9	H	8	6	3	2	3	0	1

Date(s) of interview(s) 27th AUGUST 1968
or contactsLength of interview(s) H/W 9 H/O 9 DAUGHTER
INTERVIEWED FROM 5.30pm
To 7.15pmTotal actual interviewing time 1 3/4 hours

Form of introduction

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

SUMMARY : COMPLETE AFTER INTERVIEW

1. Interview carried out at first call at second call at third or later call	10	3. Which sections were answered in whole or in part by which persons on the household?	Write Section 1, 2, 3, etc.	5. Number of other households at address →	21
	X Y 0		Informant		13
2. Information for household — — complete skip to Q. 3 incomplete—answer 2a	11	3rd	14	6. Household living on ground basement floor 1st floor 2nd floor 3rd floor 4th floor 5th or above Specify	X Y 0 1 2 3 4 5

HOUSING AND LIVING FACILITIES

General

Information recorded by the interviewer on the left of the main column is needed so that the circumstances of the household may be fully understood by those in the office but it may not be required for computer-analysis.

QUESTION 1 — Rooms

No room should be listed twice. Bedsitters should be listed as bedrooms and not also as living-rooms. Do not count a scullery or a hall or a bathroom as a room. The total number of living and dining and bedrooms should not include a kitchen if it is not large enough for a family to eat in. You will see that there are two numbered boxes in the column in which to write the numbers of bedrooms and total numbers of rooms. Each is for each digit in the total: Thus, if there are 9 or fewer rooms the number should be written in the right-hand box and "0" should be written in the left-hand box. If there are, say, 13 rooms, then "1" should be written in the left-hand and "3" in the right hand box. This will help us to avoid mistakes in transferring information to the computer.

QUESTION 2 — Additional or fewer rooms

Define "room" as above.

QUESTION 4

A water closet flushed by water. Chemical or earth closets are not included, nor are flush water closets which can only be reached by going outdoors across a yard, even if under cover.

QUESTION 5

A garden is any space at the front or back of the house where it is possible to grow something. A yard is an outdoor space which is covered in concrete, asphalt, etc., where there are no plants or lawn other than in boxes or barrels (if any).

If you have already seen the garden it may be unnecessary to ask the second part of the question, for it may be possible to code 3, 4 or 5. But be sure that you are taking back as well as front garden into the reckoning. Add the two together in estimating size.

GARDEN AREA 24X12 ft.
(HUSBAND'S INFORMATION)

SECTION II EMPLOYMENT

General

This section and the next (Occupational Facilities) should normally be asked of each adult earner in the household. If you happen to be interviewing the housewife during the day you should ask these questions as they apply to herself (and also to any children and adult dependants — e.g. elderly widowed mother) and then a separate (shorter) interview with the husband (and any other adult earner who is not available at the time of the first interview) to ask him for answers to this section, to the section on occupational facilities, to the questions on earnings in Section IV and any other questions which cannot be answered by the housewife.

FATHER, MOTHER & 2 CHILDREN

ON HOLIDAY LAST WEEK.

ONLY ONE JOB EACH -

NOT EMPLOYED IN HOUSE

01
NORMALLY STARTS AT 8 AM -
FINISHES 5 PM MON-FRIDAY.

02
HAS NO USUAL HOUR OF
STARTING OR FINISHING -
RELIEF SIGNALLMAN.

QUESTION 1 Attended paid employment

All persons working for gain. If a housewife, retired person or even a schoolchild works a few hours for pay each week, he or she should be included. Also count man who is not at his main occupation (and even who may be thought of as unemployable) but who has pay from a minor job. We will be able to check in analysis. Our purpose is not to miss casual earnings and supplementary sources of income.

QUESTION 2 Two jobs

If a person does some kind of job for a different employer or on own behalf in his "spare" time this counts as a second job. Even if it is the same kind of job but is separately paid for (e.g. decorator working in spare time for himself) it should be counted as second job.

