Total actual interviewing time 2 hours (CHECKING 1/2 hr)

Form of introduction

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

HOUSING AND LIVING FACILITIES

General

Information recorded by the interviewer on the left of the main column is needed so that the circumstances of the household may be fully understood by those in the office but it may not be required for computer-analysis.

↓ IN SCOTLAND IN THESE
TENEMENT FLATS PEOPLE
SEEM TO PREFER TO CALL
THIS MAIN LIVING ROOM IN
THE HOUSE THE KITCHEN,
AS WELL AS TABLE EASY CHAIRS
COUCH CARPET ETC THERE IS
SINK COOKER & T.V. TOO!-

QUESTION 1 — Rooms

No room should be listed twice. Bedsitters should be listed as bedrooms and not also as living-rooms. Do not count a scullery or a hall or a bathroom as a room. The total number of living and dining and bedrooms should not include a kitchen if it is not large enough for a family to eat in. You will see that there are two numbered boxes in the column in which to write the numbers of bedrooms and total numbers of rooms. Each is for each digit in the total. Thus, if there are 9 or fewer rooms the number should be written in the right-hand box and "0" should be written in the left-hand box. If there are, say, 13 rooms, then "1" should be written in the left-hand and "3" in the right hand box. This will help us to avoid mistakes in transferring information to the computer.

QUESTION 2 — Additional or fewer rooms

Define "room" as above.

QUESTION 4

A water closet flushed by water. Chemical or earth closets are not included, nor are flush water closets which can only be reached by going outdoors across a yard, even if under cover.

QUESTION 5

A garden is any space at the front or back of the house where it is possible to grow something. A yard is an outdoor space which is covered in concrete, asphalt, etc., where there are no plants or lawn other than in boxes or barrels (if any).

If you have already seen the garden it may be unnecessary to ask the second part of the question, for it may be possible to code 3, 4 or 5. But be sure that you are taking back as well as front garden into the reckoning. Add the two together in estimating size.

13 per month -

15 - p. WEEK.

QUESTION 27(a)

Our object is to try to find what rent might be paid in normal circumstances in that area for such accommodation. We have asked you to make an estimate in the light of your knowledge of the area if the informant cannot make such an estimate.

QUESTION 28(a) Years on list

Sometimes the tenant will have taken on a tenancy from a member of the family who has died or moved away. Code "inherited tenancy" in all instances except that of a woman who has become the tenant through the death or absence of her husband.

QUESTION 28(d) Reason for obtaining council accommodation

Interpret "inheriting tenancy" as above. Although more than one reason may be advanced code what the informant considers to be the chief one.

QUESTION 28(e) Rent reduction or rebate

Broadly three types of scheme have been introduced. Some councils operate an automatic differential rents scheme and some informants may have their rents reduced initially upon the introduction of the scheme. But in this sort of scheme most people will not know whether or not their rents are "reduced". The second scheme is one where the tenant has to apply for a reduction of rent he expects to pay in the future, upon test of means. The third scheme is one where the tenant applies for a rebate of rent paid in the past, on test of means. We are primarily concerned with the second and third schemes here.

V SAVINGS AND ASSETS

QUESTION 1 Personal

This excludes a business bank account which is covered by Q. 4. Avoid double-counting the same bank balance or assets when questioning husband and wife.

QUESTION 2 Savings

Note that you should proceed by prompting all items to see how many are appropriate, then try to establish a total and then establish totals for each item only as a check or if necessary. Care should be taken to avoid double-counting. If the informant is hesitant or confused repeat the question to make sure he or she knows what kind of savings you are referring to and THEN show Flashcard No. 4 to get the total. Then try to obtain an absolute total rather than a range. For example, you could ask: "Would you say the figure was at the top end or the lower end of that range—nearer X or nearer Y?"

QUESTION 2(c) Interest

Try to establish the amounts the informant receives **in the form he receives it**—that is, before tax is deducted or after it has been deducted at source. In difficult instances you need not waste time converting a "before tax" total into "after tax" so long as you make plain what it is. We will do that work in the office.

QUESTION 3 Value of stocks and shares

This question of the value of stocks and shares is crucial and every encouragement should be used to obtain an answer. Some informants simply will not know. Remember that brokers sometimes send an annual valuation. If there is considerable uncertainty, tactfully suggest or imply that it would be very helpful to know and take any opportunity to see the valuation or to leave a note (and s.a.e.) so that a more reliable estimate can be made and either you can pick it up at a second call or ask for it to be sent on.

QUESTION 3(b) Interest

Proceed as in Q. 2c above. Mostly amounts will be received **after tax** has been deducted.

