MEMBERS OF HOUSEHOLD Christian name for reference only 65-66 65-66 65-66 Age last birthda 3 3 9148 9486414 QUESTIONNAIRE ON HOUSEHOLD RESOURCES STANDARDS OF LIVING IN THE UNITED KINGDOM 1967-68 I Housing and Living Facilities II Employment Occupational Facilities and Fringe Benefits

Form of introduction

"My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

SUMMARY: COMPLETE AFTER INTERVIEW Section 1, 2, 3, etc 10 1. Interview carried out Which sections were answered in whole or in part by which persons on the household? 5. HOUSING AND LIVING FACILITIES

Genera

Information recorded by the interviewer on the left of the main column is needed so that the circumstances of the household may be fully understood by those in the office but it may not be required for computer-analysis.

QUESTION 1 - Rooms

No room should be listed twice. Bedsitters should be listed as bedrooms and not also as living-rooms. Do not count a scullery or a hall or a bathroom as a room. The total number of living and dining and bedrooms should not include a kitchen if it is not large enough for a family to eat in. You will see that there are two numbered boxes in the column in which to write the numbers of bedrooms and total numbers of rooms. Each is for each digit in the total: Thus, if there are 9 or fewer rooms the number should be written in the right-hand box and "O" should be written in the left-hand box. If there are, say, 13 rooms, then "1" should be written in the left-hand and "3" in the right hand box. This will help us to avoid mistakes in transfering information to the computer.

QUESTION 2 — Additional or fewer rooms

Define "room" as above.

2 A W EXPLAINED SHE WOOLD LIKE
ANOTHER COOR - A SHALL ONE
REPLLY FOR STORAGE PURPOSES AS
CUPBEARDS ETC ARE SCARLE IN THIS
House.

QUESTION 4

A water closet flushed by water. Chemical or earth closets are not included, nor are flush water closets which can only be reached by going outdoors across a yard, even if under cover.

QUESTION 5

A garden is any space at the front or back of the house where it is possible to grow something. A yard is an outdoor space which is covered in concrete, asphalt, etc., where there are no plants or lawn other than in boxes or barrels (if any).

If you have already seen the garden it may be unnecessary to ask the second part of the question, for it may be possible to code 3, 4 or 5. But be sure that you are taking back as well as front garden into the reckoning. Add the two together in estimating size.

QUESTION 10 Personal use

HERE OZ EXPLAINED HE

Includes transport to and from work.

HAS HIS OWN CAR WHICH HE

Some tines uses for his enpuryed'S QUESTION 10a Normal repairs

CONVENIENCE. 9 HE GETS A

SEPARATE PETROL ALLCE FOR THIS

AVERAGED OUT OVER THE YEAR HE RECEIVED ABOUT II P. WEEK

HERE I ASKED ABOUT CHICKENS (IF HE COULD BUY THEN AT CONCESSION RATES BUT HE SAID HAS NOT AVAILED HINSELF OF CONCESSION FOR OVER 2 YEARS-THEY WERE SICK OF CHICKEN!)

Excludes repairs caused by negligence of informant or family. Make and type — e.g. Vauxhall Cresta, Saloon or Morris 15 cwt. van. The description should be enough for us to look up its second-hand value as a check on the value

QUESTION 10d Driver

This is a polite way of ascertaining whether the car is chauffeur-driven. Thus Code X includes self, family, friends and other employees driving for pleasure and not because they are paid to drive the respondent around.

QUESTION 11 Other benefits

Read the prompts slowly: they are carefully drafted to cover the perks of both senior and junior staff. The goods may vary from free or subsidised coal given to miners to discounts on goods bought or free vegetables, seeds or seedlings. Don't hesitate to pursue it further according to occupations of informants. Transport may be free leisure travel given to railway or bus employees or paid holidays given to senior executives. Note this section is supplementary to the use of a vehicle in Q. 10. Medical expenses may be premiums to insurance agencies for private medical care or the direct payment of doctors' bills. Education can range from free tennis lessons or typing lessons to payment of public school fees. Shares in the company can be given free or below market value.