QUESTION 3 House or flat

Includes house combined with business premises or farm; but the question has been introduced primarily to cater for women home-workers on piece rates. Note that it refers to any second as well as the principal job.

QUESTION 4 Starting and finishing work times

The question applies to last week. Ignore variations in working hours from week to week. If working times were the same on at least three days of the week regard them as "usual". If there were two shifts (e.g. morning and evening), list according to starting time of the first and finishing time of the second, and note fact on left.

QUESTION 5 Aid in calculating hours of work

The table below assumes a 5-day week and 1 hour for lunch. Note that each digit should be put in each separate part of the box (i.e. one digit under No. 29 and the other under No. 30).

Starting time	Finishing time			
	4.30 p.m.	5.00 p.m.	5.30 p.m.	6.00 p.m.
7.00 a.m.	42½	45	47½	50
7.30 a.m.	40	42½	45	47½
8.00 a.m.	37½	40	42½	45
8.30 a.m.	35	37½	40	42½
9.00 a.m.	32½	35	37½	40
9.30 a.m.	30	32½	35	35½
10.00 a.m.	27½	30	32½	35

QUESTION 6 NOT AT WORK

Note that this question must also be answered for persons working last week for less than 30 hours. Unemployed: as distinct from "off sick" or temporarily off work (e.g. on holiday). The replies will be, for example: "I lost my job"; "I'm out of a job"; "There was redundancy at the firm so I'm out of work for the moment". Sometimes a person may say he is both unemployed AND sick or disabled, or it may for other reasons be difficult to specify just one code. Accept the best answer given by the informant even if you observe that someone who says he is unemployed is obviously sick or disabled (and vice-versa). Later questions are designed to establish whether or not he is seeking work and whether or not he is chronically sick or disabled.

Unpaid holiday

Part of our purpose in asking if holidays are unpaid is to ensure that 5 is not coded rather than the underlying reasons coded as 7, 8 or 9. Distinguishing between paid and unpaid holidays introduces complications but may be worthwhile (a) for the opportunity afforded to probe the reasons an unpaid holiday is being taken and (b) later when calculating weeks not at work in previous year.

QUESTION 8 Work record

Our aim is to trace persons whose work record is not full and to establish both numbers of weeks off work and numbers of weeks in which fewer than 30 hours were worked.

Weeks off work in year

The procedure is first to ask the general question about numbers of weeks off work. Some informants will be uncertain of the right answer. They can be encouraged by prompts about the last spell off work for unemployment, then sickness and so on down the list. Whenever it is clear they are going back more than 12 months you should move on to the next eventuality on the list. In the appropriate column note the number of weeks for all spells of unemployment, sickness, etc. You must record "O" in all open boxes when the person has had no spell off work for that reason. You may ignore the codes "X" and "Y" under each open box. They are for office use. For easy reference you can record each spell off work alongside the months listed below. (You may in rare instances interview persons, say, who had five or six spells off work through sickness and may need to show some rough working to arrive at the right total. (Please leave any rough working in case of queries.)

02 HOLIDAYS -
2 WEEKS + 3 days.

List member of household (informant, 2nd, 3rd) and weeks off work and reason

January.....	July.....
February.....	August.....
March.....	September.....
April.....	October.....
May.....	November.....
June.....	December.....

Some informants may have a quick answer for the first general question (usually because they have a very full or almost empty record of work in the year). You should nonetheless use the same procedure of asking about each type of eventuality and each spell off work as a check. If an informant says he hasn't been off work except for "just odd days because of colds and so on" ASK How much would it amount to over the past twelve months — one week, two weeks? AND CODE ACCORDINGLY. For informants (e.g. housewives or students) who have only worked for a few weeks in the year, you may find it quicker to establish first how long they were at work.

As with so many other questions about "the last twelve months" in this questionnaire, informants will often find it helpful if you encourage them to think forwards from a date exactly a year ago.

QUESTION 9

Exclude Bank Holidays in counting up holiday entitlement. List number of weeks to nearest week. Do not insert " $\frac{1}{2}$ ".

