Form of introduction

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

SUMMARY : COMPLETE AFTER INTERVIEW

1. Interview carried out at first call at second call at third or later call	10	3. Which sections were answered in whole or in part by which persons on the household?	Write Section 1, 2, 3, etc.	5. Number of other households at address →	21

NO CHILDREN -

ONLY

MARRIED ONCE -

**QUESTION 13(a)**

"Marriage": include common law marriage if in fact revealed by informant.

**QUESTION 13(b)**

Code whereabouts of parents only in terms of the replies so far given (or given later) by the informant. Direct questions might seem to be very offensive **and they must be avoided**. Indirect questions will be helpful according to the circumstances. For example, it may transpire that one child is the half-sister of another. It would then be very reasonable to ask "How are they related?" Or when it becomes obvious that one parent is not present, it would be reasonable to ask "Does John see his father regularly?"

"Accepted stepfather" or "Accepted stepmother" describes a man or woman not legally married to the natural mother or father of the child(ren) who has been in the household for at least 13 weeks and who is clearly accepted by the informant as the "stepfather" or "stepmother" of the child(ren) living in the household, albeit not accepted by law in this role.

---

**QUESTION 14(a) Play within easy reach**

This means that the mother can rush to a tearful child within, say, 30 seconds of hearing a wail. A "safe place" could of course include the garden.

**QUESTION 14 Second job**

This will have been established in the earlier section on Employment. Repeat the question because earnings from subsidiary occupations tend to be forgotten. For example, painters and decorators may have done one remunerative weekend job for a few weeks several months earlier in the year. A gardener may have done some intensive paid work for various local people in the evenings and weekends of the summer months. Or a university lecturer may have had a remunerative consultancy or a series of well-paid broadcasts at some point in the year. Remember that extra earnings from a source other than usual employment may not be thought of as a second job. You should probe for all kinds of additional earnings, depending on the nature of the usual employment.

**QUESTION 15**

This is laid out as concisely as possible on one page and you are asked to ring 01, 02, 03, etc., as appropriate and then to enter the rates per week and amounts below, carefully writing in the code "01" (i.e. Family Allowances) "02" (i.e. Retirement Pension) and so on so that we are clearly aware of the allowances to which the amounts refer.

Amounts will sometimes be joint—e.g. retirement pension for man and wife—or will be for several members of the household—e.g. sickness benefit for man and wife and children. In these instances the amount should be entered (if necessary, after the interview) in one column only, under that member of household receiving the payment. Wherever possible encourage informants (especially when elderly) to show you the allowance or pension book.

**CODE 01 Family Allowances**

	First child	Second	Third	Fourth & subsequent
up to April 1968 ... ..	nil	8s.	10s.	15s.
after April 1968 ... ..	nil	15s.	17s.	17s.

counting children under 15 or up to 19 if still in full-time education or college or an apprentice on low wages.

**CODE 02 Retirement Pension**

Note that the actual amounts vary widely. Increased pensions are paid if retirement is deferred. There are now in addition small graduated state pensions (averaging about 3s.) and pensions may be reduced because of earnings or a deficient contribution record. Note that some of these points also apply to other benefits. Pensions and supplementary benefits can be combined in a single payment. You will be prompting for supplementary benefit and wherever possible we should like you to list the amount separately (as well as the fact that it is being received). But whenever the rate given to you exceeds the standard rate below you should check the reason.

Single person (husband) ... ..	£4 10s. 0d.
Wife's income ... ..	£2 16s. 0d.
1st dependent child ... ..	£1 5s. 0d.
2nd dependent child ... ..	17s. 0d.

**CODE 03 Standard Widow's Pension**

Note: not the widow's allowance which is paid for the first 26 weeks after widowhood.

Widow or widowed mother ... ..	£4 10s. 0d.
1st dependent child ... ..	£2 2s. 6d.
2nd child ... ..	£1 14s. 6d.
3rd and subsequent child ... ..	£1 12s. 6d.

