Form of introduction

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

The Government could help people more. They are looking out to get him installed as Prince of Wales — they could give it to the needy people.

They lash out thousands to under developed countries they could spend it on the needy here.