QUESTION 10 Occupation

See instructions above for Q. 7(b). Start by recording member of household in left-hand box (informant, 2nd, 3rd, etc.) and then carefully note occupation and industry or business. The office will code in the right-hand columns on the basis of your information. Avoid all vague terms, e.g. "engineer". If you find the answer too general or difficult to understand always ask "What do you do?" and write in the answer. In many households there will be only one or two persons who have been at work in the past twelve months. If necessary you can use all the space in the box just for one or two persons, providing it is clear to which person(s) the information applies.

QUESTION 11 Change of Job

Note that sub-questions (a) - (d) apply only to persons changing their jobs less than five years previously.

03 LEFT SCHOOL LAST JULY 9
STARTED WORK IN PERTH
WITH AYSCO BOARD SO HAS
NEVER CHANGED HER JOB.
SHE LEAVES EMPLOYMENT
NEXT MONTH TO BECOME A
STUDENT IN FALKIRK
TEACHER'S TRAINING COURSE.

11(c). IRU, etc., means Industrial Rehabilitation Unit or any other Government training centre.

QUESTION 12 Training Course

Our object is to check on men taking a re-training or training course, whether or not they changed their job. Some men may have taken a course and gone back to their former job or employers. Others may be unemployed and yet have taken such a course.

QUESTION 13 Fall in Earnings

You may be asked what you mean by "big" fall. Accept whatever the informant thinks is big. Put the information in the box, including the approximate earnings previously as well as the subsequent earnings and code the extent of the fall in the right-hand columns.

OCCUPATIONAL FACILITIES AND FRINGE BENEFITS

General

Our intention is to invite anyone who has been working full-time to tell us about working conditions and fringe benefits. This will include anyone currently sick or unemployed who has been in full-time work in the last 12 months.

NORMALLY QUESTIONS SHOULD NOT BE ASKED ON SOMEONE ELSE'S BEHALF: THEY SHOULD BE ADDRESSED TO THE PERSON IN OR RECENTLY IN A PARTICULAR EMPLOYMENT.

But if two brothers, or husband and wife, work in the same factory or if otherwise the informant has good reason for knowing the employment conditions, then the interviewer may exercise discretion.

QUESTION 1 Outdoors

In determining whether mainly outdoors, you should find whether proportion of working time spent outdoors exceeds 50 per cent. Those working outdoors but under cover (e.g. some dock labourers and railway porters) should be counted as outdoors. Where conditions have changed, the question should be applied to the most recent conditions (e.g. last week at work).

QUESTION 2 Facilities

We are interested only in facilities provided by the employer. Disregard provisions and facilities which may happen to be available but which are not provided by the employer (e.g. garage hand who uses W.C. and washing facilities in neighbouring shop, or printer's apprentice who nips into local café for tea). For someone currently sick or unemployed the questions apply to the last job he held during the previous 12 months.

Facilities for washing Note that there must be hot water, soap and towel if "yes" is to be coded. Include liquid soap and paper towels in definition if necessary.

QUESTIONS 2 and 3 Writing in questions which do not apply

Working conditions vary widely and it is impossible to devise questions which fit them all. If you are satisfied that the answer yes or no to a particular question is meaningless or inappropriate DO NOT CODE alongside the item but write in underneath how many of the 8 or 10 items do not apply.

QUESTION 3 Sufficient Heating

The test is whether the informant feels cold at his work more often than the occasional instance of there being a heating breakdown or a really big freeze.

Facilities for washing Note that there must be hot water, soap, towel and mirror if "yes" is to be coded. You may count liquid soap as "soap" and paper towels and even a hand drying machine as equivalent to a towel if necessary.

Place for lunch Eating at bench or desk does not count.

Place to keep clothes e.g. cupboard, locker, wardrobe, hook in small room, etc. The wording should make clear that we are interested both in a place where clothes can be kept and one where they will be reasonably safe.

30 02 STATED HE DOES NOT
ALWAYS HAVE THESE FACILITIES AS
SIGNAL BOXES VARY, BUT
GENERALLY SPEAKING HE COULD SAY
"YES".