ENCURAGE THE INFORMANT to add items under the various

ENCOURAGE THE INFORMANT to add items under the various headings together and give time for this to be done. We are interested to know what it would cost to buy these things privately even though the employee might not have chosen to do so (e.g. the employee might have used the Health Service if his employer did not pay for him to have private medical care).

"How much a year are these things worth altogether?"

The point here is that some kinds of entries will be money saved, say, on goods and services which the informant would have had to pay for, whereas other entries will involve things he would never have afforded or thought about. Our aim is to discover what equivalent in extra income would be needed if he did the same things but had to bear the full cost beingelf.

QUESTION 13 Satisfaction with job

The questions are laid out in a form which equally encourage positive or negative answers. You may shorten the question to "Are you satisfied or dissatisfied with—" providing the informant seems to be genuinely weighing the alternatives.

Facilities at work means facilities as asked under Q. 3 earlier.

FEEL THAT THE "TIED HOUSE

BUSINESS IS UNFAIR - WHEN AN ENPLOYER CAN JUST ORDER YOU 4 YOUR FAMILY OUT OF A JOB 9 A WITH ONE NONTH'S NOTICE BUT REALISE THIS CANNOT BE HELPED

This section asks questions in turn of the employed, the self-employed and then everyone, including those who are not employed. Our object is to obtain reliable estimates of income, before and after tax, for each income unit in the household, both for "last week" and "the last 12 months".

This is any person aged 15 or over, or if in full-time education any person aged 19 or over, together with wife or husband (if she or he has one) and children under 15 (or aged 18-18 if in full-time education), if any. According to this definition a man, wife, and children aged under 15 count as one income unit, but a middle-aged widow and a son who is a university student, or an elderly widow and a single daughter of 40, count as two income units. A household consisting of man and wife with three single children who are all over 15 years of age and who are at work counts as four income units.

Allocating Income

Usually amounts of income can be entered in the appropriate column, according to the person receiving it. Do not enter any income twice. Do not, for example, enter a particular amount both for the wife and the husband. Nor need you split up any amount part of which is payable for a dependent wife or child. Thus, do not attempt divide up the total of ramily allowances; enter the total in the wife's column. And enter an amount for sickness eneith, say, even if it includes sums for the wife and children, in the husband's column (if indeed it is he who receives it).

Gross and Net

In the first question you carefully ask for the last pay net of deductions and go on in the second question to establish what these deductions are. The answers to both questions effectively give gross and net earnings for the last period for which pay was received and you can build up further information in the questions that follow. You should be conscious of this distinction throughout the section. It will not always be possible to get information both for income after tax and income before tax. Remember that if you cannot get an answer for one you may be able to get it for the other. Make a note whenever you can. We can calculate in the office.

Last 12 months

02 EXPLANED HE JOES NOT GET PAID

OVERTINE - JUST FLAT RATE . HE ACTUALLY IS ON CALL JUHOURS A DAY FOR 7 DAYS A WEEK 9 IF HE CHOOSES TO LEAVE THE PRESISES 9

ANYTHING GOEG WRONG HE HAS TO TAKE THE BLANE: SOME WEEKS HE ONLY WEEKS HO HOURS - SOME WEEKS 90 HOURS - AND HIS PAY

NEVER VARIES - HE HAS AN ALARA BELL IN HIS HOUSE WHICH RINGS

OF EVERY 6 WE PERIOD HE HAS TO TURN OUT AT 1. BOAN TO LOAD UP CHICKENS ON THEN ANS 9 HE THEN WORKS 1. BOAN - 9 AN. THOSE DAYS.

Though you start by finding what was the last amount of pay received it is very important also to find what was the average pay during the previous 12 months and gradually build up the total income received by the income unit and the household in those months. You have already filled in a work-record and this will help you to answer several of the questions in the section.

