QUESTIONNAIRE ON HOUSEHOLD RESOURCES

STANDARDS OF LIVING IN THE UNITED KINGDOM 1967-68

A Survey carried out from the University of Essex and the University of London (L.S.E.)

Queries should be addressed to: Miss Sheila Benson Skepper House 13 Endsleigh Street London WC1

Name of Interviewer. E. M. CLULEY.

Name of Interview(s). 8th. FEBRUARY, 1968.

Or contacts

Length of interview(s). (192): 130pn-3.15pn-134hours

(3,5+6). 3.15pn-4tpm.

(4). 6. - 6.30pn.

2hour.

Total actual interviewing time. 3 hours.

Form of introduction

"My name is X. I'm from Essex/London University, We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

SUMMARY: COMPLETE AFTER INTERVIEW 1, 2, 3, etc. 1. Interview carried out Which sections were answered in whole or in part by which persons on the household? 21 5. Note that the recent Industrial Employment Act gives employers the responsibility of notifying employees about certain terms of service. Many employees will have received some kind of notification.

QUESTION 6 Whether sick pay

Include only when employer pays cash directly to an employee who is sick. Contributions towards medical care costs come under Q. 11. Ideally we would like to have details of sick pay expected and length of time employer is expected to go on paying. (Sometimes a man is paid one proportion of pay for 3 months and then a lower proportion for a further 3 months.) Many informants, however, will not know and you should do your best to get a general idea at least of the starting level for the first month, recording underneath more specific information if known.

Sick pay amount What should be entered here is costs paid by employer. Sickness benefit should not be included even though employers contribute towards it. Earnings means earnings before tax.

QUESTION 7 Pension

Include any type of occupational pension, contributory or non-contributory, funded or unfunded.

QUESTION 7a Employee's contribution

QUESTION 7a Employee's contribution

Note that we are not attempting to establish what the employer pays, because many informants will not know. We require amount paid (preferably) or per cent of earnings before tax: many schemes are not of the type that the employer pays a fixed proportion of earnings. In these instances, code "None" or "Does not apply", according to the information you are given. When given a percentage note that it may be calculated on basic wages rather than earnings and you should note this so that we can adjust the figure in the office. Estimate the proportion of normal earnings the previous contribution amounts to — correct to nearest percentage point unless respondent names half a percentage point.

QUESTION 7b Pensionable age

That is, the age at which the pension is first payable.

QUESTION 7c Years towards pension

Do not count any years towards another pension in a previous employment unless those years have been accepted by the present employer as counting towards the pension from his employment.

QUESTION 7d Amount of pension

The question refers to the total occupational pension, though part of the cost may be paid by the informant. If the informant knows more details about his entitlement enter information in box (e.g. two-thirds of salary in last 5 years of service).

QUESTION 8 Meal vouchers

You may have to build up towards the average weekly value by asking "How much is each voucher worth?", "How many do you use in an average week?". Generally vouchers are additional to wage or salary but sometimes the employer will include them on a pay slip as part of earnings received. Watch that you do not count their value both here and later under net earnings.

QUESTION 9 Subsidised meals

Meals include drinks that may accompany them though we think it might cause offence to ask this in a formal question. We are interested to learn of anything from subsidised canteen meals to expense account lunches

QUESTION 9a Saving on meals

Note that we are seeking an estimate of the difference between the actual cost to the employee and what he would have spent in the ordinary way if there were no subsidised canteen or restaurant available, or if his work did not allow him to charge the cost of outside meals. We are not seeking an estimate of the real value of the meals. Since some employees may not spend more outside on a poorer meal than they spend inside for a subsidised one, some entries may be "O" shillings.

QUESTION 15

This is laid out as concisely as possible on one page and you are asked to ring 01, 02, 03, etc., as appropriate and then to enter the rates per week and amounts below, carefully writing in the code "01" (i.e. Family Allowances) "02" (i.e. Retirement Pension) and so on so that we are clearly aware of the allowances to which the amounts refer.

Amounts will sometimes be joint—e.g. retirement pension for man and wife—or will be for several members of the household—e.g. sickness benefit for man and wife and children. In these instances the amount should be entered (if necessary, after the interview) in one column only, under that member of household receiving the payment. Wherever possible encourage informants (especially when elderly) to show you the allowance or pension book.