03 STANDS AT A
DRAWING BOARD
MOST OF THE DAY.

QUESTION 5

Note that the recent Industrial Employment Act gives employers the responsibility of notifying employees about certain terms of service. Many employees will have received some kind of notification.

QUESTION 6 Whether sick pay

Include only when employer pays cash directly to an employee who is sick. Contributions towards medical care costs come under Q. 11. Ideally we would like to have details of sick pay expected and length of time employer is expected to go on paying. (Sometimes a man is paid one proportion of pay for 3 months and then a lower proportion for a further 3 months.) Many informants, however, will not know and you should do your best to get a general idea at least of the starting level for the first month, recording underneath more specific information if known.

Sick pay amount What should be entered here is costs paid by employer. Sickness benefit should not be included even though employers contribute towards it. Earnings means earnings before tax.

03 WAS SOBER TO BE SO
VAGUE ABOUT SUPERANNUATION
ETC. AS SHE HAS NOT TAKEN
ANY INTEREST IN THESE MATTERS
AS THE JOB WAS MERELY A
"STOP GAP" UNTIL SHE COULD
GO TO COLLEGE THIS YEAR.

QUESTION 7 Pension

Include any type of occupational pension, contributory or non-contributory, funded or unfunded.

QUESTION 7a Employee's contribution

Note that we are not attempting to establish what the employer pays, because many informants will not know. We require amount paid (preferably) or per cent of earnings before tax: many schemes are not of the type that the employer pays a fixed proportion of earnings. In these instances, code "None" or "Does not apply", according to the information you are given. When given a percentage note that it may be calculated on basic wages rather than earnings and you should note this so that we can adjust the figure in the office. Estimate the proportion of normal earnings the previous contribution amounts to—correct to nearest percentage point unless respondent names half a percentage point.

QUESTION 7b Pensionable age

That is, the age at which the pension is first payable.

QUESTION 7c Years towards pension

Do not count any years towards another pension in a previous employment unless those years have been accepted by the present employer as counting towards the pension from his employment.

QUESTION 7d Amount of pension

The question refers to the total occupational pension, though part of the cost may be paid by the informant. If the informant knows more details about his entitlement enter information in box (e.g. two-thirds of salary in last 5 years of service).

QUESTION 8 Meal vouchers

You may have to build up towards the average weekly value by asking "How much is each voucher worth?" "How many do you use in an average week?" Generally vouchers are additional to wage or salary but sometimes the employer will include them on a pay slip as part of earnings received. Watch that you do not count their value both here and later under net earnings.

QUESTION 9 Subsidised meals

Meals include drinks that may accompany them though we think it might cause offence to ask this in a formal question. We are interested to learn of anything from subsidised canteen meals to expense account lunches and dinners.

QUESTION 9a Saving on meals

Note that we are seeking an estimate of the difference between the actual cost to the employee and what he would have spent in the ordinary way if there were no subsidised canteen or restaurant available, or if his work did not allow him to charge the cost of outside meals. We are not seeking an estimate of the real value of the meals. Since some employees may not spend more outside on a poorer meal than they spend inside for a subsidised one, some entries may be "0" shillings.

9 02- STATED HE NORMALLY CARRIES
A FLASK & SANDWICHES, BUT THE RULE
OF THE RAILWAY IS THAT IF HE IS
DETAINED IN A SIGNAL BOX OVER
CERTAIN HOURS, HE CANNOT GET AWAY
FOR A MEAL. HIS EMPLOYER MUST PROVIDE
A MEAL FOR HIM. THIS SELDOM HAPPENS
BUT HE WOULD SAY THAT POSSIBLY IT COST BRITISH RLYS. £6 IN THE LAST 12a
YEAR FOR THIS SERVICE - APPROX. 2/- PER WEEK

QUESTION 10 Personal use

Includes transport to and from work.