QUESTION 1 Last earnings

Remember to check earnings for each member of the household, even those of a wife who had a job for only a few weeks in the year, a young son who works only on Saturdays, and a retired man with a part-time job. Second or subsidiary earnings are dealt with in Q. 14. Note that each digit is ruled off from the next. Insert "O" in any column which does not apply. Please note also that we have allowed wider columns on these income pages so that you have enough room to write in figures. But note that you will have to indicate which member of the household received any income if you are obliged to use a fifth or sixth column.

QUESTION 2 Deductions

Don't forget that a total is better than nothing. If the informant is uncertain say, "I believe it is on your pay slip" and encourage him or her to check. We have asked you to put a tick if in fact you are shown a slip or the informant reads off the amounts. As before, the small boxes on the left are for you to identify the member of the household: "Inf." "2nd" "3rd", etc.

WHEN HE IS REQUIRED 9 FOR 10 DAYS

As decrete, the shall bokes on the left are for you to identify the member of the household: "Int." "2nd" "3rd", etc.

National Insurance contributions

A male employee ordinarily pays 15s. 8d. and a female employee 13s. 2d. per week, although note that a married women can elect to pay only 7d. per week to cover industrial injuries benefits. Boys under 18 pay 10s. 1d. and girls 8s. 5d. per week. Persons over 18 who are contracted out of the graduated pension scheme pay a higher flat rate insurance contribution of 18s. 1d. (men), 14s. 8d. (women).

Graduated pension contributions

The employee contributes 4½ per cent of each pound of gross weekly earnings between the ninth and the eighteenth, i.e. approximately 11½d. for each of these pounds, plus ½ per cent for each pound between the 19th and the 30th, ie. rather more than 1d. for each of these pounds. In fact a man with gross weekly earnings of £9 pays nothing, one with £13 pays 4s. 0d., one with £12 pays 4s. 0d., and one with £30, 9s. 9d. About one person in every five, however, is contracted out of the graduated pension scheme, but such persons nonetheless pay ½ per cent on each pound of gross earnings between the ninth and the 30th, or a maximum of 2s. 1d.

QUESTION 3 Highest and lowest

Check the number of weeks worked by turning up the work record. Some people's earnings will have varied only in one or two weeks of the year and it will not be difficult for you to establish an average in (b). Remember Q. 3(b) is very important. Other people's earnings may have varied widely, either because of changes of job or variations in overtime. Do not include variations due to holidays or sickness. If it is difficult to arrive at an average write in the box or in the margins, e.g. 10 weeks @ £18 15 10s., six weeks @ £18 15s. and 23 weeks @ £24 11s. We will work out the rest. Do not include weeks of holiday or sickness, which are explored later.

QUESTION 4 Bonuses

If a commission or bonus has been included in Q. 3 do not now amend the answer to that question. If the information is given for the first time write the amount in the box and also strike out " θ Fefore" or "After" Tax as appropriate

V SAVINGS AND ASSETS

QUESTION 1 Personal

This excludes a business bank account which is covered by $Q.\ 4$. Avoid double-counting the same bank balance or assets when questioning husband

QUESTION 2 Savings

019 02 HAVE 1220 IN D. R. BANK OF SCOTLAND AT 52% BETWEEN THEM.

NO STHER SAVINGS- NOR CHLOREN EITHER. Note that you should proceed by prompting all items to see how many are appropriate, then try to establish a total and then establish totals for each item only as a check or if necessary. Care should be taken to avoid double-counting. If the informant is hesitant or confused repeat the question to make sure he or she knows what kind of savings you are referring to and THEN show Flashcard No. 4 to get the total. Then try to obtain an absolute total rather than a range. For example, you could ask: "Would you say the figure was at the top end or the lower end of that range—nearer X or nearer Y?"

QUESTION 2(c) Interest

Try to establish the amounts the informant receives in the form he receives it—that is, before tax is deducted or after it has been deducted at source. In difficult instances you need not waste time converting a "before tax" total into "after tax" so long as you make plain what it is. We will do that work in the office.

