Form of introduction

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

SUMMARY : COMPLETE AFTER INTERVIEW

1. Interview carried out at first call at second call at third or later call	10	3. Which sections were answered in whole or in part by which persons on the household?	Write Section 1, 2, 3, etc.	5. Number of other households at address	21

QUESTION 10

At this point put any christian name of informant in first box on back flap, then christian names of all other adults and children in household. In complex households always list children immediately after their parent(s) or guardian(s). Otherwise, in the case, say, of a married couple and adolescent children you may find it easiest to list according to age: first the wife who is, say 54, husband 55, children 26, 24, 20, 17 and 14. When you write in information throughout the questionnaire please keep rigorously to the particular column for each named person in the household. Specifically "household" information is recorded in the first column. The informant's answers about himself should always be entered in the next column. The list of members under Q. 10 may have to be later modified according to who is temporarily residing in the household or who is temporarily away. This should be checked carefully. **Boarders** of more than four weeks residence should be recorded as members of the household; lodgers and sub-tenants will require separate questionnaires.

2nd &
Boarder

** HOUSEHOLD TYPE

On the back of the questionnaire you will find a code list of household compositions. When you are checking the questionnaire put the appropriate code for this household in the box allocated under the double asterisk

Definition of a Household

A private household comprises one person living alone or a group of persons living together, having some or all meals together and benefiting from a common housekeeping. Persons who have resided in the household for at least four weeks and are not expected to leave shortly, and persons who have resided in the household for less than four weeks but are not expected to leave again after that period, should be listed as members. Persons who are felt to be members of the household but are away (e.g. students or men at work) should only be included if they have been away for less than 13 weeks and are expected back within the total period of 13 weeks (code under 10(d)).

QUESTION 10(c)

Age-group: code as below

0 - 1	01
2 - 4	02
5 - 9	03
10 - 14	04
15 - 19	05
20 - 29	06
30 - 39	07
40 - 49	08
50 - 59	09
60 - 64	10
65 - 69	11
70 - 79	12
80 and over	13
DK	X
NA	Y

QUESTION 10(d)

Code reasons as below

Hospital/nursing Home/convalescent Home	1
Staying with relative or friend	2
Otherwise away on holiday	3
In armed services/merchant navy	4
Otherwise working away from home	5
Prison, approved school, Borstal, detention, etc.	6
Children's Home or foster home	7
Boarding school, college, university	8
Other (specify)	9

QUESTION 10(f) — Court order

A maintenance order secured through the courts. If no action has been taken to confirm the separation then code 1; in this situation at least the spouse in the household accepts that man and wife are not living together and there is no immediate prospect of them so doing.

*
CODE 3
112 or
225 ?
→

QUESTION 11

If answer yes, complete other parts of question and amend Q. 10 if someone included in answers to that question who proves in fact to be a temporary visitor or guest (i.e. who has stayed less than 4 weeks and not expected to stay for total period longer than 4 weeks).

QUESTION 11(a)

If there is more than one visitor enter information for all in box or on this left hand page.

QUESTION 11(f) Code as follows:

Relative staying without payment	1
Friend staying without payment	2
Relative staying with payment	3
Friend staying with payment	4
Other person staying with payment	5
Other (e.g. nurse/student) —specify	6

QUESTION 12

If any person is felt to belong to the household and is expected to return to it after a total absence of less than thirteen weeks (e.g. at University, in hospital, at work, staying with relatives), then the interviewer should include such a person in the replies to Q. 10. But the information should also be recorded here in Q.12.

QUESTION 12(h) Prompt and code as follows:

Hospital/nursing/convalescent/residential Home	1
Staying with relative or friend	2
Otherwise away on holiday	3
In armed services/merchant navy	4
At boarding school, college or university	5
Otherwise working away from home	6
Approved school/Borstal/detention centre, etc.	7
Children's Home/foster home	8
Prison	9
Other (specify)	x

QUESTION 8 Work record

Our aim is to trace persons whose work record is not full and to establish both numbers of weeks off work and numbers of weeks in which fewer than 30 hours were worked.