QUESTION 10a Normal repairs

Excludes repairs caused by negligence of informant or family. **Make and type**—e.g. Vauxhall Cresta, Saloon or Morris 15 cwt. van. The description should be enough for us to look up its second-hand value as a check on the value.

QUESTION 10d Driver

This is a polite way of ascertaining whether the car is chauffeur-driven. Thus Code X includes self, family, friends and other employees driving for pleasure and not because they are paid to drive the respondent around.

QUESTION 11 Other benefits

Read the prompts slowly: they are carefully drafted to cover the perks of both senior and junior staff. The goods may vary from free or subsidised coal given to miners to discounts on goods bought or free vegetables, seeds or seedlings. Don't hesitate to pursue it further according to occupations of informants. Transport may be free leisure travel given to railway or bus employees or paid holidays given to senior executives. Note this section is supplementary to the use of a vehicle in Q. 10. Medical expenses may be premiums to insurance agencies for private medical care or the direct payment of doctors' bills. Education can range from free tennis lessons or typing lessons to payment of public school fees. Shares in the company can be given free or below market value.

ENCOURAGE THE INFORMANT to add items under the various headings together and give time for this to be done. We are interested to know what it would cost to buy these things privately even though the employee might not have chosen to do so (e.g. the employee might have used the Health Service if his employer did not pay for him to have private medical care).

"How much a year are these things worth altogether?"

The point here is that some kinds of entries will be money saved, say, on goods and services which the informant would have had to pay for, whereas other entries will involve things he would never have afforded or thought about. Our aim is to discover what equivalent in extra income would be needed if he did the same things but had to bear the full cost himself.

QUESTION 13 Satisfaction with job

The questions are laid out in a form which equally encourage positive or negative answers. You may shorten the question to "Are you satisfied or dissatisfied with —" providing the informant seems to be genuinely weighing the alternatives.

Facilities at work means facilities as asked under Q. 3 earlier.

02 HAS

5 FREE PASSES PER ANNUM ON
RAILWAY & ALL OTHER FARES
AT 1/3. WIFE & CHILDREN HAVE
REDUCED FARES TOO, BUT
DURING THIS LAST YEAR HAVE
NOT MADE MUCH USE OF THIS
CONCESSION AS TRAINS ARE

FAMILY NORMALLY USES BUSES
OR GOES IN CAR. ✓

ALSO: UNIFORM.

3 PAIRS TROUSERS.

2 JACKETS.

1 GREATCOAT.

2 Pairs BOOTS PER ANNUM.

£25 02 ESTIMATES

CURRENT MONETARY INCOME

General

This section asks questions in turn of the employed, the self-employed and then everyone, including those who are not employed. Our object is to obtain reliable estimates of income, before and after tax, for each income unit in the household, both for "last week" and "the last 12 months".

Income Unit

This is any person aged 15 or over, or if in full-time education any person aged 19 or over, together with wife or husband (if she or he has one) and children under 15 (or aged 16-18 if in full-time education), if any. According to this definition a man, wife, and children aged under 15 count as one income unit, but a middle-aged widow and a son who is a university student, or an elderly widow and a single daughter of 40, count as two income units. A household consisting of man and wife with three single children who are all over 15 years of age and who are at work counts as four income units.

Allocating Income

Usually amounts of income can be entered in the appropriate column, according to the person receiving it. Do not enter any income twice. Do not, for example, enter a particular amount both for the wife and the husband. Nor need you split up any amount part of which is payable for a dependent wife or child. Thus, do not attempt to divide up the total or family allowances; enter the total in the wife's column. And enter an amount for sickness benefit, say, even if it includes sums for the wife and children, in the husband's column (if indeed it is he who receives it).

Gross and Net

In the first question you carefully ask for the last pay net of deductions and go on in the second question to establish what these deductions are. The answers to both questions effectively give gross and net earnings for the last period for which pay was received and you can build up further information in the questions that follow. You should be conscious of this distinction throughout the section. It will not always be possible to get information both for income after tax and income before tax. Remember that if you cannot get an answer for one you may be able to get it for the other. Make a note whenever you can. We can calculate in the office.