QUESTION 3 Value of stocks and shares

This question of the value of stocks and shares is crucial and every encouragement should be used to obtain an answer. Some informants simply will not know. Remember that brokers sometimes send an annual valuation. If there is considerable uncertainty, tactfully suggest or imply that it would be very helpful to know and take any opportunity to see the valuation or to leave a note (and s.a.e.) so that a more reliable estimate can be made and either you can pick it up at a second call or ask for it to be sent on. to be sent on.

QUESTION 3(b) Interest

Proceed as in Q. 2c above. Mostly amounts will be received after tax has been deducted.

QUESTION 4

This is to cover any type of business which is owned in part or in whole by the informant. Being a director does not necessarily mean ownership. The answer to this question should not duplicate the answer to the previous question. Shares come under Q. 3. This is to cover such things as shops, professional practices and small businesses of every kind except limited companies. In all cases make sure that money in the businesss, bank account and stocks are borne in mind when the valuation is made. When the business (e.g. shop or farm) is run from the owner occupier's dwelling, the value of the dwelling will often have been included in the answer to this question (i.e. Q. 25 in Section V). UNDER NO CIRCUMSTANCES MUST THE DWELLING BE COUNTED TWICE. The valuation should be on the assumption that the informant had to sell but was in no great hurry. A year or even more could be taken to find a purchaser. The valuation should NOT be made on the basis of: "What would you take for your business?"—that is, when the informant has to be persuaded to sell. NOTE that vehicles should be included in the valuation of a business—say of a haulage contractor, a cab owner or even a building contractor or window cleaner.

QUESTION 5 Other property

Remember that some people use two houses. Others have houses which they rent off to others. This last is not uncommon among elderly people who may be very poor themselves. A "boat" may include anything from a luxury yacht to a small rowing boat.

QUESTION 6a Cars, Vans

Note that in Section II you will have noted any car owned by the business or firm and whether it is also used privately. Do not count this car here also but find out whether there is a second car—e.g. wife's. If informant unable to value a vehicle note instead its make, type and year of manufacture to enable us to look up its value.

QUESTION 6c Debts on vehicles

Note that the question does not apply only to payments which are overdue but to the total sum still owing. You will usually have difficulty in excluding interest from the amount owed. If the amount owed is estimated at less than £50 record the sum and do not take up time making sure that the interest is deducted. But if the amount owed including the interest element is £50 or more ask for the details listed under (c). We will then make an estimate in the office.

HILLAN INP - 02 RECKOUS IT WOULD PROBABLY WORTH 1370

QUESTION 7 Life Insurance

If there is more than one policy add up the payments and, if necessary, note any difference in frequency or years of payment. Note that our main object is to establish the equivalent current value in cash of policies they hold. The majority of households will hold policies of little current value and you will see that if they pay less than 10s. a week we do not ask for any detail.

QUESTION 8 Value of saleable assets

Please note that we do not envisage that goods in everyday use — beds, blankets, basic furniture, crockery, clothes — need to be valued. We are interested only in items of value that could be sold without serious detriment to the household and its daily life if some ready cash was badly needed. Jewellery, furs, stamp collections, works of art, antiques, and collections of books, might be sold and we need to obtain an approximate estimate of their total current worth. Naturally enough we cannot expect precise valuations and you will find the minimum value of £25 for an article (or a group of articles — e.g. a number of pieces of jewellery) helpful in avoiding protracted discussion of the value of articles used every day in the home. day in the home.

QUESTION 9 Other assets

Rarely will there be any kind of asset not covered by our other questions. But by asking this general question you may be given information that belongs in the answer to another question. The informant may have misunderstood a question. But be careful not to include an item here which is already covered elsewhere.