QUESTION 4

This is to cover any type of business which is owned in part or in whole by the informant. Being a director does not necessarily mean ownership. The answer to this question should not duplicate the answer to the previous question. Shares come under Q. 3. This is to cover such things as shops, professional practices and small businesses of every kind except limited companies. In all cases make sure that money in the business, bank account and stocks are borne in mind when the valuation is made. When the business (e.g. shop or farm) is run from the owner occupier's dwelling, the value of the dwelling will often have been included in the answer to this question (i.e. Q. 25 in Section V). **UNDER NO CIRCUMSTANCES MUST THE DWELLING BE COUNTED TWICE.** The valuation should be on the assumption that the informant had to sell but was in no great hurry. A year or even more could be taken to find a purchaser. The valuation should **NOT** be made on the basis of: "What would you take for your business?"—that is, when the informant has to be persuaded to sell. **NOTE** that vehicles should be included in the valuation of a business—say of a haulage contractor, a cab owner or even a building contractor or window cleaner.

QUESTION 5 Other property

Remember that some people use two houses. Others have houses which they rent off to others. This last is not uncommon among elderly people who may be very poor themselves. A "boat" may include anything from a luxury yacht to a small rowing boat.

01902

2 ASSURED NE THEY
NEVER HAD SAVINGS
THESE DAYS- ALL USED UP
YEARS AGO IN HOLIDAYS ETC.

QUESTION 4 Special schools & centres

This question is asked only of persons who have been ill and off work or confined to bed or the house for eight weeks or more continuously, and those who are coded for any item in Question 3.

QUESTION 5 Date of onset of sickness or disabling condition

Our object is to establish the year of onset but the question is worded "first have any condition" so as to allow for the fact that some conditions develop out of others. For persons with a disabling condition you ask, in effect, when all the trouble started.

Previous occupation

In the section on Employment you have already asked for the last occupation of everyone not now at work (p. 7). Some people change their occupation because of a disabling condition before finally being obliged to give up work. You should probe for the (previous) occupation which people had before any history of illness or disability started.

QUESTION 6 Mobility

You should code people according to their usual mobility, taking no account of a temporary illness or injury. "Usual mobility" may be interpreted as "for at least eight weeks and unlikely to become more mobile in the immediate future" or "for less than eight weeks but unlikely to become more mobile within at least that total period." Someone who spends most of the time in bed and needs help to get out to sit in a chair is defined as bedfast. Someone who can get out of his bed into a chair or wheelchair and who can walk indoors but not even a few yards outdoors without help is defined as housebound. The test is whether someone can walk on his own (without the assistance or company of any other person — though with or without sticks or crutches).

QUESTION 7 Incapacity

In prompting this series of questions you may find it simplest to ask the question without the variation in brackets, unless it seems appropriate. Remember you are asking whether they have any difficulty in doing X. Sometimes certain questions will not apply to particular people or to particular situations. You will meet people who do not (or say they do not) wash down, negotiate stairs (living in bungalows), go shopping and do housework (especially some men). The question should then be asked in terms of "But would you have any difficulty in doing X if you had to?" The codes 0, 1, 2 are listed in increasing order of difficulty and you should check that you ring one of them for each item.

QUESTION 7e

It would be insensitive and unnecessary to ask questions about the daily activities of the bedfast. They are therefore excluded from this question and the rest of the series. You may encounter other people (e.g. advanced obesity) of whom it is clear that they cannot do certain activities. You may refrain from putting questions to them. The same is true of any situations in which the questions are likely to cause great distress. BUT AS A GENERAL RULE QUESTIONS 7 (e) to (i) SHOULD BE ASKED FOR ALL OTHER THAN THE BEDFAST AND CHAIRFAST.

QUESTIONS 8 & 9 Variation in incapacity

These questions explore whether the pattern of answers to Question 7 is permanent. Question 8 seeks any indication of seasonal variations (e.g. bronchitis) and Question 9 day-to-day variations in the effects of disability.

I 01 HOPES HER DIFFICULTIES
ARE PURELY TEMPORARY &
THAT SOON SHE WILL BE
ABLE TO DO THESE THINGS -
NORMALLY VERY ACTIVE

02 IS REALLY UNWELL
IN SPITE OF LOSS OF AIR
HE HAS TAUGHT HIMSELF
TO DO MOST THINGS.
JUST BREATHELESS
NOWADAYS.

QUESTION 13

NHS means free, wholly paid for by the National Health Service. Private and amenity (paying) beds in NHS hospitals should be coded as private.

