**QUESTION 8 Work record**

Our aim is to trace persons whose work record is not full and to establish both numbers of weeks off work and numbers of weeks in which fewer than 30 hours were worked.

**Weeks off work in year**

The procedure is first to ask the general question about numbers of weeks off work. Some informants will be uncertain of the right answer. They can be encouraged by prompts about the last spell off work for **unemployment**, then **sickness** and so on down the list. Whenever it is clear they are going back more than 12 months you should move on to the next eventuality on the list. In the appropriate column note the number of weeks for all spells of unemployment, sickness, etc. You must record "0" in all open boxes when the person has had no spell off work for that reason. You may ignore the codes "X" and "Y" under each open box. They are for office use. For easy reference you can record each spell off work alongside the months listed below. (You may in rare instances interview persons, say, who had five or six spells off work through sickness and may need to show some rough working to arrive at the right total. (Please leave any rough working in case of queries.)

*03  
Paid Holidays  
TAKEN AS OFF DAYS  
OR A WEEKEND*

**List member of household (informant, 2nd, 3rd) and weeks off work and reason**

January.....	July.....
February.....	August.....
March.....	September.....
April.....	October.....
May.....	November.....
June.....	December.....

Some informants may have a quick answer for the first general question (usually because they have a very full or almost empty record of work in the year). You should nonetheless use the same procedure of asking about each type of eventuality and each spell off work as a check. If an informant says he hasn't been off work except for "just odd days because of colds and so on" ASK **How much would it amount to over the past twelve months — one week, two weeks?** AND CODE ACCORDINGLY. For informants (e.g. housewives or students) who have only worked for a few weeks in the year, you may find it quicker to establish first how long they were **at work**.

As with so many other questions about "the last twelve months" in this questionnaire, informants will often find it helpful if you encourage them to think forwards from a date exactly a year ago.

**QUESTION 9**

Exclude Bank Holidays in counting up holiday entitlement. List number of weeks to nearest week. Do not insert " $\frac{1}{2}$ ".

*def employed*

**QUESTION 10 Occupation**

See instructions above for Q. 7(b). Start by recording member of household in left-hand box (informant, 2nd, 3rd, etc.) and then carefully note occupation and industry or business. The office will code in the right-hand columns on the basis of your information. Avoid all vague terms, e.g. "engineer". If you find the answer too general or difficult to understand always ask "What do you do?" and write in the answer. In many households there will be only one or two persons who have been at work in the past twelve months. If necessary you can use all the space in the box just for one or two persons, providing it is clear to which person(s) the information applies.

**QUESTION 11 Change of Job**

Note that sub-questions (a) - (d) apply only to persons changing their jobs less than five years previously.

11(c). IRU, etc., means Industrial Rehabilitation Unit or any other Government training centre.

**QUESTION 12 Training Course**

Our object is to check on men taking a re-training or training course, whether or not they changed their job. Some men may have taken a course and gone back to their former job or employers. Others may be unemployed and yet have taken such a course.

**QUESTION 13 Fall in Earnings**

You may be asked what you mean by "big" fall. Accept whatever the informant thinks is big. Put the information in the box, including the approximate earnings previously as well as the subsequent earnings and code the extent of the fall in the right-hand columns.

*14*  
*2972*  
*2'*

40 1.45  
5

**QUESTION 16 Pension**

Only include if a pension scheme has been worked out in relation to the business, or is available from an insurance company or another body, because of the nature of the business or self-employment. Note that provision is made in a series of questions on this page for entries to be made in the office (Qs 16a, 16b, 17a, 18c). Much depends, however, on the information you can provide in boxes on the left, leaving us to make necessary calculations.

dep: £740  
mil: £12-10-0 } £228  
dep: £58  
mil: £150

deprec £73 + £145 £58  
cash £162  
£227

**QUESTION 19 Cheap goods and services**

You should normally expect positive answers. A garage-owner may be able to purchase a car and run it well below ordinary retail prices. A grocer will obtain household stores cheaply. An insurance company sometimes reduces certain premiums. A small-holder may receive supplies cheaply in exchange for produce at market costs. There are exchange arrangements between people in different trades. It will, of course, be difficult to explore all these things properly but Q. 19a conveys our object and you should probe carefully whenever possible.