QUESTIONS 10 & 11 General assets sold and windfalls

It may be difficult for you to secure an estimate of money raised or spent on "ordinary living expenses" but you will find that our object is fairly clear and once you understand it you can probe for an estimate. We do not want information about sums of money invested in new assets, in replacing old assets (e.g. property, including houses and cars) and in savings, but only information about sums of money spent in the ordinary way on housekeeping, food, clothing, and entertainment. An estimate is better than nothing. Note that we are not asking you to waste time checking small amounts of less than £25.

QUESTION 10 Assets sold in last 12 months

Some people, especially the elderly, will have sold some of their assets in the last 12 months to bolster a low income. This can be an important contribution to their standard of living. Savings—Note that each item should be prompted carefully, especially to persons who have already told you they have sizeable amounts in savings, stocks and shares, etc. Note that we are not interested in this question in total sums which amount to less than £25 in the 12 months. Nor are we interested in amounts that may have been saved from income and spent in the same year (e.g. savings for Christmas or a holiday).

Partial use of sales or savings for living expenses—In some cases property might have been sold, say, and part of the money spent but part of it saved. Try to get a total estimate only of the sum spent on ordinary

VII SOCIAL SERVICES

LINES TOO FAR OUT IN COUNTRY TO BE ABLE TO

VISIT A CLINIC .

General

It is assumed that the housewife will normally be the informant. It is also assumed that she will generally be the "parent" to whom many of the questions are addressed. If in fact there is another mother in the household with a child then you may accept answers by a proxy (i.e. the housewife). You should also use your discretion about the housewife's ability to answer questions about the visits to hospital, doctor or dentist by each member of the household. If she plainly does not know or is uncertain you should check the appropriate questions when you come to ask earners in the household Sections II, III & IV. If this still does not involve the right members of the household you must check directly with them. Remember to code carefully since the questions vary as to whom they apply. We have repeated instructions at the head of each question to help you.

QUESTION 1 Welfare milk

Tokens are obtained from the Ministry of Social Security and handed to the milkman. All families with children under 5 can obtain a pint of milk for each child for each day for 6d. per pint cheaper than retail prices. Free milk tokens have to be claimed separately, and few parents claim them (other than those getting supplementary benefits).

QUESTION 2

Child welfare clinics are provided by local authority health departments. A visit to an ordinary hospital out-patient department does not count. Cod liver oil and orange juice are the main goods which may be purchased below normal shop prices. "Ever visited" means for the informant herself to obtain advice concerning herself or her child or to obtain goods. Accompanying another mother does not count.

QUESTION 3 Baby in hospital

It is possible there may be two mothers in the household. On the National Health means free in a National Health Service hospital contracted to the N.H.S.

QUESTION 4 Type of school

Write in the name of each school on the left. The parent will usually know the type of school but if he or she does not or is doubtful the interviewer may know. If in doubt please verify from the Education Department or a teacher who knows about the local schools. If the child is aged 16 or over and is at an institute, college or school (of commerce, for example), list under O.12.

Type of	Maintained day nursery, nursery school or cl	ass			1		
	Private nursery school or nursery class				2		
School	State primary school				:		
	Private primary/preparatory school				4		
	Secondary modern/elementary/non-grammar denominational						
	Comprehensive				(
	Technical school, Central, Intermediate				7		
					8		
	Private or "public" school (secondary)				6		
	Other (SPECIFY)				0		

Whether built pre- or post-1940
Again, the parent may not know or may be unsure. Check if necessary.

QUESTION 5 School meals

Normally means when neither sick nor in the holidays. Did the child last week have school meals if attending school? If not attending school, when last attending school. Free school meals are provided to poorer children on a means test basis.

QUESTION 5(c) No facilities

There really are schools which do not offer school meals either because they lack dining space or there are too many children for the space available or for other reasons.

QUESTION 7 Days absent from school

Absences due to visiting an out-patient department or a dentist should not be counted.

