**Form of introduction**

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

#### QUESTION 4 Special schools & centres

This question is asked only of persons who have been ill and off work or confined to bed or the house for eight weeks or more continuously, and those who are coded for any item in Question 3.

#### QUESTION 5 Date of onset of sickness or disabling condition

Our object is to establish the year of onset but the question is worded "first have any condition" so as to allow for the fact that some conditions develop out of others. For persons with a disabling condition you ask, in effect, when all the trouble started.

##### Previous occupation

In the section on Employment you have already asked for the last occupation of everyone not now at work (p. 7). Some people change their occupation because of a disabling condition before finally being obliged to give up work. You should probe for the (previous) occupation which people had before any history of illness or disability started.

*\* I do not know what to code here  
HFT got this condition through pregnancy & giving birth to daughter.  
She was not working at that time - but the job she had before that was different to the one she has now - she was a bookkeeper in a Publichouse.*

#### QUESTION 6 Mobility

You should code people according to their usual mobility, taking no account of a temporary illness or injury. "Usual mobility" may be interpreted as "for at least eight weeks and unlikely to become more mobile in the immediate future" or "for less than eight weeks but unlikely to become more mobile within at least that total period." Someone who spends most of the time in bed and needs help to get out to sit in a chair is defined as bedfast. Someone who can get out of his bed into a chair or wheelchair and who can walk indoors but not even a few yards outdoors without help is defined as housebound. The test is whether someone can walk on his own (without the assistance or company of any other person — though with or without sticks or crutches).

#### QUESTION 7 Incapacity

In prompting this series of questions you may find it simplest to ask the question without the variation in brackets, unless it seems appropriate. Remember you are asking whether they have any difficulty in doing X. Sometimes certain questions will not apply to particular people or to particular situations. You will meet people who do not (or say they do not) wash down, negotiate stairs (living in bungalows), go shopping and do housework (especially some men). The question should then be asked in terms of "But would you have any difficulty in doing X if you had to?" The codes 0, 1, 2 are listed in increasing order of difficulty and you should check that you ring one of them for each item.

#### QUESTION 7e

It would be insensitive and unnecessary to ask questions about the daily activities of the bedfast. They are therefore excluded from this question and the rest of the series. You may encounter other people (e.g. advanced obesity) of whom it is clear that they cannot do certain activities. You may refrain from putting questions to them. The same is true of any situations in which the questions are likely to cause great distress. BUT AS A GENERAL RULE QUESTIONS 7 (e) to (i) SHOULD BE ASKED FOR ALL OTHER THAN THE BEDFAST AND CHAIRFAST.

#### QUESTIONS 8 & 9 Variation in incapacity

These questions explore whether the pattern of answers to Question 7 is permanent. Question 8 seeks any indication of seasonal variations (e.g. bronchitis) and Question 9 day-to-day variations in the effects of disability.

VIII INCOME IN KIND

FOR ALL

1. Now I'd like to ask about any help you give or receive from your family and friends.

Do you see any of your family or a relative who doesn't live here most days in the week or at least once a week? I mean, for example, your mother, your husband's mother, a married sister or brother, son or daughter? I'm thinking especially of any of your own family or in-laws living near. \*

WRITE IN RELATIVES SEEN

daily or almost every day	at least once a week
Father (Infs) Sister (Infs)	Sister (Infs) Cousins.

CODE seen one or more relatives most or all days in week  
ONE seen one or more relatives at least weekly  
ONLY no relatives or none seen weekly

DK

2. Do you regularly help anyone - a friend, a neighbour or someone in the family (PROMPT RELATIVES IN Q.1) - by doing things for them for example \*

- minding children and taking them out?
- preparing meals for a child or someone in the family, a friend or an old person?
- shopping?
- helping to arrange money matters?
- laundry or washing?
- cleaning?
- looking after/dressing them?
- driving to work, school or elsewhere?
- gardening?
- anything else? (SPECIFY)

I have coded under 1st, as they were all her relatives - even though they were of the others too.