Last 12 months

Though you start by finding what was the last amount of pay received it is very important also to find what was the average pay during the previous 12 months and gradually build up the total income received by the income unit and the household in those months. You have already filled in a work-record and this will help you to answer several of the questions in the section.

QUESTION 1 Last earnings

Remember to check earnings for each member of the household, even those of a wife who had a job for only a few weeks in the year, a young son who works only on Saturdays, and a retired man with a part-time job. Second or subsidiary earnings are dealt with in Q. 14. Note that each digit is ruled off from the next. Insert "0" in any column which does not apply. Please note also that we have allowed wider columns on these income pages so that you have enough room to write in figures. But note that you will have to indicate which member of the household received any income if you are obliged to use a fifth or sixth column.

QUESTION 2 Deductions

Don't forget that a total is better than nothing. If the informant is uncertain say, "I believe it is on your pay slip" and encourage him or her to check. We have asked you to put a tick if in fact you are shown a slip or the informant reads off the amounts. As before, the small boxes on the left are for you to identify the member of the household: "Inf.", "2nd" "3rd", etc.

National Insurance contributions

A male employee ordinarily pays 15s. 8d. and a female employee 13s. 2d. per week, although note that a married woman can elect to pay only 7d. per week to cover industrial injuries benefits. Boys under 18 pay 10s. 1d. and girls 8s. 5d. per week. Persons over 18 who are contracted out of the graduated pension scheme pay a higher flat rate insurance contribution of 18s. 1d. (men), 14s. 8d. (women).

Graduated pension contributions

The employee contributes $\frac{4}{10}$ per cent of each pound of gross weekly earnings between the ninth and the eighteenth, i.e. approximately 11 $\frac{1}{2}$ d. for each of these pounds, plus $\frac{1}{10}$ per cent for each pound between the 19th and the 30th, i.e. rather more than 1d. for each of these pounds. In fact a man with gross weekly earnings of £9 pays nothing, one with £13 pays 4s. 0d., one with £21 pays 8s. 0d., and one with £30, 9s. 9d. About one person in every five, however, is contracted out of the graduated pension scheme, but such persons nonetheless pay $\frac{1}{10}$ per cent on each pound of gross earnings between the ninth and the 30th, or a maximum of 2s. 1d.

QUESTION 3 Highest and lowest

Check the number of weeks worked by turning up the work record. Some people's earnings will have varied only in one or two weeks of the year and it will not be difficult for you to establish an average in (b). Remember Q. 3(b) is very important. Other people's earnings may have varied widely, either because of changes of job or variations in overtime. Do not include variations due to holidays or sickness. If it is difficult to arrive at an average write in the box or in the margins, e.g. 10 weeks @ £15 10s., six weeks @ £18 15s. and 23 weeks @ £24 11s. We will work out the rest. Do not include weeks of holiday or sickness, which are explored later.

QUESTION 4 Bonuses

If a commission or bonus has been included in Q. 3 do not now amend the answer to that question. If the information is given for the first time write the amount in the box and also strike out "Before" or "After" Tax as appropriate.

3(a) AS NEARLY AS HE
CAN GIVE THIS - £1200 P.A.
THIS WEEK I CALLED BEING
A HOLIDAY WEEK WAS "BASIC"

QUESTION 8

Obtain an estimate of total cost by the normal transport used. Some people who drive cars will offer their estimate of real cost but in such cases write in as indicated the average weekly mileage to and from work (not during work). In other instances assume 6d. per mile for all small cars (i.e. under 12 h.p.) and 8d. per mile for larger vehicles.

5 miles @ 6d. = 2s. 6d.	5 miles @ 8d. = 3s. 4d.
10 miles @ 6d. = 5s. 0d.	10 miles @ 8d. = 6s. 8d.
50 miles @ 6d. = 25s. 0d.	50 miles @ 8d. = 33s. 4d.
100 miles @ 6d. = 50s. 0d.	100 miles @ 8d. = 66s. 8d.