QUESTION 8 Boarding school

If the child boards at a school which is primarily a day school code the answer 'yes

QUESTION 9

Uniform grants are available to poorer children in State schools on a means test basis. The grant can be in kind: a parent may be given a voucher or a letter to take to a special shop. NOTE that the question is addressed ONLY TO ONE OF THE PARENTS OF THE CHILD OR CHILDREN. Very uncommonly there will be two sets of parents and children in the household. ONE parent of the second family should also be asked the question. ONLY complete the column alongside Qs. 10a and 10b for the parent in question. If the parent says the grant was made by the Supplementary Benefits Commission check whether you have already included the amount in Q. 15 (code 14) of the Income Section. If not, include the amount here. Remember to code parent only.

QUESTION 10 Costs of going to school

We are interested not only in fees paid to private or "public" schools but in some kinds of cost met by parents of children in State schools. Fees include payments for music lessons. School outings — We are interested only in payments for outings or school holidays organised by the school or a school club which the child went on.

Il FOR WOOLS MATERIAL FOR SEWING CLASSES .

QUESTION 11

Educational maintenance allowances are provided by local authorities for poorer children attending school between the ages of 15 and 18 on a means test basis. We ask parents of 14-year-olds whether they have heard about them to find whether this is taken into account in the decision to leave school. We are also interested in applications which were refused or which were made and the child did not in the end continue at school after the minimum leaving age.

QUESTION 12 Type of college

Teacher training college			1
College of Education			2
Technical college			3
University			4
College or School of Comi	merce		5
			6
Domestic Science college			7
Evening Institute			8 9
Secretarial college			0
Other: SPECIFY			U

As with "school" the informant may not know the type and the interviewer may be able to code on the basis of the name supplied. Or he should check on the basis of that name. Part time DAY study means attendance during normal working hours when the student or pupil works for a salary or wage, however small, or, if he has no job, attendance during the morning or afternoon. or afternoon

QUESTION 12 (d) & 12 (g) Fees and cash from others

Code source of help but if the amount has been included in the Income section earlier (i.e. $Q.\ 20$ of that section) make a note, drawing our attention to the fact.

QUESTION 4 Emergency help

Since this is rather a general question specific acts may be forgotten. Probe as seems appropriate in the light of previous answers. Most people have occasional help from family or friends in the neighbourhood.

4 4. OI EXPLAINED THAT SHE HAD TO

DEPEND ON HER HUSBAND FOR HELP

RECENTLY AS SHE HAS NO RELATIVES OR

FRIENDS LIVING OUT HERE TO CONE TO THEIR

AID. HER HUSBAND NANAGED TO COPE,

BUT AS HE HAD TO BE OUT AT WORK AT

THEY HAD TO PHY A WORK NATE OF HER

1- 30 an FOR PART OF HER TIME OF ILLNESS QUESTION 5 Gifts regularly made

This is the counterpart of Q. 2, dealing with gifts or commodities rather than services. Again repeat the question in reference to relatives seen often. Note that a meal that is given is distinct from the service of seen often. Note that a meal that is given is distinct from the service of preparing a meal (prompted in Q. 2). Obtain the best total estimate that you can of the worth of these gifts, however rough.

QUESTION 6 Occasional gifts made

We do not wish to waste time on occasional gifts of a value of less than

QUESTION 7 Gifts (regularly) received

This is the counterpart of Q. 3. Refer to relatives seen frequently and repeat the question. Note that meals consumed should also be coded in this question. The service (of preparing them) was included under Q. 3. Probe according to the answers made previously.

QUESTION 8 Occasional gifts received

Do not waste time inquiring about gifts of a value of less than £25.

IX STYLE OF LIVING

This section aims to find out some ways in which people spend their time, how they manage on their incomes, what kinds of things they buy and do, and how they feel about their situation. Most of the questions are pre-coded (but interviewers are urged to write any interesting comments on the blank spaces in the questionnaire or on the back). It is hoped that the answers will put some flesh on the income skeleton you have pains-takingly built up in the rest of the questionnaire.

