Form of introduction

" My name is X. I'm from Essex/London University. We're preparing a report (writing a book) about standards of living in Britain today and how families manage. We think it's important for the Government and everyone else to know what the facts really are. We're hoping to talk to about 3,000 families throughout the country and I'd be very grateful if you could help us by answering some questions. All our information is, of course, strictly confidential."

FB

SECTION II EMPLOYMENT

General

This section and the next (Occupational Facilities) should normally be asked of each adult earner in the household. If you happen to be interviewing the housewife during the day you should ask these questions as they apply to herself (and also to any children and adult dependants — e.g. elderly widowed mother) and then a separate (shorter) interview with the husband (and any other adult earner who is not available at the time of the first interview) to ask him for answers to this section, to the section on occupational facilities, to the questions on earnings in Section IV and any other questions which cannot be answered by the housewife.

QUESTION 1 Attended paid employment

All persons working for gain. If a housewife, retired person or even a schoolchild works a few hours for pay each week, he or she should be included. Also count man who is not at his main occupation (and even who may be thought of as unemployable) but who has pay from a minor job. We will be able to check in analysis. Our purpose is not to miss casual earnings and supplementary sources of income.

QUESTION 2 Two jobs

If a person does some kind of job for a different employer or on own behalf in his "spare" time this counts as a second job. Even if it is the same kind of job but is separately paid for (e.g. decorator working in spare time for himself) it should be counted as second job.

QUESTION 3 House or flat

Includes house combined with business premises or farm; but the question has been introduced primarily to cater for women home-workers on piece rates. Note that it refers to any second as well as the principal job.

QUESTION 4 Starting and finishing work times

The question applies to last week. Ignore variations in working hours from week to week. If working times were the same on at least three days of the week regard them as "usual". If there were two shifts (e.g. morning and evening), list according to starting time of the first and finishing time of the second, and note fact on left.

QUESTION 5 Aid in calculating hours of work

The table below assumes a 5-day week and 1 hour for lunch. Note that each digit should be put in each separate part of the box (i.e. one digit under No. 29 and the other under No. 30).

Starting time	Finishing time			
	4.30 p.m.	5.00 p.m.	5.30 p.m.	6.00 p.m.
7.00 a.m.	42½	45	47½	50
7.30 a.m.	40	42½	45	47½
8.00 a.m.	37½	40	42½	45
8.30 a.m.	35	37½	40	42½
9.00 a.m.	32½	35	37½	40
9.30 a.m.	30	32½	35	37½
10.00 a.m.	27½	30	32½	35

QUESTION 6 NOT AT WORK

Note that this question must also be answered for persons working last week for less than 30 hours. **Unemployed:** as distinct from "off sick" or temporarily off work (e.g. on holiday). The replies will be, for example: "I lost my job"; "I'm out of a job"; "There was redundancy at the firm so I'm out of work for the moment". Sometimes a person may say he is both unemployed AND sick or disabled, or it may for other reasons be difficult to specify just one code. Accept the best answer given by the informant even if you observe that someone who says he is unemployed is obviously sick or disabled (and vice-versa). Later questions are designed to establish whether or not he is seeking work and whether or not he is chronically sick or disabled.

Unpaid holiday

Part of our purpose in asking if holidays are unpaid is to ensure that 5 is not coded rather than the underlying reasons coded as 7, 8 or 9. Distinguishing between paid and unpaid holidays introduces complications but may be worthwhile (a) for the opportunity afforded to probe the reasons an unpaid holiday is being taken and (b) later when calculating weeks not at work in previous year.

2nd. at present on Government training Scheme learning for Assembly work for possible employment with Standard Telephone's Course lasts 6 weeks 3 wks completed
Makes 3 7/2 hrs per wk. Paid
7 1/2 x 10 = 0 dols
1 - 5 = 0 dols
15 = 0 dols
7 1/2 x 10 = 0 dols
total

*2nd + 3rd.
On holiday this wk.*

QUESTION 7(b) Last Occupation

Write in the occupation on the left of the columns. Identify the person to whom the information applies in the little box (i.e. Inf or 2nd or 3rd etc.) This will both allow you to enter information for a second or third person if that proves to be applicable and for the office to code in the right column(s) on the basis of your information.