CODE 01 Family Allowances CODE 01 Family Allowances

			First child	Second		Fourth & ubsequent	
up to April 1968			nil	8s.	10s.	15s.	
after April 1968			nil	15s.	17s.	17s.	
counting children	under	15 or	up to 19 if	still in full-tim	e education	or college	or an
apprentice on low	wages.						
CODE 02 Retires	ment P	encion					

CODE 02 Retirement Pension
Note that the actual amounts vary widely, Increased pensions are paid if retirement
is deferred. There are now in addition small graduated state pensions (averaging about
3s.) and pensions may be reduced because of earnings or a deficient contribution
record. Note that some of these points also apply to other benefits. Pensions and
supplementary benefits can be combined in a single payment. You will be prompting
for supplementary benefit and wherever possible we should like you to list the amount
separately (as well as the fact that it is being received). But whenever the rate given
to you exceeds the standard rate below you should check the reason.

Single person (husband)			10s.	
Wife's income		£2	16s.	0d
1st dependent child		£1	5s.	
2nd dependent child			17s.	0d

1st dependent child £1 5s. 0d.

CODE 03 Standard Widow's Pension
Note: not the widow's allowance which is paid for the first 26 weeks after widowhood.

Widow or widowed mother ... £4 10s. 0d.
1st dependent child £2 2s. 6d.
2nd child £1 12s. 6d.
3rd and subsequent child £1 12s. 6d.
3rd and subsequent child £1 12s. 6d.
Depending on the circumstances of the death of the husband (armed service and so on) widows' pensions may differ in size. Note that family allowances are received in addition to dependent children's allowances.
Widow's Allowance: Widow £6 7s., children as for widow's pension
CODE 04 and 05 Sickness Benefit and Unemployment Benefit
CODE 04 and 05 Sickness Benefit and Unemployment Benefit
sunday, makes up a "week's" benefit Note that an earning-related supplement may be paid in addition to the flat rate benefits listed below. Moreover, these benefit rates depend on the contribution record.

Single person ... £4 10s. 0d.
Married woman ... £2 16s. 0d.
1st dependent child ... £1 5s. 0d.
Each subsequent child ... £1 5s. 0d.
Each subsequent child ... £1 5s. 0d.
CODE 66 Supplementary Benefit
The former "national assistance". Rent is sometimes paid direct to the landlord by the Supplementary Benefit Commission. There is a check later that the amount is known and counted as income.

CODE 7 Industrial Injury Benefit
£6 7s. 0d. (with additions for dependants) is payable for the first 26 weeks after injury after which the injured person goes before a Board to have his injury assessed for an individual disablement pension.

CODES 08 and 09 Industrial and Disablement Pensions
The 100 per cent rate is £7 12s. 0d. (with additions for dependants). CODE 09:

injury after which the injured person goes before a board to have his injury assessed for an individual disablement pensions.

CODES 08 and 09 Industrial and Disablement Pensions
The 100 per cent rate is £7 12s. 0d. (with additions for dependants). CODE 09:
Note that these are war pensions, not service pensions included under occupational pensions later in Q. 19.

CODE 10 Maternity Allowance
The standard rate of maternity allowance is £4 a week. It is paid to women who have been paying full national insurance contributions, It begins 11 weeks before the expected confinement and ends after the sixth week following it.

CODE 11 Maternity Grant
This grant is £22 either for home or hospital confinement.

CODE 14 Single Grant
This is officially described as an exceptional needs grant. The Ministry of Social Security has replaced the former National Assistance Board and you may need to explain "a grant from the Assistance". Probe carefully for this for all income units who are not employed, whether or not they receive supplementary benefit. A large number of people obtain single grants, e.g. for spectacles or dentures, even though they are not normally eligible to receive supplementary benefit. Note also that since you are asking about a period of 12 months there will be instances of people now in work who obtained a grant at an earlier point in the year.

QUESTION 30(a) Income from lodgers or boarders

Becareful not to obtain an inflated total. Amounts may vary according to numbers of boarders and, if necessary, write down separate amounts on the necessary with the numbers of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and, if necessary, write down separate amounts on the number of boarders and the number of bo

QUESTION 30(c) Net income

Carefully prompt for services and the cost of providing these services of that you can make an estimate of NET income—"profit" as some people will understand it. In some instances you will have to write down the cost of the cost of the people will understand it. In some instances you will have to write down the cost of the cost of offerent generally given for gross amount received and an estimate of the cost of different services. If the informant does not know what his net income has been, make an estimate on the basis of what he tells you about gross payments make an estimate on the basis of what he tells you about gross payments and cost of services and expenses. Try to obtain a figure net of any tax in the box provided. We are asking you to provide a figure both for last week and last year. There may be changes in income (due to loss or arrival of boarders) during the year which are revealed in interview.