QUESTION 1 Holidays

Note that this question immediately follows Questions 9 and 10 of Section VIII. Question 9 of Section VIII refers only to staying in the homes of relatives and friends or being subsidised by them on a joint holiday. Question 1 in this section applies to all "holidays" (as understood by the informant) which are away from home, excluding only those which were spent actually in the homes of relatives or friends. If there was more than one holiday add together their duration and code accordingly in Question 1 (a) 1 (a)

QUESTION 2 Meals out

Care should be taken because people may forget meals which were incidental to the visit. By "snack" you should understand something more than a biscuit and cup of tea, say at least a sandwich. Note that in this question and in later questions there are certain persons whom it is not expected you should code. Thus children under the age of 15 should be coded DNA.

QUESTION 3 Friends to meals

Note that it is possible to code both "Yes, relative" and "Yes, friend".

QUESTION 4 Friends in to play

There are few simple questions which can be asked about the child's that only cecently been discharged with standard of living and social life. Some homes are too poor for the child to bring his friends in, so stress in the house.

QUESTION 5 Afternoons and evenings out

The key point is entertainment for which someone spends money (youth clubs require entrance and weekly fees; scouts, guides, etc., require uniform and 'bus fares for outings). Examples of leisure-time activities will vary according to the age of the person to whom the question is addressed and you should probe accordingly. (Note that while we do not ask for amounts of expenditure we try to find the relative frequency of all forms of entertainments so that we can see how it varies with income.)

02 EXPLAINED THAT NORMALY THEY

DO GODUBOCCASIONALLY BUT WIFE HOSPITAL , AND AS SOON AS SHE CAME HOME SHE HAD AN ATTACK OF ENTERITIS, SO ALL STACE TIME HAS HAD TO BE SPENT LOCKING AFTER 9 CHILDRON

CAILDREN ALWAYS HAVE TO BE TAKEN OUT BY THE FAMILY CAR TOO TO REACH ANY ENTERTAINMENTS IN THIS AREA.

QUESTION 6 Church

Accept any religious sect or denomination which may be mentioned.

QUESTION 7 Food

Actual nutritional levels cannot be established by an interview of this kind, but it is hoped that these questions will show very roughly (i) whether a family member goes short of food occasionally, (ii) whether the family is able to buy relatively expensive foods frequently, (iii) whether any member of the family goes short of food occasionally, and (iv) to what extent patterns of food consumption vary with income.

Many women do not eat breakfast. Bacon and eggs is only an example. Others would be boiled or fried egg, haddock, kipper, etc. But not porridge, toast, fried bread or potatoes (the distinction is between carbohydrates and

(b) No cooked meal Stress the whole day. A heavy breakfast but nothing later, or a heavy meal at supper-time will not count as going without a cooked meal during the day.

(c) Fresh meat
This will be difficult for households where children have school dinners, or members of the household eat canteen meals. It would be reasonable to code such persons "Yes" in the absence of any better information. It is highly possible that some housewives may have very little fresh meat (defined to include chicken, chops, frozen meat of any kind but not corned beef, tinner meat, boiled ham or sausages). Care is needed as meateating is probably over-stated, and when there is meat the men in the household and not the women may have it.

QUESTION 8 (a) Joint

Accept what the informant understands by a joint.

QUESTION 8 (b) and (c) Milk

Do not include school milk (a correction for this will be made in the office). Check for extra milk at weekends. Include sterilised milk ("stera") as fresh. Some houses buy milk in powder or liquid in tins for babies too, but do not attempt to assess the quantities of this. Just make a note that it

QUESTION 9 (b) Clothing

Clothing cheques are "Provident" cheques and the like where a cheque for £1, for example, entitles a person to shop at certain shops and repayment is made at 1s, in the £1 for 21 weeks. Clubs include any kind of arrangement through a catalogue, shop, or door-to-door salesman.