Weeks off work in year

The procedure is first to ask the general question about numbers of weeks off work. Some informants will be uncertain of the right answer. They can be encouraged by prompts about the last spell off work for unemployment, then sickness and so on down the list. Whenever it is clear they are going back more than 12 months you should move on to the next eventuality on the list. In the appropriate column note the number of weeks for all spells of unemployment, sickness, etc. You must record "O" in all open boxes when the person has had no spell off work for that reason. You may ignore the codes "X" and "Y" under each open box. They are for office use. For easy reference you can record each spell off work alongside the months listed below. (You may in rare instances interview persons, say, who had five or six spells off work through sickness and may need to show some rough working to arrive at the right total. (Please leave any rough working in case of queries.)

List member of household (informant, 2nd, 3rd) and weeks off work and reason

January.....	July.....
February.....	August.....
March.....	September.....
April.....	October.....
May.....	November.....
June.....	December.....

Some informants may have a quick answer for the first general question (usually because they have a very full or almost empty record of work in the year). You should nonetheless use the same procedure of asking about each type of eventuality and each spell off work as a check. If an informant says he hasn't been off work except for "just odd days because of colds and so on" ASK How much would it amount to over the past twelve months — one week, two weeks? AND CODE ACCORDINGLY. For informants (e.g. housewives or students) who have only worked for a few weeks in the year, you may find it quicker to establish first how long they were at work.

As with so many other questions about "the last twelve months" in this questionnaire, informants will often find it helpful if you encourage them to think forwards from a date exactly a year ago.

*
↓
No information obtained

QUESTION 9

Exclude Bank Holidays in counting up holiday entitlement. List number of weeks to nearest week. Do not insert " $\frac{1}{2}$ ".

QUESTION 10 Occupation

See instructions above for Q. 7(b). Start by recording member of household in left-hand box (informant, 2nd, 3rd, etc.) and then carefully note occupation and industry or business. The office will code in the right-hand columns on the basis of your information. Avoid all vague terms, e.g. "engineer". If you find the answer too general or difficult to understand always ask "What do you do?" and write in the answer. In many households there will be only one or two persons who have been at work in the past twelve months. If necessary you can use all the space in the box just for one or two persons, providing it is clear to which person(s) the information applies.

QUESTION 11 Change of Job

Note that sub-questions (a) - (d) apply only to persons changing their jobs less than five years previously.

11(c). IRU, etc., means Industrial Rehabilitation Unit or any other Government training centre.

QUESTION 12 Training Course

Our object is to check on men taking a re-training or training course, whether or not they changed their job. Some men may have taken a course and gone back to their former job or employers. Others may be unemployed and yet have taken such a course.

QUESTION 13 Fall in Earnings

You may be asked what you mean by "big" fall. Accept whatever the informant thinks is big. Put the information in the box, including the approximate earnings previously as well as the subsequent earnings and code the extent of the fall in the right-hand columns.

*

No
information
obtained

*

No info.
for 2.

QUESTION 14 Best job

If you are asked "What do you mean by 'best'?" you should say "It is up to you to decide" (adding, but only if necessary, "whether it's best because of the money, the people, the job in itself or anything else"). Of course there will be people who give a mixture of reasons. Code the one they treat as most important. If they are undecided code DK.

*

↓

QUESTION 15

A few persons — e.g. students — may have worked for part of the last year, or may work every Saturday and still be in full-time education. We will be asking about them later. Code them as still in full-time education.

No information
obtained.

QUESTION 15(a) Years of full-time education

The question is worded so that if someone has missed a year's schooling because of illness, say, between the ages of 5 and 14, he can adjust his answer accordingly. You can check (or aid other informants trying to reach an answer) by deducting five years from the leaving age and then asking if the result allows for any absence because of hospitalisation, war evacuation, military service, or any other reason. Note that full-time education can be provided in hospital. Only deduct a year if ALL of it was spent out of school. When writing in leaving age and number of years education remember again to insert each digit.