QUESTION 9 Holiday pay

Be careful not to include pay received simultaneously with holiday pay for any week of work. Remember that many wage earners only receive the basic wage during holidays, which is usually much lower than average earnings.

QUESTION 10 Sick pay

There are several practices. (1) Some employers (e.g. public services) automatically deduct national insurance sickness benefit for the worker and his dependants from pay during sickness (or sometimes expect him to report what sickness benefit he receives so that it may be deducted from later amounts of sick pay or even from the first weeks of earnings after recovery from sickness). (2) Others (mainly smaller private firms) deduct only the sickness benefit for the worker, ignoring what he may get for his dependants. (3) Still others deduct nothing for any sickness benefit for which a worker may be eligible. In the last two cases it might seem that the worker will be better off in sickness than at work. This is true for some, particularly salaried earners, but remember that if any employer pays anything to a wage-earner in sickness rarely does it exceed the basic wage. His average earnings may be much higher. (4) When the level of sick pay is small no deductions may be made for any sickness benefit.

Changes in sick pay after the first weeks

In rare instances of persons who have been sick more than a few weeks the rate of sick pay will have changed. If the average is difficult to estimate write in the amounts thus: 4 weeks @ £10, 4 @ £5 10s., etc. After deductions of tax, etc. Note if only the amount of pay before deductions is known.

QUESTION 11 Income of self-employed

The income of the self-employed is sometimes difficult to ascertain. Four alternative methods of questioning that have been found to be helpful in previous research are listed. Our first aim is to find the figure for **annual income before tax**. Thus Q. 11 A(iv) is the crucial one and if you can get the answer to this do not press unduly for the answers to the preceding questions, but they are helpful in establishing that (iv) is in fact the figure you want. The alternative aim (if you cannot achieve the first) is to seek the **amount obtained from the business**, either **Method B** — net profit including money taken out for own use, or **Method C**, the sums actually taken out for personal use. **Method D** should only be tried if all else fails, and frankly, is not of much help. An accurate figure for income is important and you should if necessary take time to establish it. **Method D** "Turnover" = total receipts from sale of goods and services, less any discount allowed.

8 02 SOME WEEKS IT IS MANY
MORE MILES SOME WEEKS
FAR LESS - "250" WAS HIS
ESTIMATE AVERAGE CAR
MILEAGE FOR WORK ONLY.

QUESTION 6a Cars, Vans

Note that in Section II you will have noted any car owned by the business or firm and whether it is also used privately. Do not count this car here also but find out whether there is a second car—e.g. wife's. If informant unable to value a vehicle note instead its make, type and year of manufacture to enable us to look up its value.

QUESTION 6c Debts on vehicles

Note that the question does not apply only to payments which are overdue but to the total sum still owing. You will usually have difficulty in excluding interest from the amount owed. If the amount owed is estimated at less than £50 record the sum and do not take up time making sure that the interest is deducted. But if the amount owed including the interest element is £50 or more ask for the details listed under (c). We will then make an estimate in the office.

QUESTION 7 Life Insurance

If there is more than one policy add up the payments and, if necessary, note any difference in frequency or years of payment. Note that our main object is to establish the equivalent current value in cash of policies they hold. The majority of households will hold policies of little current value and you will see that if they pay less than 10s. a week we do not ask for any details.

QUESTION 8 Value of saleable assets

Please note that we do not envisage that goods in everyday use—beds, blankets, basic furniture, crockery, clothes—need to be valued. We are interested only in items of value that could be sold without serious detriment to the household and its daily life if some ready cash was badly needed. Jewellery, furs, stamp collections, works of art, antiques, and collections of books, might be sold and we need to obtain an approximate estimate of their total current worth. Naturally enough we cannot expect precise valuations and you will find the minimum value of £25 for an article (or a group of articles—e.g. a number of pieces of jewellery) helpful in avoiding protracted discussion of the value of articles used every day in the home.

QUESTION 9 Other assets

Rarely will there be any kind of asset not covered by our other questions. But by asking this general question you may be given information that belongs in the answer to another question. The informant may have misunderstood a question. But be careful not to include an item here which is already covered elsewhere.

