also be made to meet the said he was a such as the said he was a such as a suc

QUESTION 19 Employer's pension

The question is in a form which allows for the possibility of an expoliceman, ex-serviceman or ex-civil servant drawing a pension though still holding a subsequent job. Service pensions should be included here but not war pensions, which have been covered in Q. 15. As before: Strike out Before or After Tax as appropriate.

QUESTION 6a Cars, Vans

Note that in Section II you will have noted any car owned by the business or firm and whether it is also used privately. Do not count this car here also but find out whether there is a second car—e.g. wife's. If informant unable to value a vehicle note instead its make, type and year of manufacture to enable us to look up its value.

QUESTION 6c Debts on vehicles

Note that the question does not apply only to payments which are overdue but to the total sum still owing. You will usually have difficulty in excluding interest from the amount owed. If the amount owed is estimated at less than £50 record the sum and do not take up time making sure that the interest is deducted. But if the amount owed including the interest element is £50 or more ask for the details listed under (c). We will then make an estimate in the office.

QUESTION 7 Life Insurance

If there is more than one policy add up the payments and, if necessary, note any difference in frequency or years of payment. Note that our main object is to establish the equivalent current value in cash of policies they hold. The majority of households will hold policies of little current value and you will see that if they pay less than 10s. a week we do not ask for any details.

QUESTION 8 Value of saleable assets

Please note that we do not envisage that goods in everyday use — beds, blankets, basic furniture, crockery, clothes — need to be valued. We are interested only in items of value that could be sold without serious detriment to the household and its daily life if some ready cash was badly needed. Jewellery, furs, stamp collections, works of art, antiques, and collections of books, might be sold and we need to obtain an approximate estimate of their total current worth. Naturally enough we cannot expect precise valuations and you will find the minimum value of £25 for an article (or a group of articles — e.g. a number of pieces of jewellery) helpful in avoiding protracted discussion of the value of articles used every day in the home.

QUESTION 9 Other assets

Rarely will there be any kind of asset not covered by our other questions. But by asking this general question you may be given information that belongs in the answer to another question. The informant may have misunderstood a question. But be careful not to include an item here which is already covered elsewhere.

QUESTIONS 10 & 11 General assets sold and windfalls

It may be difficult for you to secure an estimate of money raised or spent on "ordinary living expenses" but you will find that our object is fairly clear and once you understand it you can probe for an estimate. We do not want information about sums of money invested in new assets, in replacing old assets (e.g. property, including houses and cars) and in savings, but only information about sums of money spent in the ordinary way on housekeeping, food, clothing, and entertainment. An estimate is better than nothing. Note that we are not asking you to waste time checking small amounts of less than £25.

QUESTION 10 Assets sold in last 12 months

Some people, especially the elderly, will have sold some of their assets in the last 12 months to bolster a low income. This can be an important contribution to their standard of living. Savings—Note that each item should be prompted carefully, especially to persons who have already told you they have sizeable amounts in savings, stocks and shares, etc. Note that we are not interested in this question in total sums which amount to less than £25 in the 12 months. Nor are we interested in amounts that may have been saved from income and spent in the same year (e.g. savings for Christmas or a holiday).

Partial use of sales or savings for living expenses—In some cases property might have been sold, say, and part of the money spent but part of it saved. Try to get a total estimate only of the sum spent on ordinary living expenses.

records or red or red

VI HEALTH AND DISABILITY

QUESTION 1 Health

Do not probe for the names of disabling illnesses or conditions, unless the informant happens to mention them.

QUESTION 2 Unwell today

Note that the emphasis is on "today" and that you are instructed to complete the questionnaire as if all questions applied to the date when you first made contact with the household. This means that if you have postponed an interview because of illness you should ask all the questions about the day you first called.

QUESTION 2a Off work

Check with the work record (page 8) where weeks off work will have been established. But here the information is needed as the basis for general questions about current illness and disability.

QUESTION 2a (i) & b (i) Number of weeks

If more than a year write "52". If the informant cannot be sure of the exact number and there is uncertainty whether it is less or more than eight weeks seek confirmation of the exact period from the individual concerned at a second call if necessary.

QUESTION 2c Regularly

That is, at least once a month for the past three months in connection with the present illness or disability.

QUESTION 3 Condition affecting activity

This question is designed to prepare the ground for the all-important Q. 7. You are not asked to trace every conceivable disability or condition from which people may suffer. Many of them, anyway, will not know diagnostic terms even if you ask them. Instead, you ask about conditions which restrict activity, show Flashcard No. 6 (which is nearly the same list as prompted verbally) and code any part of the body or faculty with which "trouble" is reported. You do not explore all possible effects but only a few examples of effects in which we are particularly interested. Remember you are only trying to find out about certain conditions, not every condition.

 $\ensuremath{\text{Nerves}}$ Pay particular attention to the need to prompt for any trouble with "nerves".