Depending on the circumstances of the death of the husband (armed service and so on) widows' pensions may differ in size. Note that family allowances are received in addition to dependent children's allowances.

**Widow's Allowance: Widow £6 7s. children as for widow's pension**

**CODE 04 and 05 Sickness Benefit and Unemployment Benefit**

Sickness benefit is often paid for periods other than a week. Find what was the last payment and for how many days (excluding Sundays). A payment for 6 days, excluding Sunday, makes up a "week's" benefit. Note that an earnings-related supplement may be paid in addition to the flat rate benefits listed below. Moreover, these benefit rates depend on the contribution record.

Single person ... ..	£4 10s. 0d.
Married woman ... ..	£2 16s. 0d.
1st dependent child ... ..	£1 5s. 0d.
Each subsequent child ... ..	17s. 0d.

**CODE 06 Supplementary Benefit**

The former "national assistance". Rent is sometimes paid direct to the landlord by the Supplementary Benefits Commission. There is a check later that the amount is known and counted as income.

**CODE 07 Industrial Injury Benefit**

£6 7s. 0d. (with additions for dependants) is payable for the first 26 weeks after injury after which the injured person goes before a Board to have his injury assessed for an individual disablement pension.

**CODES 08 and 09 Industrial and Disablement Pensions**

The 100 per cent rate is £7 12s. 0d. (with additions for dependants). **CODE 09:** Note that these are war pensions, not service pensions included under occupational pensions later in Q. 19.

**CODE 10 Maternity Allowance**

The standard rate of maternity allowance is £4 a week. It is paid to women who have been paying full national insurance contributions. It begins 11 weeks before the expected confinement and ends after the sixth week following it.

**CODE 11 Maternity Grant**

This grant is £22 either for home or hospital confinement.

**CODE 14 Single Grant**

This is officially described as an exceptional needs grant. The Ministry of Social Security has replaced the former National Assistance Board and you may need to explain "a grant from the Assistance". Probe carefully for this for all income units who are not employed, whether or not they receive supplementary benefit. A large number of people obtain single grants, e.g. for spectacles or dentures, even though they are not normally eligible to receive supplementary benefit. Note also that since you are asking about a period of 12 months there will be instances of people now in work who obtained a grant at an earlier point in the year.

H.O.H STATED HE WAS NOT SURE OF THE AMOUNT OF PENSION HE & HIS WIFE GETS - IT IS ONLY DRAWN QUARTERLY THROUGH HIS BANK, AND HE HAS NOT DRAWN IT LATELY - HE COULD NOT FIND ANY STATEMENT AT HOME ABOUT EXACT AMOUNTS BUT BOTH HE & HIS WIFE DRAW THE O.A. PENSION.

#### QUESTION 20 Miscellaneous allowances and cash income

The various kinds of income have been laid out as compactly as possible but remember that two or more may need to be coded and you should prompt carefully. Underneath describe the type of allowance (so that we know to which code a particular amount refers) and the amount per week or per month. Ring either "1" or "2" depending on whether the allowance did in fact cover last week and strike out "Before" or "After" tax as appropriate. Make sure that in the case of allowances of husbands temporarily away from home that you have not already written in his earnings earlier as a member of the household. If you have do not write in any amount he pays. All we want here is any income which is not covered by earlier entries.

#### QUESTION 20(b) Allowances for separated and divorced wives

Some wives receive money direct from their husbands (or via the court). Others have court orders but these are signed over to the Supplementary Benefits Commission, which collects the money and pays the mother a standard weekly allowance. We therefore want to avoid counting the amount in Q. 20 if that amount is already included in the figure for supplementary benefit listed under Q. 15. We also want to be able to sort out irregular payments of both money from court orders and supplementary benefit. Check carefully in all these instances and write a note if anything needs clarification. Fatherless families form a small proportion of the total sample of households. Where money from court orders is paid irregularly and the mother claims weekly from the Supplementary Benefits Office she might not always claim the full amount, or may delay her claim in which case she loses benefit. Check to see if such loss is occurring.