QUESTIONS 10 & 11 General assets sold and windfalls

It may be difficult for you to secure an estimate of money raised or spent on "ordinary living expenses" but you will find that our object is fairly clear and once you understand it you can probe for an estimate. We do not want information about sums of money invested in new assets, in replacing old assets (e.g. property, including houses and cars) and in savings, but only information about sums of money spent in the ordinary way on housekeeping, food, clothing, and entertainment. An estimate is better than nothing. Note that we are not asking you to waste time checking small amounts of less than £25.

QUESTION 10 Assets sold in last 12 months

Some people, especially the elderly, will have sold some of their assets in the last 12 months to bolster a low income. This can be an important contribution to their standard of living. Savings—Note that each item should be prompted carefully, especially to persons who have already told you they have sizeable amounts in savings, stocks and shares, etc. Note that we are not interested in this question in total sums which amount to less than £25 in the 12 months. Nor are we interested in amounts that may have been saved from income and spent in the same year (e.g. savings for Christmas or a holiday).

Partial use of sales or savings for living expenses—In some cases property might have been sold, say, and part of the money spent but part of it saved. Try to get a total estimate only of the sum spent on ordinary living expenses.

6 Q2 STATED THIS IS UNUSUAL

HE BOUGHT THIS CAR AT 2509

HAS DONE IT UP HIMSELF THE

NOW reckons it is worth 400

SO IT WAS A GOOD INVESTMENT FOR

HIM— BEING A MOTOR MECHANIC

TRADE HE CAN DO THIS— HENCE

WAS PUT INTO GENERAL USE— COULD

NOT SAY EXACTLY IF IT WENT INTO

THE HOUSEKEEPING, BUT THEY DID

HAVE A LOT OF EXTRA EXPENSE

HAVING TO BUY ELECTRICAL FITTINGS

9 FIRES ETC WHEN THEY MOVED IN

HERE.

QUESTION 9

Uniform grants are available to poorer children in State schools on a means test basis. The grant can be in kind: a parent may be given a voucher or a letter to take to a special shop. NOTE that the question is addressed ONLY TO ONE OF THE PARENTS OF THE CHILD OR CHILDREN. Very uncommonly there will be two sets of parents and children in the household. ONE parent of the second family should also be asked the question. ONLY complete the column alongside Qs. 10a and 10b for the parent in question. If the parent says the grant was made by the Supplementary Benefits Commission check whether you have already included the amount in Q. 15 (code 14) of the Income Section. If not, include the amount here. Remember to code parent only.

QUESTION 10 Costs of going to school

We are interested not only in fees paid to private or "public" schools but in some kinds of cost met by parents of children in State schools. Fees include payments for music lessons. School outings — We are interested only in payments for outings or school holidays organised by the school or a school club which the child went on.

QUESTION 11

Educational maintenance allowances are provided by local authorities for poorer children attending school between the ages of 15 and 18 on a means test basis. We ask parents of 14-year-olds whether they have heard about them to find whether this is taken into account in the decision to leave school. We are also interested in applications which were refused or which were made and the child did not in the end continue at school after the minimum leaving age.

QUESTION 12 Type of college

Teacher training college	1
College of Education	2
Technical college	3
University	4
College or School of Commerce	5
Art college	6
Domestic Science college	7
Evening Institute	8
Secretarial college	9
Other: SPECIFY	0

As with "school" the informant may not know the type and the interviewer may be able to code on the basis of the name supplied. Or he should check on the basis of that name. Part time DAY study means attendance during normal working hours when the student or pupil works for a salary or wage, however small, or, if he has no job, attendance during the morning or afternoon.

QUESTION 12 (d) & 12 (g) Fees and cash from others

Code source of help but if the amount has been included in the Income section earlier (i.e. Q. 20 of that section) make a note, drawing our attention to the fact.

03. See previous note on P 9A.
Final grant not yet
decided for 1968/69.