QUESTION 16 Manual Workers

If you are in doubt from what you have been told about a man's job whether it is manual ask, "How do you do your work? Is it mostly heavy work, or operating a machine or mostly with your hands?" If he indicates any of these ask Q. 16. If still in doubt ask the question and write a note.

QUESTION 17(a) Husband's occupation

Follow same procedure as above under Question 10. It will be even more necessary to probe for the exact type of job. Encourage the woman to tell you what her husband did, since the answer is most important for us in classifying occupational status.

Husband kept
getting into
debt & eventually
became bankrupt.
He still is, but
"works fiddles" to
keep going.

QUESTION 16 Supplementary Benefit

It is most important that you should not overlook anyone who may be receiving or who has received supplementary benefit. There are two problems. One is, as noted above, that an informant may neglect to tell you that a standard benefit, like retirement pension and sickness benefit, is in fact supplemented. The other is that the official term "supplementary benefit" is fairly new. You may therefore have to prompt "supplementary assistance?", "national assistance?" or "public assistance?".

QUESTION 16(c) Rent paid by Supplementary Benefits Commission

If the rent is in fact paid by the S.B.C. we shall be asking later how much that is.

*Does not
pay rent.*

QUESTION 17 Single Grant

A single payment may be made to meet an exceptional need — such as bedding, clothing or household equipment. It may also be made to meet charges for glasses, dentures or dental treatment obtained through the National Health Service.

QUESTION 18 Income in last year at work

Note that you have already asked how many years it is since such a man last worked (in Section II). Now you are asking for the actual year when last at work, and, if it is 1955 or a later year, for the wage and household income. Do not neglect to find the composition of the household at that time (for example, write: man, wife and adult single son, or, man, wife and wife's widowed mother). We realise memories may be faulty but most people remember the last occasion they were at work and we are anxious (for retired and disabled persons, for example) to get a rough estimate of their fall in income upon giving up work. In the office we shall of course allow for average wage increases in the intervening years in interpreting the information you collect.

QUESTION 19 Employer's pension

The question is in a form which allows for the possibility of an ex-policeman, ex-serviceman or ex-civil servant drawing a pension though still holding a subsequent job. Service pensions should be included here but not war pensions, which have been covered in Q. 15. As before: **Strike out Before or After Tax as appropriate.**

QUESTION 20 Miscellaneous allowances and cash income

The various kinds of income have been laid out as compactly as possible but remember that two or more may need to be coded and you should prompt carefully. Underneath describe the type of allowance (so that we know to which code a particular amount refers) and the amount per week or per month. Ring either "1" or "2" depending on whether the allowance did in fact cover last week and strike out "Before" or "After" tax as appropriate. Make sure that in the case of allowances of husbands temporarily away from home that you have not already written in his earnings earlier as a member of the household. If you have do not write in any amount he pays. All we want here is any income which is not covered by earlier entries.

*
↓

Has to go to
Court each
week to get
the money.

QUESTION 20(b) Allowances for separated and divorced wives

Some wives receive money direct from their husbands (or via the court). Others have court orders but these are signed over to the Supplementary Benefits Commission, which collects the money and pays the mother a standard weekly allowance. We therefore want to avoid counting the amount in Q. 20 if that amount is already included in the figure for supplementary benefit listed under Q. 15. We also want to be able to sort out irregular payments of both money from court orders and supplementary benefit. Check carefully in all these instances and write a note if anything needs clarification. Fatherless families form a small proportion of the total sample of households. Where money from court orders is paid irregularly and the mother claims weekly from the Supplementary Benefits Office she might not always claim the full amount, or may delay her claim in which case she loses benefit. Check to see if such loss is occurring.

QUESTION 21 Allowances and sums paid to others

This question complements some of the sub-questions in Q. 20. Here we are concerned to find out about all cash payments or allowances amounting to at least 10s. a week or £25 a year. Note that married children frequently pay rent or bills for elderly parents and old people sometimes make considerable cash gifts to their children. Examples are payments for grand-children's clothing or holidays, payment of T.V. rentals and licence, cash gift for car.