#### QUESTION 21 Allowances and sums paid to others

This question complements some of the sub-questions in Q. 20. Here we are concerned to find out about all cash payments or allowances amounting to at least 10s. a week or £25 a year. Note that married children frequently pay rent or bills for elderly parents and old people sometimes make considerable cash gifts to their children. Examples are payments for grandchildren's clothing or holidays, payment of T.V. rentals and licence, cash gift for car.

#### QUESTION 22 Tax relief

Our object is to gain further evidence about reciprocal aid but also to help us in interpreting the figures for earnings and deductions given earlier. Note that you are not expected to probe for amounts.

#### QUESTION 23

Property income is considerable for a small percentage of informants and tends to be of two types: income from only one or two houses and income from a range of properties. With a few people considerable time may need to be spent on getting a reliable answer to this question. Net income after tax may not be known so we deliberately seek gross income before tax, then expenses, and only finally income after tax. You may not be able to get the third but make sure you get a figure for the first. It may also be difficult to secure a figure for expenses of rates and repairs but remember that property-owners will often know the total sums entered on their income tax returns. It may even be helpful to remind informants of this: "I mean the total like that in your income tax return — gross income less expenses." Note that many owner-occupiers and tenants rent rooms and flats to others in their accommodation. Do not count the rent from a boarder living in the household.

H.O.H. COULD NOT BE SURE

ABOUT LIFE INSURANCE - TAX RELIEF  
LEAVES THAT TO LAWYERS.

**QUESTION 25(a) Private and business accommodation**

Count as "business" accommodation any accommodation which counts for purposes of offsetting tax. This may include a study room for some teachers, for example.

**QUESTION 25(e) Rate rebate or reduction**

Note that many councils pay rebates twice a year.

**QUESTION 25(h) Mortgage**

The informant may know the total sum paid in the previous year but not the division of the sum between interest and repayments of principal. Yet it is essential for us to find how much of the payment represents capital repayments and how much interest payments, because otherwise we cannot work out housing costs which are comparable with costs incurred by households paying rent. In many instances a monthly or annual payment slip will show the two amounts and the informant should be encouraged to look this up. Note that if the informant still **cannot** give you the answer we have provided certain questions on the right-hand side of the page which will allow us to make a reliable estimate. You should note certain details in the

- (a) source of loan or mortgage;
- (b) term of repayment;
- (c) number of years paid;
- (d) amount of loan.

Please make special note if the repayment of a mortgage is covered by an endowment policy and note the amount and frequency of the premium. As elsewhere put a tick in the small box or make a note if you are fortunate enough to be shown documents.

**QUESTION 25(i) Value of house/flat**

Ask for an estimate and only show Flashcard No. 3 if the informant hesitates in giving an answer and you judge that it would be appropriate. **Always** insert the code number as given on the Flashcard, even if you also obtain an exact estimate.

**QUESTION 25(l) Government's Mortgage Scheme**

Note that, broadly, this is advantageous only to a householder with relatively low income who does not expect to pay tax at the standard rate in the foreseeable future.

CERTAINLY A LOVELY  
HOUSE STANDING IN ITS  
OWN GROUNDS.

## V SAVINGS AND ASSETS

### QUESTION 1 Personal

This excludes a business bank account which is covered by Q. 4. Avoid double-counting the same bank balance or assets when questioning husband and wife.

### QUESTION 2 Savings

Note that you should proceed by prompting all items to see how many are appropriate, then try to establish a total and then establish totals for each item only as a check or if necessary. Care should be taken to avoid double-counting. If the informant is hesitant or confused repeat the question to make sure he or she knows what kind of savings you are referring to and THEN show Flashcard No. 4 to get the total. Then try to obtain an absolute total rather than a range. For example, you could ask: "Would you say the figure was at the top end or the lower end of that range—nearer X or nearer Y?"