**QUESTION 20 Tax savings because of combined home and business**

The real incomes of many self-employed persons tend to be underestimated. Their difficulties are not always easy to explain to the tax authorities and in practice low real incomes and insecure incomes are compensated because part of housing and other costs can be offset against tax. Ask the questions openly and straightforwardly.

If informants seem doubtful about answering, say: "We have nothing at all to do with the tax people. We know it is difficult for you to divide costs between the business and yourself. But we also know that even if they have more problems many self-employed persons can live a little more cheaply than people getting a salary. I wonder whether you'd mind guessing how much more cheaply — I mean because of savings of tax".

03 | 918 27

18441-15.10

Please note that 02, 03 are  
in partnership equally.

QUESTION 8

Obtain an estimate of total cost by the normal transport used. Some people who drive cars will offer their estimate of real cost but in such cases write in as indicated the average weekly mileage to and from work (not during work). In other instances assume 6d. per mile for all small cars (i.e. under 12 h.p.) and 8d. per mile for larger vehicles.

5 miles @ 6d. = 2s. 6d.	5 miles @ 8d. = 3s. 4d.
10 miles @ 6d. = 5s. 0d.	10 miles @ 8d. = 6s. 8d.
50 miles @ 6d. = 25s. 0d.	50 miles @ 8d. = 33s. 4d.
100 miles @ 6d. = 50s. 0d.	100 miles @ 8d. = 66s. 8d.

QUESTION 9 Holiday pay

Be careful not to include pay received simultaneously with holiday pay for any week of work. Remember that many wage earners only receive the basic wage during holidays, which is usually much lower than average earnings.

QUESTION 10 Sick pay

There are several practices. (1) Some employers (e.g. public services) automatically deduct national insurance sickness benefit for the worker and his dependants from pay during sickness (or sometimes expect him to report what sickness benefit he receives so that it may be deducted from later amounts of sick pay or even from the first weeks of earnings after recovery from sickness). (2) Others (mainly smaller private firms) deduct only the sickness benefit for the worker, ignoring what he may get for his dependants. (3) Still others deduct nothing for any sickness benefit for which a worker may be eligible. In the last two cases it might seem that the worker will be better off in sickness than at work. This is true for some, particularly salaried earners, but remember that if any employer pays anything to a wage-earner in sickness rarely does it exceed the basic wage. His average earnings may be much higher. (4) When the level of sick pay is small no deductions may be made for any sickness benefit.

Changes in sick pay after the first weeks

In rare instances of persons who have been sick more than a few weeks the rate of sick pay will have changed. If the average is difficult to estimate write in the amounts thus: 4 weeks @ £10, 4 @ £5 10s., etc. After deductions of tax, etc. Note if only the amount of pay before deductions is known.

12-11  
See above

QUESTION 11 Income of self-employed

The income of the self-employed is sometimes difficult to ascertain. Four alternative methods of questioning that have been found to be helpful in previous research are listed. Our first aim is to find the figure for annual income before tax. Thus Q. 11 A(iv) is the crucial one and if you can get the answer to this do not press unduly for the answers to the preceding questions, but they are helpful in establishing that (iv) is in fact the figure you want. The alternative aim (if you cannot achieve the first) is to seek the amount obtained from the business, either Method B — net profit including money taken out for own use, or Method C, the sums actually taken out for personal use. Method D should only be tried if all else fails, and frankly, is not of much help. An accurate figure for income is important and you should if necessary take time to establish it. Method D "Turnover" = total receipts from sale of goods and services, less any discount allowed.

15972  
2759  
869  
211890  
215

**QUESTION 14 Second job**

This will have been established in the earlier section on Employment. Repeat the question because earnings from subsidiary occupations tend to be forgotten. For example, painters and decorators may have done one remunerative weekend job for a few weeks several months earlier in the year. A gardener may have done some intensive paid work for various local people in the evenings and weekends of the summer months. Or a university lecturer may have had a remunerative consultancy or a series of well-paid broadcasts at some point in the year. Remember that extra earnings from a source other than usual employment may not be thought of as a second job. You should probe for all kinds of additional earnings, depending on the nature of the usual employment.

**QUESTION 15**

This is laid out as concisely as possible on one page and you are asked to ring 01, 02, 03, etc., as appropriate and then to enter the rates per week and amounts below, carefully writing in the code "01" (i.e. Family Allowances) "02" (i.e. Retirement Pension) and so on so that we are clearly aware of the allowances to which the amounts refer.