The Inland Revenue
tried to claim 18/-p.w.
tax on the Court Order
money as "unearned
income" (!); but it was
rejected after an
appeal.

QUESTION 22 Tax relief

Our object is to gain further evidence about reciprocal aid but also to help us in interpreting the figures for earnings and deductions given earlier. Note that you are not expected to probe for amounts.

QUESTION 23

Property income is considerable for a small percentage of informants and tends to be of two types: income from only one or two houses and income from a range of properties. With a few people considerable time may need to be spent on getting a reliable answer to this question. Net income after tax may not be known so we deliberately seek gross income before tax, then expenses, and only finally income after tax. You may not be able to get the third but make sure you get a figure for the first. It may also be difficult to secure a figure for expenses of rates and repairs but remember that property-owners will often know the total sums entered on their income tax returns. It may even be helpful to remind informants of this: "I mean the total like that in your income tax return — gross income less expenses." Note that many owner-occupiers and tenants rent rooms and flats to others in their accommodation. Do not count the rent from a boarder living in the household.

7/11/71
P/W
all

V SAVINGS AND ASSETS

QUESTION 1 Personal

This excludes a business bank account which is covered by Q. 4. Avoid double-counting the same bank balance or assets when questioning husband and wife.

QUESTION 2 Savings

Note that you should proceed by prompting all items to see how many are appropriate, then try to establish a total and then establish totals for each item only as a check or if necessary. Care should be taken to avoid double-counting. If the informant is hesitant or confused repeat the question to make sure he or she knows what kind of savings you are referring to and THEN show Flashcard No. 4 to get the total. Then try to obtain an absolute total rather than a range. For example, you could ask: "Would you say the figure was at the top end or the lower end of that range—nearer X or nearer Y?"

QUESTION 2(c) Interest

Try to establish the amounts the informant receives in the form he receives it—that is, before tax is deducted or after it has been deducted at source. In difficult instances you need not waste time converting a "before tax" total into "after tax" so long as you make plain what it is. We will do that work in the office.

QUESTION 3 Value of stocks and shares

This question of the value of stocks and shares is crucial and every encouragement should be used to obtain an answer. Some informants simply will not know. Remember that brokers sometimes send an annual valuation. If there is considerable uncertainty, tactfully suggest or imply that it would be very helpful to know and take any opportunity to see the valuation or to leave a note (and s.a.e.) so that a more reliable estimate can be made and either you can pick it up at a second call or ask for it to be sent on.

QUESTION 3(b) Interest

Proceed as in Q. 2c above. Mostly amounts will be received after tax has been deducted.

QUESTION 4

This is to cover any type of business which is owned in part or in whole by the informant. Being a director does not necessarily mean ownership. The answer to this question should not duplicate the answer to the previous question. Shares come under Q. 3. This is to cover such things as shops, professional practices and small businesses of every kind except limited companies. In all cases make sure that money in the business, bank account and stocks are borne in mind when the valuation is made. When the business (e.g. shop or farm) is run from the owner occupier's dwelling, the value of the dwelling will often have been included in the answer to this question (i.e. Q. 25 in Section V). UNDER NO CIRCUMSTANCES MUST THE DWELLING BE COUNTED TWICE. The valuation should be on the assumption that the informant had to sell but was in no great hurry. A year or even more could be taken to find a purchaser. The valuation should NOT be made on the basis of: "What would you take for your business?"—that is, when the informant has to be persuaded to sell. NOTE that vehicles should be included in the valuation of a business—say of a haulage contractor, a cab owner or even a building contractor or window cleaner.

QUESTION 5 Other property

Remember that some people use two houses. Others have houses which they rent off to others. This last is not uncommon among elderly people who may be very poor themselves. A "boat" may include anything from a luxury yacht to a small rowing boat.