### QUESTION 2(c) Interest

Try to establish the amounts the informant receives in the form he receives it—that is, before tax is deducted or after it has been deducted at source. In difficult instances you need not waste time converting a "before tax" total into "after tax" so long as you make plain what it is. We will do that work in the office.

### QUESTION 3 Value of stocks and shares

This question of the value of stocks and shares is crucial and every encouragement should be used to obtain an answer. Some informants simply will not know. Remember that brokers sometimes send an annual valuation. If there is considerable uncertainty, tactfully suggest or imply that it would be very helpful to know and take any opportunity to see the valuation or to leave a note (and s.a.e.) so that a more reliable estimate can be made and either you can pick it up at a second call or ask for it to be sent on.

### QUESTION 3(b) Interest

Proceed as in Q. 2c above. Mostly amounts will be received after tax has been deducted.

### QUESTION 4

This is to cover any type of business which is owned in part or in whole by the informant. Being a director does not necessarily mean ownership. The answer to this question should not duplicate the answer to the previous question. Shares come under Q. 3. This is to cover such things as shops, professional practices and small businesses of every kind except limited companies. In all cases make sure that money in the business, bank account and stocks are borne in mind when the valuation is made. When the business (e.g. shop or farm) is run from the owner occupier's dwelling, the value of the dwelling will often have been included in the answer to this question (i.e. Q. 25 in Section V). UNDER NO CIRCUMSTANCES MUST THE DWELLING BE COUNTED TWICE. The valuation should be on the assumption that the informant had to sell but was in no great hurry. A year or even more could be taken to find a purchaser. The valuation should NOT be made on the basis of: "What would you take for your business?"—that is, when the informant has to be persuaded to sell. NOTE that vehicles should be included in the valuation of a business—say of a haulage contractor, a cab owner or even a building contractor or window cleaner.

### QUESTION 5 Other property

Remember that some people use two houses. Others have houses which they rent off to others. This last is not uncommon among elderly people who may be very poor themselves. A "boat" may include anything from a luxury yacht to a small rowing boat.

*£700 is paid annually by Endowment Insurance which she took out many years before when working hard in India—(Tax free) Tax being paid on his behalf by the Bank.*

*H.O.H. explained that they have their money invested with Royal Bank of Scotland, and they leave all the business side in the Bank's capable hands—They receive the money quarterly & would have been a lot better off if they had not lent the money to the Govt. during & after the last war when they invested in War Loan etc & lost almost 1/2 of it when they realised it.*

**QUESTION 6a Cars, Vans**

Note that in Section II you will have noted any car owned by the business or firm and whether it is also used privately. Do not count this car here also but find out whether there is a second car — e.g. wife's. If informant unable to value a vehicle note instead its make, type and year of manufacture to enable us to look up its value.

**QUESTION 6c Debts on vehicles**

Note that the question does not apply only to payments which are overdue but to the total sum still owing. You will usually have difficulty in excluding interest from the amount owed. If the amount owed is estimated at less than £50 record the sum and do not take up time making sure that the interest is deducted. But if the amount owed including the interest element is £50 or more ask for the details listed under (c). We will then make an estimate in the office.

1 DAIHLER - 10 YEARS OLD -  
WORTH POSSIBLY £300

2 LAND ROVER - 4 YEARS  
OLD WORTH £450

**QUESTION 7 Life Insurance**

If there is more than one policy add up the payments and, if necessary, note any difference in frequency or years of payment. Note that our main object is to establish the equivalent current value in cash of policies they hold. The majority of households will hold policies of little current value and you will see that if they pay less than 10s. a week we do not ask for any details.