QUESTION 9 (c) and (d) Spending on clothing clubs

Some clubs include coal and furniture as well as clothes; try to get an estimate of the proportion of money spent on clothes. Informants often give a maximum figure, when in fact they miss or only pay something on account.

QUESTION 11 Adequate footwear

WIFE DOES NOT NORNALLY DO

FOOTBALL POOLS - THE OCCASION

WHEN SHE WON HAPPENED TO BE LIKE THIS - ONE OF THE AT TEN WHO NORMALLY FILLS IN POOLS AT WORK

THE WEEK BEFORE . 9 SHE FILLED IN

DONE THE POOLS

Includes state of repair as well as fit. Plimsolls and sandals in winter are not adequate, nor are boots alone adequate for summer. Plastic sandals are coded not adequate, unless there are other shoes.

HAPPENED TO HAVE LEFT HIS EAPLOYAL QUESTION 12 Smoking, pools and betting

THE NEER BEFORE, 9 SHE FILLED IN Smoking is often underestimated in surveys. By asking quantities we hope to be able to work out roughly the expenditure. Note if cigars and not cigarettes. Take care to make betting seem a very common activity (which it is, of course), since information may not readily be forthcoming in the context of all these questions on shortages.

QUESTION 13 Christmas

Make sure that the sum you have is the extra expense on top of normal housekeeping for the household unit.

QUESTION 19 Housekeeping and board

The question refers to ALL INCOME RECIPIENTS including pensioners, as well as earners, who contribute to the housekeeping expenses. Be careful that you probe for everyone in the house, including adolescent earners. Sometimes the actual sum available for housekeeping will be quite different from that suggested by the total income of the household. The husband or teenagers may retain quite large sums not only for their own use but because the pattern of responsibility in one household for expenditure may be different from that in another household which has the same composition. Housekeeping can be a touchy point if both husband and wife are present, and it is perhaps best dealt with by interviewing one of them on their own (the housewife preferably) and, if possible, checking later with the other (the husband). If both husband and wife are present avoid expressing any surprise or criticism if you think the housekeeping is small. Also avoid indicating any opinion on the question of whether wage-earners should pay bills. Try to imply that all arrangements are equally possible. We have listed the common ones, but there will be others. REMEMBER TO CODE EACH INCOME RECIPIENT.

QUESTION 19 (b) Money back

GETS ALL THE WAGES 4

DINNERS

SCHOOL CLOTHES ETC.

PAYS ALL FOOD COAL LIGHT, CLOTHES

EVERYTHINO- CHILD'S

TRIES TO KEEP TO BOY

This can be daily fares, insurances or clubs paid, dinner money, or simply "spending money". Some teenagers hand over their wages but get clothing bought. Usually this question will apply to teenagers, but some husbands may get money from the housekeeping for their cigarettes and beer mid-week.

QUESTION 19 (c) Payment of housekeeping bills

Often the husband will pay some larger bills, but alternatively he may pay housekeeping but expect to "help out" if a heavy bill comes in. We realise that an estimate may be rough but try to get an average contribution. Teenage children may buy food as "treats" for the household from the money they retain. Again try for an average.

QUESTION 20 Long-term saving

We are not interested in asking here whether the informant has savings (that was asked in Section V). Nor are we interested here in asking for short-term saving. Instead the question explores whether at the present time the informant manages to put aside savings for a long-term objective.

QUESTION 21 Ten years ago

To give us some idea of fluctuating fortunes we ask what things were like ten years ago. Some persons aged 35 or over will have been at home in their parents' households ten years ago and therefore we have to find what was the composition of the household. In any case, we require an estimate of the total money flowing into the household, and the number of adults and children that were supported at that time. Give the informant time to recollect. And check that income includes pensions, family allowances, etc. Fortunately, the informant will already have some idea of what you are after from the detailed questions asked earlier.

2nd 4th 5th 6th ASK CHIEF WAGE EARNER/H.O.H.
23.** Do you think you could CENUINELY say you are poor now? — X Does CODE C.W.E./H.O.H.