Reading ordinary print

Note that your code "No" only if a person cannot read print in a newspaper. Do not code "No" if a person merely has difficulty. For someone who cannot read interpret the question as "seeing" print in newspaper. We are interested at this point in sight not literacy.

Note that if an informant does not admit difficulty with hearing but it is observed, you can code accordingly.

to tour leser the seas

QUESTION 19 Housekeeping and board

The question refers to ALL INCOME RECIPIENTS including pension The question refers to ALL INCOME RECIPIENTS including pensioners, as well as earners, who contribute to the housekeeping expenses. Be careful that you probe for everyone in the house, including adolescent earners. Sometimes the actual sum available for housekeeping will be quite different from that suggested by the total income of the household. The husband or teenagers may retain quite large sums not only for their own use but because the pattern of responsibility in one household for expenditure may be different from that in another household which has the same composition. Housekeeping can be a touchy point if both husband and wife are present, and it is perhaps best dealt with by interviewing one of them on their own (the housewife preferably) and, if possible, checking later with the other (the husband). If both husband and wife are present avoid expressing any surprise or criticism if you think the housekeeping is small. Also avoid indicating any opinion on the question of whether wage-earners should pay bills. Try to imply that all arrangements are equally possible. We have listed the common ones, but there will be others. REMEMBER TO CODE EACH INCOME RECIPIENT.

QUESTION 19 (b) Money back

This can be daily fares, insurances or clubs paid, dinner money, or simply "spending money". Some teenagers hand over their wages but get clothing bought. Usually this question will apply to teenagers, but some husbands may get money from the housekeeping for their cigarettes and beer mid-week.

QUESTION 19 (c) Payment of housekeeping bills

Often the husband will pay some larger bills, but alternatively he may pay housekeeping but expect to "help out" if a heavy bill comes in. We realise that an estimate may be rough but try to get an average contribution. Teenage children may buy food as "treats" for the household from the money they retain. Again try for an average.

QUESTION 20 Long-term saving

We are not interested in asking here whether the informant has savings (that was asked in Section V). Nor are we interested here in asking for short-term saving. Instead the question explores whether at the present time the informant manages to put aside savings for a long-term objective.

QUESTION 21 Ten years ago

To give us some idea of fluctuating fortunes we ask what things were like ten years ago. Some persons aged 35 or over will have been at home in their parents' households ten years ago and therefore we have to find what was the composition of the household. In any case, we require an estimate of the total money flowing into the household, and the number of adults and children that were supported at that time. Give the informant time to recollect. And check that income includes pensions, family allowances, etc. Fortunately, the informant will already have some idea of what you are after from the detailed questions asked earlier.

QUESTION 13

NHS means free, wholly paid for by the National Health Service. Private and amenity (paying) beds in NHS hospitals should be coded as private.

QUESTION 13(b) Number of nights

If a person has had two or more spells in hospital add the total number of nights together,

QUESTION 13(c) Name of hospital

This will be used in the office to code type of hospital.

QUESTION 14

Ill in bed means actually in bed for at least half the day.

QUESTION 15

Visits by and to a doctor will include calls when a person is no longer in bed but up and about. The questions are not, therefore, dependent on the answer yes to Q. 14. When the household is large and/or when there have been several visits it may take you a little time to obtain a reliable answer. Remember that in cases of difficulty it is usually best to approach the answer by asking: "When did you last see your doctor?" "And when was the time before that?" "So that means you saw your doctor seven times altogether in the last 12 months?" Remember that we want to count each consultation, even if there are two consultations on one day or on succeeding days. Remember also to include locums and other (alternative) doctor seen in this period.

QUESTION 15(c) Visits paid for

If the informant is a wife who makes a visit to her NHS doctor and pays later for the pill, which he prescribes, this should still be counted as a NHS visit.

QUESTION 16 Spectacles

Most people pay in part for spectacles even under the NHS but some obtain them free by paying and then claiming a refund on test of means (by the SBC).

QUESTION 18 Doctor at hospital

It is the number of occasions we want to know, not the number of doctors seen at the hospital.

Visits to dentist

Remember to ask number of visits, not number of courses of treatment. Home help

We are interested only in the use of a local council's Home Help Service. Someone from the Welfare

We mean a social worker or officer fro ma Council health, welfare or children's department who is concerned with some aspect of family welfare. Include a health visitor, say, but not an officer from the Supplementary Benefits Commission or someone from a voluntary organisation — like the WVS or Salvation Army

QUESTION 18(a) Paying a dentist

The point is that very poor people can get free dentures and do not have to pay the £1 for a course of treatment.

QUESTION 18(b) Home help

Some councils charge for a home help's service on test of means.

Finally, I'd like to ask a few questions in your leisure-time and in managing at h	about the kind of things you do