**QUESTION 8 Value of saleable assets**

Please note that we do not envisage that goods in everyday use — beds, blankets, basic furniture, crockery, clothes — need to be valued. We are interested only in items of value that could be sold without serious detriment to the household and its daily life if some ready cash was badly needed. Jewellery, furs, stamp collections, works of art, antiques, and collections of books, might be sold and we need to obtain an approximate estimate of their total current worth. Naturally enough we cannot expect precise valuations and you will find the minimum value of £25 for an article (or a group of articles — e.g. a number of pieces of jewellery) helpful in avoiding protracted discussion of the value of articles used every day in the home.

THIS IS ANOTHER "ENDOWMENT  
DUE AT THE END OF THIS YEAR  
WILL BE AN EXTRA £250 P.A.  
FOR HIM - (OR HIS WIFE IF HE DIES  
FIRST)

RESP'S WIFE HAD NUMEROUS ARTICLES

HERE: HOUSEHOLD CONTENTS ARE  
VALUED AT £16,000 & INCLUDES

2 GUNS WORTH £500 EACH - £1,000  
SAPPHIRE & PLATINUM RING £1,200 £1,200  
SQUARE PLATINUM &  
DIAMOND WATCH. £500 £500  
GOLD CIGARETTE CASE £100 £100  
RUBY & DIAMOND DRESS  
RING £200 £200  
ANTIQUE SILVER. £400 £400  
5 PERSIAN RUGS £2,000 2,000

£5,400

H.H. 3,100

3000.

H/W. 2,300

**QUESTION 9 Other assets**

Rarely will there be any kind of asset not covered by our other questions. But by asking this general question you may be given information that belongs in the answer to another question. The informant may have misunderstood a question. But be careful not to include an item here which is already covered elsewhere.

**QUESTIONS 10 & 11 General assets sold and windfalls**

It may be difficult for you to secure an estimate of money raised or spent on "ordinary living expenses" but you will find that our object is fairly clear and once you understand it you can probe for an estimate. We do not want information about sums of money invested in new assets, in replacing old assets (e.g. property, including houses and cars) and in savings, but only information about sums of money spent in the ordinary way on housekeeping, food, clothing, and entertainment. An estimate is better than nothing. Note that we are not asking you to waste time checking small amounts of less than £25.

**QUESTION 10 Assets sold in last 12 months**

Some people, especially the elderly, will have sold some of their assets in the last 12 months to bolster a low income. This can be an important contribution to their standard of living. **Savings**—Note that each item should be prompted carefully, especially to persons who have already told you they have sizeable amounts in savings, stocks and shares, etc. Note that we are not interested in this question in total sums which amount to less than £25 in the 12 months. Nor are we interested in amounts that may have been saved from income and spent in the same year (e.g. savings for Christmas or a holiday).

**Partial use of sales or savings for living expenses**—In some cases property might have been sold, say, and part of the money spent but part of it saved. Try to get a total estimate only of the sum spent on ordinary living expenses.

**QUESTION 13**

NHS means free, wholly paid for by the National Health Service. Private and amenity (paying) beds in NHS hospitals should be coded as private.

**QUESTION 13(b) Number of nights**

If a person has had two or more spells in hospital add the total number of nights together.

**QUESTION 13(c) Name of hospital**

This will be used in the office to code type of hospital.

**QUESTION 14**

Ill in bed means actually in bed for at least half the day.

**QUESTION 15**

Visits by and to a doctor will include calls when a person is no longer in bed but up and about. The questions are not, therefore, dependent on the answer yes to Q. 14. When the household is large and/or when there have been several visits it may take you a little time to obtain a reliable answer. Remember that in cases of difficulty it is usually best to approach the answer by asking: "When did you last see your doctor?" "And when was the time before that?" "So that means you saw your doctor seven times altogether in the last 12 months?" Remember that we want to count each consultation, even if there are two consultations on one day or on succeeding days. Remember also to include locums and other (alternative) doctor seen in this period.

DOCTOR IS ACTUALLY  
BROTHER OF OJ, AND HE  
ATTENDS HIS SISTER PRIVATELY  
BUT DOES NOT CHARGE A FEE.