QUESTION 13(b) Number of nights

If a person has had two or more spells in hospital add the total number of nights together.

QUESTION 13(c) Name of hospital

This will be used in the office to code type of hospital.

QUESTION 14

Ill in bed means actually in bed for at least half the day.

QUESTION 15

Visits by and to a doctor will include calls when a person is no longer in bed but up and about. The questions are not, therefore, dependent on the answer yes to Q. 14. When the household is large and/or when there have been several visits it may take you a little time to obtain a reliable answer. Remember that in cases of difficulty it is usually best to approach the answer by asking: "When did you last see your doctor?" "And when was the time before that?" "So that means you saw your doctor seven times altogether in the last 12 months?" Remember that we want to count each consultation, even if there are two consultations on one day or on succeeding days. Remember also to include locums and other (alternative) doctor seen in this period.

QUESTION 15(c) Visits paid for

If the informant is a wife who makes a visit to her NHS doctor and pays later for the pill, which he prescribes, this should still be counted as a NHS visit.

QUESTION 16 Spectacles

Most people pay in part for spectacles even under the NHS but some obtain them free by paying and then claiming a refund on test of means (by the SBC).

QUESTION 18 Doctor at hospital

It is the number of occasions we want to know, not the number of doctors seen at the hospital.

Visits to dentist

Remember to ask number of visits, not number of courses of treatment.

Home help

We are interested only in the use of a local council's Home Help Service.

Someone from the Welfare

We mean a social worker or officer from a Council health, welfare or children's department who is concerned with some aspect of family welfare. Include a health visitor, say, but not an officer from the Supplementary Benefits Commission or someone from a voluntary organisation — like the WVS or Salvation Army.

QUESTION 18(a) Paying a dentist

The point is that very poor people can get free dentures and do not have to pay the £1 for a course of treatment.

QUESTION 18(b) Home help

Some councils charge for a home help's service on test of means.

17 01 HAS HEARING AID BUT
CANNOT USE IT - HAS SEEN

QUESTION 19 Housekeeping and board

The question refers to ALL INCOME RECIPIENTS including pensioners, as well as earners, who contribute to the housekeeping expenses. Be careful that you probe for everyone in the house, including adolescent earners. Sometimes the actual sum available for housekeeping will be quite different from that suggested by the total income of the household. The husband or teenagers may retain quite large sums not only for their own use but because the pattern of responsibility in one household for expenditure may be different from that in another household which has the same composition. Housekeeping can be a touchy point if both husband and wife are present, and it is perhaps best dealt with by interviewing one of them on their own (the housewife preferably) and, if possible, checking later with the other (the husband). If both husband and wife are present avoid expressing any surprise or criticism if you think the housekeeping is small. Also avoid indicating any opinion on the question of whether wage-earners should pay bills. Try to imply that all arrangements are equally possible. We have listed the common ones, but there will be others. REMEMBER TO CODE EACH INCOME RECIPIENT.

QUESTION 19 (b) Money back

This can be daily fares, insurances or clubs paid, dinner money, or simply "spending money". Some teenagers hand over their wages but get clothing bought. Usually this question will apply to teenagers, but some husbands may get money from the housekeeping for their cigarettes and beer mid-week.

QUESTION 19 (c) Payment of housekeeping bills

Often the husband will pay some larger bills, but alternatively he may pay housekeeping but expect to "help out" if a heavy bill comes in. We realise that an estimate may be rough but try to get an average contribution. Teenage children may buy food as "treats" for the household from the money they retain. Again try for an average.

QUESTION 20 Long-term saving

We are not interested in asking here whether the informant has savings (that was asked in Section V). Nor are we interested here in asking for short-term saving. Instead the question explores whether at the present time the informant manages to put aside savings for a long-term objective.

QUESTION 21 Ten years ago

To give us some idea of fluctuating fortunes we ask what things were like ten years ago. Some persons aged 35 or over will have been at home in their parents' households ten years ago and therefore we have to find what was the composition of the household. In any case, we require an estimate of the total money flowing into the household, and the number of adults and children that were supported at that time. Give the informant time to recollect. And check that income includes pensions, family allowances, etc. Fortunately, the informant will already have some idea of what you are after from the detailed questions asked earlier.

19 H/W EXPLAINED THAT UNTIL 5 WKS
AGO SHE USED TO GO OUT A LOT
TO "WHIST GAMES BINGO &
OLD FOLK'S CLUB BUT SINCE
ACCIDENT SHE HAS NOT GONE
OUT. SO SHE HAS NOT USED