Amounts will sometimes be joint—e.g. retirement pension for man and wife—or will be for several members of the household—e.g. sickness benefit for man and wife and children. In these instances the amount should be entered (if necessary, after the interview) in one column only, under that member of household receiving the payment. Wherever possible encourage informants (especially when elderly) to show you the allowance or pension book.

**CODE 01 Family Allowances**

	First child	Second	Third	Fourth & subsequent
up to April 1968 ... ..	nil	8s.	10s.	15s.
after April 1968 ... ..	nil	15s.	17s.	17s.

counting children under 15 or up to 19 if still in full-time education or college or an apprentice on low wages.

**CODE 02 Retirement Pension**

Note that the actual amounts vary widely. Increased pensions are paid if retirement is deferred. There are now in addition small graduated state pensions (averaging about 3s.) and pensions may be reduced because of earnings or a deficient contribution record. Note that some of these points also apply to other benefits. Pensions and supplementary benefits can be combined in a single payment. You will be prompting for supplementary benefit and wherever possible we should like you to list the amount separately (as well as the fact that it is being received). But whenever the rate given to you exceeds the standard rate below you should check the reason.

Single person (husband) ... ..	£4 10s. 0d.
Wife's income ... ..	£2 16s. 0d.
1st dependent child ... ..	£1 5s. 0d.
2nd dependent child ... ..	17s. 0d.

**CODE 03 Standard Widow's Pension**

Note: not the widow's allowance which is paid for the first 26 weeks after widowhood.

Widow or widowed mother ... ..	£4 10s. 0d.
1st dependent child ... ..	£2 2s. 6d.
2nd child ... ..	£1 14s. 6d.
3rd and subsequent child ... ..	£1 12s. 6d.

Depending on the circumstances of the death of the husband (armed service and so on) widows' pensions may differ in size. Note that family allowances are received in addition to dependent children's allowances.

**Widow's Allowance: Widow £6 7s., children as for widow's pension**

**CODE 04 and 05 Sickness Benefit and Unemployment Benefit**

Sickness benefit is often paid for periods other than a week. Find what was the last payment and for how many days (excluding Sundays). A payment for 6 days, excluding Sunday, makes up a "week's" benefit. Note that an earnings-related supplement may be paid in addition to the flat rate benefits listed below. Moreover, these benefit rates depend on the contribution record.

Single person ... ..	£4 10s. 0d.
Married woman ... ..	£2 16s. 0d.
1st dependent child ... ..	£1 5s. 0d.
Each subsequent child ... ..	17s. 0d.

**CODE 06 Supplementary Benefit**

The former "national assistance". Rent is sometimes paid direct to the landlord by the Supplementary Benefits Commission. There is a check later that the amount is known and counted as income.

**CODE 07 Industrial Injury Benefit**

£5 7s. 0d. (with additions for dependants) is payable for the first 26 weeks after injury after which the injured person goes before a Board to have his injury assessed for an individual disablement pension.

**CODES 08 and 09 Industrial and Disablement Pensions**

The 100 per cent rate is £7 12s. 0d. (with additions for dependants). **CODE 09:** Note that these are war pensions, not service pensions included under occupational pensions later in Q. 19.

**CODE 10 Maternity Allowance**

The standard rate of maternity allowance is £4 a week. It is paid to women who have been paying full national insurance contributions. It begins 11 weeks before the expected confinement and ends after the sixth week following it.

**CODE 11 Maternity Grant**

This grant is £22 either for home or hospital confinement.

**CODE 14 Single Grant**

This is officially described as an exceptional needs grant. The Ministry of Social Security has replaced the former National Assistance Board and you may need to explain "a grant from the Assistance". Probe carefully for this for all income units who are not employed, whether or not they receive supplementary benefit. A large number of people obtain single grants, e.g. for spectacles or dentures, even though they are not normally eligible to receive supplementary benefit. Note also that since you are asking about a period of 12 months there will be instances of people now in work who obtained a grant at an earlier point in the year.

*OZ does not have his pension book available. He apparently gets the money every quarter (3 gathered his business advisors have the week) He stated that the amount was £48 per quarter and, he thinks £22 recently could this be right?*

*Owned as  
part of the farm  
partnership  
jointly*

**QUESTION 25(a) Private and business accommodation**

Count as "business" accommodation any accommodation which counts for purposes of offsetting tax. This may include a study room for some teachers, for example.