OJ VISITS LOCAL DOCTOR ON  
N.H.S.

**QUESTION 15(c) Visits paid for**

If the informant is a wife who makes a visit to her NHS doctor and pays later for the pill, which he prescribes, this should still be counted as a NHS visit.

**QUESTION 16 Spectacles**

Most people pay in part for spectacles even under the NHS but some obtain them free by paying and then claiming a refund on test of means (by the SBC).

**QUESTION 18 Doctor at hospital**

It is the number of occasions we want to know, not the number of doctors seen at the hospital.

**Visits to dentist**

Remember to ask number of visits, not number of courses of treatment.

**Home help**

We are interested only in the use of a local council's Home Help Service.

**Someone from the Welfare**

We mean a social worker or officer from a Council health, welfare or children's department who is concerned with some aspect of family welfare. Include a health visitor, say, but not an officer from the Supplementary Benefits Commission or someone from a voluntary organisation — like the WVS or Salvation Army.

DENTIST BOTH PRIVATE  
PATIENTS

**QUESTION 18(a) Paying a dentist**

The point is that very poor people can get free dentures and do not have to pay the £1 for a course of treatment.

**QUESTION 18(b) Home help**

Some councils charge for a home help's service on test of means.

**QUESTION 4 Emergency help**

Since this is rather a general question specific acts may be forgotten. Probe as seems appropriate in the light of previous answers. Most people have occasional help from family or friends in the neighbourhood.

---

**QUESTION 5 Gifts regularly made**

This is the counterpart of Q. 2, dealing with gifts or commodities rather than services. Again repeat the question in reference to relatives seen often. Note that a meal that is given is distinct from the service of preparing a meal (prompted in Q. 2). Obtain the best total estimate that you can of the worth of these gifts, however rough.

---

**QUESTION 6 Occasional gifts made**

We do not wish to waste time on occasional gifts of a value of less than £25.

GB WIFE GAVE DAUGHTER, WHO  
WAS HOME ON LEAVE FROM INDIA  
A SAPPHIRE PLATINUM & DIAMOND  
RING WORTH £600 LAST JUNE.

---

**QUESTION 7 Gifts (regularly) received**

This is the counterpart of Q. 3. Refer to relatives seen frequently and repeat the question. Note that meals consumed should also be coded in this question. The service (of preparing them) was included under Q. 3. Probe according to the answers made previously.

---

**QUESTION 8 Occasional gifts received**

Do not waste time inquiring about gifts of a value of less than £25.

**QUESTION 9 Staying overnight**

The question concentrates on holidays and stays which are directly or indirectly paid for or subsidised by relatives and friends. It may be difficult to obtain an estimate of saving. We have in mind not only the instance of holiday but also an elderly person or a child staying with a member of the family for a lengthy period of the year during a time of loneliness or financial difficulty. Note that space allows only 8 columns on this page. In the unlikely event of interviewing in a household with 9 or 10 persons write in the details for the 9th and 10th persons lower on the page.

**QUESTION 9 (b) Saving**

Note that there are two alternatives in the question. The saving from staying in a relative's or a friend's home should be estimated in terms of the comparable cost of living at home. The saving from being taken on holiday should be estimated in terms of the cost of going on holiday on one's own.

---

**QUESTION 10 Visitors**

This question reverses Q. 9 but estimates of cost should be written into the column allocated for the housewife.

H/W  
FINDS THIS IMPOSSIBLE  
TO ESTIMATE.  
—

**QUESTION 7 Food**

Actual nutritional levels cannot be established by an interview of this kind, but it is hoped that these questions will show very roughly (i) whether a family member goes short of food occasionally, (ii) whether the family is able to buy relatively expensive foods frequently, (iii) whether any member of the family goes short of food occasionally, and (iv) to what extent patterns of food consumption vary with income.