**QUESTION 19 Housekeeping and board**

The question refers to ALL INCOME RECIPIENTS including pensioners, as well as earners, who contribute to the housekeeping expenses. Be careful that you probe for everyone in the house, including adolescent earners. Sometimes the actual sum available for housekeeping will be quite different from that suggested by the total income of the household. The husband or teenagers may retain quite large sums not only for their own use but because the pattern of responsibility in one household for expenditure may be different from that in another household which has the same composition. Housekeeping can be a touchy point if both husband and wife are present, and it is perhaps best dealt with by interviewing one of them on their own (the housewife preferably) and, if possible, checking later with the other (the husband). If both husband and wife are present avoid expressing any surprise or criticism if you think the housekeeping is small. Also avoid indicating any opinion on the question of whether wage-earners should pay bills. Try to imply that all arrangements are equally possible. We have listed the common ones, but there will be others. REMEMBER TO CODE EACH INCOME RECIPIENT.

**QUESTION 19 (b) Money back**

This can be daily fares, insurances or clubs paid, dinner money, or simply "spending money". Some teenagers hand over their wages but get clothing bought. Usually this question will apply to teenagers, but some husbands may get money from the housekeeping for their cigarettes and beer mid-week.

**QUESTION 19 (c) Payment of housekeeping bills**

Often the husband will pay some larger bills, but alternatively he may pay housekeeping but expect to "help out" if a heavy bill comes in. We realise that an estimate may be rough but try to get an average contribution. Teenage children may buy food as "treats" for the household from the money they retain. Again try for an average.

*all wages of 14p. to food  
family allowances  
house bills*

**QUESTION 20 Long-term saving**

We are not interested in asking here whether the informant has savings (that was asked in Section V). Nor are we interested here in asking for short-term saving. Instead the question explores whether at the present time the informant manages to put aside savings for a long-term objective.

**QUESTION 21 Ten years ago**

To give us some idea of fluctuating fortunes we ask what things were like ten years ago. Some persons aged 35 or over will have been at home in their parents' households ten years ago and therefore we have to find what was the composition of the household. In any case, we require an estimate of the total money flowing into the household, and the number of adults and children that were supported at that time. Give the informant time to recollect. And check that income includes pensions, family allowances, etc. Fortunately, the informant will already have some idea of what you are after from the detailed questions asked earlier.

QUESTION 23 Poor now

Stress genuinely and try to avoid facetiousness at this point. Question 23 (a) explores what the informant understands by feeling "poor". If the word "poor" seems inappropriate use the alternative "very hard up".

QUESTION 24 Poverty

Stress the word "poverty". Do not explain what you think it means if you are asked. Seek from the informant his definition and write it in the box as clearly as you can.

QUESTION 25 Voting

Ask for those old enough to have voted in the last election (March 1965). We are not concerned who they voted for (although they will probably say) but would like to know if they are sufficiently involved to vote at all. Be careful to reassure people that this is confidential and as far as you are concerned non-voting is blameless—many people consider that voting is legally compulsory or morally obligatory and so voting figures are over-estimated. Try to get a clear recollection by fixing the incident (time of day, who they went with) if necessary. Stress National, not local elections.

QUESTION 26 Action on poverty

We are interested in what the informant thinks can be done. Give as full an answer as possible.

Please write in any additional notes.

Wf [2nd] told me at the end of interview that he earned another £300 which I put down on P.18 Q.14. He wouldn't say any more about this eg under secondary job - but he said that he made £300 - full stop! The other thing that hasn't been put down anywhere is that the 1st & 2nd are spending at least £1 per week on expenses for an aeroplane that 2nd has built himself and which he flies in different parts of the country - in fact, any spare money they have seems to go on the aeroplane.

I held on to the interview for so long mainly because the husband - when I interviewed his wife - was in hospital for a check-up and I hoped that I would be able to get him too.