A shance To 667 on Theorems and the cost of providing these services and the cost of providing these services are in the make an estimate of NET income—"profit" as some people will understand it. In some instances you will have to write down make an estimate of NET income—"profit" as some people will understand it. In some instances you will have to write down make an estimate of NET income—"profit" as some people will understand it. In some instances you will have to write down make an estimate of NET income—"profit" as some people will understand it. In some instances you will have to write down make an estimate of NET income—"profit" as some people will understand it. In some instances you will have to write down make an estimate of NET income—"profit" as some people will understand it. In some instances you will have to write down make an estimate of NET income—"profit" as some people will understand it. In some instances you will have to write down make an estimate of NET income—"profit" as some people will understand it. In some instances you will have to write down make an estimate of NET income."

QUESTION 32 Value of own food or poultry

Try to obtain a weekly average of the value of using own garden, allotment and farm produce. Do not waste too much time on produce amounting in value to less than 10s. a week. Be careful not to give an inflated estimate of the saving. Husbands sometimes exaggerate the value of what they grow in a large garden. What you want is an estimate of what it would cost in the shops to purchase the kind of produce consumed in the home which is grown by the household, LESS all expenses. For a small-holding or farm this means taking account of purchases of stock or seed, wages, payments of fuel bills, etc., in the same way as earlier you explored the income of the self-employed.

QUESTION 33 Total income last year

In some instances you may have difficulty with an informant who, though willing to answer other questions, is unwilling to answer questions on income, or an informant who is vague or uncertain about details. By adopting a matter of fact approach or by coming back to these questions after dealing with the rest of the questionnaire in an interview, you may overcome the difficulty. If the questions remain unanswered, try the question here as given, adding any other explanation according to your individual style or to the circumstances of the situation. Show the Flashcard and the do your best to arrive at a specific amount. Also do your best to check: "Does that include family allowances, pensions, etc.?" You may be surprised sometimes to find that the informant gradually undends and is prepared to answer many preceding questions. You should also do your best to check whether the total given includes other income units in the household. Try to establish totals for these units in the same way.

QUESTION 19 Housekeeping and board

QUESTION 19 Housekeeping and board

The question refers to ALL INCOME RECIPIENTS including pensioners, as well as earners, who contribute to the housekeeping expenses. Be careful that you probe for everyone in the house, including adolescent earners. Sometimes the actual sum available for housekeeping will be quite different from that suggested by the total income of the household. The husband or teenagers may retain quite large sums not only for their own use but because the pattern of responsibility in one household for expenditure may be different from that in another household which has the same composition. Housekeeping can be a touchy point if both husband and wife are present, and it is perhaps best dealt with by interviewing one of them on their own (the housewife preferably) and, if possible, checking later with the other (the husband). If both husband and wife are present avoid expressing any surprise or criticism if you think the housekeeping is small. Also avoid indicating any opinion on the question of whether wage-earners should pay bills. Try to imply that all arrangements are equally possible. We have listed the common ones, but there will be others. REMEMBER TO CODE EACH INCOME RECIPIENT.

QUESTION 19 (b) Money back

This can be daily fares, insurances or clubs paid, dinner money, or simply "spending money". Some teenagers hand over their wages but get clothing bought. Usually this question will apply to teenagers, but some husbands may get money from the housekeeping for their cigarettes and hear mid-week beer mid-week

QUESTION 19 (c) Payment of housekeeping bills

Often the husband will pay some larger bills, but alternatively he may pay housekeeping but expect to "help out" if a heavy bill comes in. We realise that an estimate may be rough but try to get an average contribution. Teenage children may buy food as "treats" for the household from the money they retain. Again try for an average.

QUESTION 20 Long-term saving

We are not interested in asking here whether the informant has savings (that was asked in Section V). Nor are we interested here in asking for short-term saving. Instead the question explores whether at the present time the informant manages to put aside savings for a long-term objective.

QUESTION 21 Ten years ago

To give us some idea of fluctuating fortunes we ask what things were like ten years ago. Some persons aged 35 or over will have been at home in their parents' households ten years ago and therefore we have to find what was the composition of the household. In any case, we require an estimate of the total money flowing into the household, and the number of adults and children that were supported at that time. Give the informant time to recollect. And check that income includes pensions, family allowances, etc. Fortunately, the informant will already have some idea of what you are after from the detailed questions asked earlier.