**(a) Cooked breakfast**

Many women do not eat breakfast. Bacon and eggs is only an example. Others would be boiled or fried egg, haddock, kipper, etc. But not porridge, toast, fried bread or potatoes (the distinction is between carbohydrates and other foods).

**(b) No cooked meal**

Stress the whole day. A heavy breakfast but nothing later, or a heavy meal at supper-time will not count as going without a cooked meal during the day.

**(c) Fresh meat**

This will be difficult for households where children have school dinners, or members of the household eat canteen meals. It would be reasonable to code such persons "Yes" in the absence of any better information. It is highly possible that some housewives may have very little fresh meat (defined to include chicken, chops, frozen meat of any kind but not corned beef, tinner meat, boiled ham or sausages). Care is needed as meat-eating is probably over-stated, and when there is meat the men in the household and not the women may have it.

**QUESTION 8 (a) Joint**

Accept what the informant understands by a joint.

**QUESTION 8 (b) and (c) Milk**

Do not include school milk (a correction for this will be made in the office). Check for extra milk at weekends. Include sterilised milk ("stera") as fresh. Some houses buy milk in powder or liquid in tins for babies too, but do not attempt to assess the quantities of this. Just make a note that it is bought.

**QUESTION 9 (b) Clothing**

Clothing cheques are "Provident" cheques and the like where a cheque for £1, for example, entitles a person to shop at certain shops and repayment is made at 1s. in the £1 for 21 weeks. Clubs include any kind of arrangement through a catalogue, shop, or door-to-door salesman.

**QUESTION 9 (c) and (d) Spending on clothing clubs**

Some clubs include coal and furniture as well as clothes; try to get an estimate of the proportion of money spent on clothes. Informants often give a maximum figure, when in fact they miss or only pay something on account.

**QUESTION 11 Adequate footwear**

Includes state of repair as well as fit. Plimsolls and sandals in winter are not adequate, nor are boots alone adequate for summer. Plastic sandals are coded not adequate, unless there are other shoes.

**QUESTION 12 Smoking, pools and betting**

Smoking is often underestimated in surveys. By asking quantities we hope to be able to work out roughly the expenditure. Note if cigars and not cigarettes. Take care to make betting seem a very common activity (which it is, of course), since information may not readily be forthcoming in the context of all these questions on shortages.

**QUESTION 13 Christmas**

Make sure that the sum you have is the extra expense on top of normal housekeeping for the household unit.

12 H.O.H. STATED HE NORMALLY  
SMOKES 3 LARGE CIGARS  
PER DAY, BUT DURING  
LENTHE GIVES UP SMOKING  
& DRINKING, BUT HE INTENDS  
TO RESUME AT EASTER !!

FOR CHIEF WAGE EARNER/H.O.H. CODE C.W.E./H.O.H. ONLY  
 24. (a) There's been a lot of talk about poverty. Do you think there's such a thing as REAL poverty these days? \*

Does Not Apply SKIP TO Q.25  
 yes  
 no  
 DK

(b) What would you describe as poverty?

WRITE IN ANSWER —

MAYBE PEOPLE ARE IMPROVIDENT, DUE TO IGNORANCE AND MISMANAGEMENT OF THEIR FINANCES— THEY COULDBE IN REAL POVERTY— SOME O.A. PENSIONERS TOO ARE NEARLY STARVING I KNOW, BECAUSE THEY ARE TOO PROUD TO CLAIM THEIR RIGHTS.

(c) Would you say that if people are in poverty its mainly

X - their own fault?  
 Y - the Government's fault?  
 0 - the fault of their education?  
 1 - the fault of industry not providing the right jobs?  
 2 - anything else? (SPECIFY)

PROMPT AND CODE ONE ONLY

3 - a combination of (some of) these?  
 4 - none of these?  
 5 DK

ASK CHIEF WAGE EARNER AND HOUSEWIFE ABOUT ALL AGED 23 AND OVER  
 25. Do you mind telling me if you voted in the last General Election (I don't mean who you voted for, just whether you voted)? \*