*Rate  
74-0-146*

**QUESTION 25(e) Rate rebate or reduction**

Note that many councils pay rebates twice a year.

**QUESTION 25(h) Mortgage**

The informant may know the total sum paid in the previous year but not the division of the sum between interest and repayments of principal. Yet it is essential for us to find how much of the payment represents capital repayments and how much interest payments, because otherwise we cannot work out housing costs which are comparable with costs incurred by households paying rent. In many instances a monthly or annual payment slip will show the two amounts and the informant should be encouraged to look this up. Note that if the informant still cannot give you the answer we have provided certain questions on the right-hand side of the page which will allow us to make a reliable estimate. You should note certain details in the

- (a) source of loan or mortgage;
- (b) term of repayment;
- (c) number of years paid;
- (d) amount of loan.

Please make special note if the repayment of a mortgage is covered by an endowment policy and note the amount and frequency of the premium. As elsewhere put a tick in the small box or make a note if you are fortunate enough to be shown documents.

*Different because  
house goes with  
farm.*

**QUESTION 25(i) Value of house/flat**

Ask for an estimate and only show Flashcard No. 3 if the informant hesitates in giving an answer and you judge that it would be appropriate. Always insert the code number as given on the Flashcard, even if you also obtain an exact estimate.

*I have said before  
but if it were a  
house without a  
farm, I doubt  
if it were of  
£4,000-5,000*

**QUESTION 25(l) Government's Mortgage Scheme**

Note that, broadly, this is advantageous only to a householder with relatively low income who does not expect to pay tax at the standard rate in the foreseeable future.

*All also  
7.24  
9.4*

V SAVINGS AND ASSETS

QUESTION 1 Personal

This excludes a business bank account which is covered by Q. 4. Avoid double-counting the same bank balance or assets when questioning husband and wife.

QUESTION 2 Savings

Note that you should proceed by prompting all items to see how many are appropriate, then try to establish a total and then establish totals for each item only as a check or if necessary. Care should be taken to avoid double-counting. If the informant is hesitant or confused repeat the question to make sure he or she knows what kind of savings you are referring to and THEN show Flashcard No. 4 to get the total. Then try to obtain an absolute total rather than a range. For example, you could ask: "Would you say the figure was at the top end or the lower end of that range — nearer X or nearer Y?"

QUESTION 2(c) Interest

Try to establish the amounts the informant receives in the form he receives it — that is, before tax is deducted or after it has been deducted at source. In difficult instances you need not waste time converting a "before tax" total into "after tax" so long as you make plain what it is. We will do that work in the office.

*INF*  
*1200 Savings Conts*  
*few cashed &*  
*put into*  
*current acc*

QUESTION 3 Value of stocks and shares

This question of the value of stocks and shares is crucial and every encouragement should be used to obtain an answer. Some informants simply will not know. Remember that brokers sometimes send an annual valuation. If there is considerable uncertainty, tactfully suggest or imply that it would be very helpful to know and take any opportunity to see the valuation or to leave a note (and s.a.e.) so that a more reliable estimate can be made and either you can pick it up at a second call or ask for it to be sent on.

QUESTION 3(b) Interest

Proceed as in Q. 2c above. Mostly amounts will be received after tax has been deducted.

*Q.2c* \*  
*see documents*  
*exam proceed*  
*with accountants*  
*so unable to get*  
*sum of figures*

QUESTION 4

This is to cover any type of business which is owned in part or in whole by the informant. Being a director does not necessarily mean ownership. The answer to this question should not duplicate the answer to the previous question. Shares come under Q. 3. This is to cover such things as shops, professional practices and small businesses of every kind except limited companies. In all cases make sure that money in the business, bank account and stocks are borne in mind when the valuation is made. When the business (e.g. shop or farm) is run from the owner occupier's dwelling, the value of the dwelling will often have been included in the answer to this question (i.e. Q. 25 in Section V). UNDER NO CIRCUMSTANCES MUST THE DWELLING BE COUNTED TWICE. The valuation should be on the assumption that the informant had to sell but was in no great hurry. A year or even more could be taken to find a purchaser. The valuation should NOT be made on the basis of: "What would you take for your business?" — that is, when the informant has to be persuaded to sell. NOTE that vehicles should be included in the valuation of a business — say of a haulage contractor, a cab owner or even a building contractor or window cleaner.