*Inf. can't put
any money into
bank, because if
she does she will
not get any
Supplementary.
T/fore she says she
has to keep all
her cash at
home.*

**
↓
No
information
for 2.*

VI HEALTH AND DISABILITY

QUESTION 1 Health

Do not probe for the names of disabling illnesses or conditions, unless the informant happens to mention them.

QUESTION 2 Unwell today

Note that the emphasis is on "today" and that you are instructed to complete the questionnaire as if all questions applied to the date when you first made contact with the household. This means that if you have postponed an interview because of illness you should ask all the questions about the day you first called.

QUESTION 2a Off work

Check with the work record (page 8) where weeks off work will have been established. But here the information is needed as the basis for general questions about current illness and disability.

QUESTION 2a (1) & b (1) Number of weeks

If more than a year write "52". If the informant cannot be sure of the exact number and there is uncertainty whether it is less or more than eight weeks seek confirmation of the exact period from the individual concerned at a second call if necessary.

QUESTION 2c Regularly

That is, at least once a month for the past three months in connection with the present illness or disability.

QUESTION 3 Condition affecting activity

This question is designed to prepare the ground for the all-important Q. 7. You are not asked to trace every conceivable disability or condition from which people may suffer. Many of them, anyway, will not know diagnostic terms even if you ask them. Instead, you ask about conditions which restrict activity, show Flashcard No. 6 (which is nearly the same list as prompted verbally) and code any part of the body or faculty with which "trouble" is reported. You do not explore all possible effects but only a few examples of effects in which we are particularly interested. Remember you are only trying to find out about certain conditions, not every condition.

Nerves

Pay particular attention to the need to prompt for any trouble with "nerves".

Reading ordinary print

Note that your code "No" only if a person cannot read print in a newspaper. Do not code "No" if a person merely has difficulty. For someone who cannot read interpret the question as "seeing" print in newspaper. We are interested at this point in sight not literacy.

Hearing

Note that if an informant does not admit difficulty with hearing but it is observed, you can code accordingly.

① - 'nerves'
= nervous
throat
complaints -

QUESTION 4 Special schools & centres

This question is asked only of persons who have been ill and off work or confined to bed or the house for eight weeks or more continuously, and those who are coded for any item in Question 3.

QUESTION 5 Date of onset of sickness or disabling condition

Our object is to establish the year of onset but the question is worded 'first have any condition' so as to allow for the fact that some conditions develop out of others. For persons with a disabling condition you ask, in effect, when all the trouble started.

Previous occupation

In the section on Employment you have already asked for the last occupation of everyone not now at work (p. 7). Some people change their occupation because of a disabling condition before finally being obliged to give up work. You should probe for the (previous) occupation which people had before any history of illness or disability started.

*Started
when husband
left home.*

Q5B code??

QUESTION 6 Mobility

You should code people according to their **usual** mobility, taking no account of a temporary illness or injury. "Usual mobility" may be interpreted as "for at least eight weeks and unlikely to become more mobile in the immediate future" or "for less than eight weeks but unlikely to become more mobile within at least that total period." Someone who spends most of the time in bed and needs help to get out to sit in a chair is defined as bedfast. Someone who can get out of his bed into a chair or wheelchair and who can walk indoors but not even a few yards outdoors without help is defined as housebound. The test is whether someone can walk on his own (without the assistance or company of any other person — though with or without sticks or crutches).

*as she was
not working
at the time,
but had
worked before
this time.*

QUESTION 7 Incapacity

In prompting this series of questions you may find it simplest to ask the question without the variation in brackets, unless it seems appropriate. Remember you are asking whether they have any difficulty in doing X. Sometimes certain questions will not apply to particular people or to particular situations. You will meet people who do not (or say they do not) wash down, negotiate stairs (living in bungalows), go shopping and do housework (especially some men). The question should then be asked in terms of "But would you have any difficulty in doing X if you had to?" The codes 0, 1, 2 are listed in increasing order of difficulty and you should check that you ring one of them for each item.

