QUESTION 23 Poor now

Stress genuinely and try to avoid facetiousness at this point. Question 23 (a) explores what the informant understands by feeling "poor". If the word "poor" seems inappropriate use the alternative "very hard up".

QUESTION 24 Poverty

Stress the word "poverty". Do not explain what you think it means if you are asked. Seek from the informant his definition and write it in the box as clearly as you can.

QUESTION 25 Voting

Ask for those old enough to have voted in the last election (March 1965). We are not concerned who they voted for (although they will probably say) but would like to know if they are sufficiently involved to vote at all. Be careful to reassure people that this is confidential and as far as you are concerned non-voting is blameless—many people consider that voting is legally compulsory or morally obligatory and so voting figures are over-estimated. Try to get a clear recollection by fixing the incident (time of day, who they went with) if necessary. Stress National, not local elections.

QUESTION 26 Action on poverty

We are interested in what the informant thinks can be done. Give as full an answer as possible.

Please write in any additional notes.

INFT is very bitter about her 'lot'  
she feels she's better than the people  
that live around here - she  
doesn't "neighbour" with this lot"  
See social class question - they  
had an argument at this point of  
interview - H/B was a very plain man  
e seemed contented - in that he knew  
he couldn't do anything more than they've  
done in trying to get new accommodation -  
he reckons that they won't get somewhere now,  
until they are rehoused for a condemned area  
but INFT didn't stop talking about it.

WRITE IN ANSWER

*You'll never deplete poverty while you've got people talking about it. Nobody will get over the social evil of family allowances. I'm not bitter about it just because I've no children but to see all these people round here not going out to work - they don't need to when they get off this family allowance*