*Q.5*  
*strategies accounts*  
*for in business*

QUESTION 5 Other property

Remember that some people use two houses. Others have houses which they rent off to others. This last is not uncommon among elderly people who may be very poor themselves. A "boat" may include anything from a luxury yacht to a small rowing boat.

**QUESTION 11 "Windfalls"**

The procedure is the same as in the last question (Q. 10). Remember that for some people an occasional windfall is the only hope they have of getting out of debt, and please make a note if you come across any interesting example.

---

**QUESTION 12 Hire purchase**

The informant may know neither the total amounts nor the amounts less interest which are owed. If the total is less than £25 simply write it in and do not waste time asking detailed questions about original price, etc. Otherwise ask each of the questions and tick the box if any documents are seen. Sometimes there may be several large items and you may need to use the margins on the page for any additional notes. Remember that we are concerned to establish the total owed altogether, less interest, and so long as this can be estimated you should not be concerned to take up time with every subsidiary question. If you cannot get the informant to give an estimate of the total owed less interest and succeed only in answering the questions under (a) you can leave to the office the job of estimating and writing in the total.

---

**QUESTION 14 Rent or mortgage arrears**

As elsewhere, remember to write in an amount in only one column (not in two columns, e.g. wife and husband). The amount should be debited to the person who normally pays the rent or the mortgage payments. Do not trouble to calculate the exact total amount owed. You have asked about the weekly or monthly payments earlier and so long as you tell us the number of payments (and whether weekly or monthly) we can calculate the figure in the office.

*Have overdraft  
on business  
£3000  
12. R520  
each for  
02 + 03*

---

**QUESTION 17 Total assets**

Like the question at the end of the Income section, this question is designed to be used when an informant does not wish to go into detail or finds great difficulty, either in the first or in a subsequent interview, in answering preceding questions. Encourage him or her to help you gain at least a broad estimate of total assets, but remember this includes the value of any owner-occupied house, a car, the surrender value of any life insurance policy and personal possessions of value, as well as any savings or stocks and shares. Again, try to get a separate estimate for each income unit in the household, and if the informant shows willingness to go back to the preceding detailed questions encourage him to do so. Try if you can to get the informant to give an exact figure rather than a range.

**QUESTION 9 Staying overnight**

The question concentrates on holidays and stays which are directly or indirectly paid for or subsidised by relatives and friends. It may be difficult to obtain an estimate of saving. We have in mind not only the instance of holiday but also an elderly person or a child staying with a member of the family for a lengthy period of the year during a time of loneliness or financial difficulty. Note that space allows only 8 columns on this page. In the unlikely event of interviewing in a household with 9 or 10 persons write in the details for the 9th and 10th persons lower on the page.

**QUESTION 9 (b) Saving**

Note that there are two alternatives in the question. The saving from staying in a relative's or a friend's home should be estimated in terms of the comparable cost of living at home. The saving from being taken on holiday should be estimated in terms of the cost of going on holiday on one's own.

---

**QUESTION 10 Visitors**

This question reverses Q. 9 but estimates of cost should be written into the column allocated for the housewife.

*Always take

 2 DK }

(a) Do you feel poor at any of these times or in any of these situations?

PROMPT AND CODE ALL THAT APPLY

3 at weekends  
 4 mid-week  
 5 at Christmas  
 6 with some of your friends  
 7 with some of your relatives  
 8 with some of the people round here  
 9 other (SPECIFY)

FOR CHIEF WAGE EARNER/H.O.H. CODE C.W.E./H.O.H. ONLY  
 24. (a) There's been a lot of talk about poverty. Do you think there's such a thing as REAL poverty these days? \*

yes  
 no  
 DK

(b) What would you describe as poverty?

WRITE IN ANSWER

*When they don't know where the next meal is coming from - (P)  
 because children & such like - that's real poverty!*

(c) Would you say that if people are in poverty its mainly

X - their own fault?  
 Y - the Government's fault?  
 0 - the fault of their education?  
 1 - the fault of industry not providing the right jobs?  
 2 - anything else? (SPECIFY)

PROMPT AND CODE ONE ONLY

3 - a combination of (some of) these?  
 4 - none of these?  
 5 DK

ASK CHIEF WAGE EARNER AND HOUSEWIFE ABOUT ALL AGED 23 AND OVER  
 25. Do you mind telling me if you voted in the last General Election (I don't mean who you voted for, just whether you voted)? \*

yes, voted  
 no