QUESTION 7e

It would be insensitive and unnecessary to ask questions about the daily activities of the bedfast. They are therefore excluded from this question and the rest of the series. You may encounter other people (e.g. advanced obesity) of whom it is clear that they cannot do certain activities. You may refrain from putting questions to them. The same is true of any situations in which the questions are likely to cause great distress. BUT AS A GENERAL RULE QUESTIONS 7 (e) to (i) SHOULD BE ASKED FOR ALL OTHER THAN THE BEDFAST AND CHAIRFAST.

QUESTIONS 8 & 9 Variation in incapacity

These questions explore whether the pattern of answers to Question 7 is permanent. Question 8 seeks any indication of seasonal variations (e.g. bronchitis) and Question 9 day-to-day variations in the effects of disability.

QUESTION 19 Housekeeping and board

The question refers to ALL INCOME RECIPIENTS including pensioners, as well as earners, who contribute to the housekeeping expenses. Be careful that you probe for everyone in the house, including adolescent earners. Sometimes the actual sum available for housekeeping will be quite different from that suggested by the total income of the household. The husband or teenagers may retain quite large sums not only for their own use but because the pattern of responsibility in one household for expenditure may be different from that in another household which has the same composition. Housekeeping can be a touchy point if both husband and wife are present, and it is perhaps best dealt with by interviewing one of them on their own (the housewife preferably) and, if possible, checking later with the other (the husband). If both husband and wife are present avoid expressing any surprise or criticism if you think the housekeeping is small. Also avoid indicating any opinion on the question of whether wage-earners should pay bills. Try to imply that all arrangements are equally possible. We have listed the common ones, but there will be others. REMEMBER TO CODE EACH INCOME RECIPIENT.

Does mft.
count as
recipient if
on a pension
Govt. allowance?
I have coded as
if she does.

QUESTION 19 (b) Money back

This can be daily fares, insurances or clubs paid, dinner money, or simply "spending money". Some teenagers hand over their wages but get clothing bought. Usually this question will apply to teenagers, but some husbands may get money from the housekeeping for their cigarettes and beer mid-week.

*
Do I put
here the →
information
given in
Q30 p93??
✓

QUESTION 19 (c) Payment of housekeeping bills

Often the husband will pay some larger bills, but alternatively he may pay housekeeping but expect to "help out" if a heavy bill comes in. We realise that an estimate may be rough but try to get an average contribution. Teenage children may buy food as "treats" for the household from the money they retain. Again try for an average.

QUESTION 20 Long-term saving

We are not interested in asking here whether the informant has savings (that was asked in Section V). Nor are we interested here in asking for short-term saving. Instead the question explores whether at the present time the informant manages to put aside savings for a long-term objective.

QUESTION 21 Ten years ago

To give us some idea of fluctuating fortunes we ask what things were like ten years ago. Some persons aged 35 or over will have been at home in their parents' households ten years ago and therefore we have to find what was the composition of the household. In any case, we require an estimate of the total money flowing into the household, and the number of adults and children that were supported at that time. Give the informant time to recollect. And check that income includes pensions, family allowances, etc. Fortunately, the informant will already have some idea of what you are after from the detailed questions asked earlier.

QUESTION 23 - Poor now

Stress genuinely and try to avoid facetiousness at this point. Question 23 (a) explores what the informant understands by feeling "poor". If the word "poor" seems inappropriate use the alternative "very hard up".

QUESTION 24 Poverty

Stress the word "poverty". Do not explain what you think it means if you are asked. Seek from the informant his definition and write it in the box as clearly as you can.

QUESTION 25 Voting

Ask for those old enough to have voted in the last election (March 1965). We are not concerned who they voted for (although they will probably say) but would like to know if they are sufficiently involved to vote at all. Be careful to reassure people that this is confidential and as far as you are concerned non-voting is blameless—many people consider that voting is legally compulsory or morally obligatory and so voting figures are over-estimated. Try to get a clear recollection by fixing the incident (time of day, who they went with) if necessary. Stress National, not local elections.

not y
careful.

QUESTION 26 Action on poverty

We are interested in what the informant thinks can be done. Give as full an answer as possible.

Please write in any additional notes.