QUESTION 7(c) Looking for work

You will find yourself asking retired persons as well as unemployed and other persons this question. Sometimes it will be entirely applicable because persons who have been retired by their employers or have automatically ceased employment upon reaching a pensionable age of, say, 60, may in fact be seeking alternative work. It may even be applicable for some persons in their seventies and eighties. But sometimes it will plainly be inapplicable to frail persons of extreme age, especially women. In this case code "NO" and skip to Q. 8. When in doubt, however, you should ask the question.

QUESTION 9

Exclude Bank Holidays in counting up holiday entitlement. List number of weeks to nearest week. Do not insert " $\frac{1}{2}$ ".

QUESTION 10 Occupation

See instructions above for Q. 7(b). Start by recording member of household in left-hand box (informant, 2nd, 3rd, etc.) and then carefully note occupation and industry or business. The office will code in the right-hand columns on the basis of your information. Avoid all vague terms, e.g. "engineer". If you find the answer too general or difficult to understand always ask "What do you do?" and write in the answer. In many households there will be only one or two persons who have been at work in the past twelve months. If necessary you can use all the space in the box just for one or two persons, providing it is clear to which person(s) the information applies.

QUESTION 11 Change of Job

Note that sub-questions (a) - (d) apply only to persons changing their jobs less than five years previously.

11(c). IRU, etc., means Industrial Rehabilitation Unit or any other Government training centre.

*2nd -
form. Stamp Centre
3 weeks done
3 to go.*

QUESTION 12 Training Course

Our object is to check on men taking a re-training or training course, whether or not they changed their job. Some men may have taken a course and gone back to their former job or employers. Others may be unemployed and yet have taken such a course.

QUESTION 13 Fall in Earnings

You may be asked what you mean by "big" fall. Accept whatever the informant thinks is big. Put the information in the box, including the approximate earnings previously as well as the subsequent earnings and code the extent of the fall in the right-hand columns.

QUESTION 14 Best job

If you are asked "What do you mean by 'best'?" you should say "It is up to you to decide" (adding, but only if necessary, "whether it's best because of the money, the people, the job in itself or anything else"). of course there will be people who give a mixture of reasons. Code the one they treat as most important. If they are undecided code DK.

QUESTION 15

A few persons — e.g. students — may have worked for part of the last year, or may work every Saturday and still be in full-time education. We will be asking about them later. Code them as still in full-time education.

QUESTION 15(a) Years of full-time education

The question is worded so that if someone has missed a year's schooling because of illness, say, between the ages of 5 and 14, he can adjust his answer accordingly. You can check (or aid other informants trying to reach an answer) by deducting five years from the leaving age and then asking if the result allows for any absence because of hospitalisation, war evacuation, military service, or any other reason. Note that full-time education can be provided in hospital. Only deduct a year if ALL of it was spent out of school. When writing in leaving age and number of years education remember again to insert each digit.

3rd
Missed approx
2 yrs. in hosp.
for H.B. during
at age 8 to
10 yrs old
→ 2

QUESTION 16 Manual Workers

If you are in doubt from what you have been told about a man's job whether it is manual ask, "How do you do your work? Is it mostly heavy work, or operating a machine or mostly with your hands?" If he indicates any of these ask Q. 16. If still in doubt ask the question and write a note.

QUESTION 17(a) Husband's occupation

Follow same procedure as above under Question 10. It will be even more necessary to probe for the exact type of job. Encourage the woman to tell you what her husband did, since the answer is most important for us in classifying occupational status.

QUESTION 14 Second job

This will have been established in the earlier section on Employment. Repeat the question because earnings from subsidiary occupations tend to be forgotten. For example, painters and decorators may have done one remunerative weekend job for a few weeks several months earlier in the year. A gardener may have done some intensive paid work for various local people in the evenings and weekends of the summer months. Or a university lecturer may have had a remunerative consultancy or a series of well-paid broadcasts at some point in the year. Remember that extra earnings from a source other than usual employment may not be thought of as a second job. You should probe for all kinds of additional earnings, depending on the nature of the usual employment.

QUESTION 15

This is laid out as concisely as possible on one page and you are asked to ring 01, 02, 03, etc., as appropriate and then to enter the rates per week and amounts below, carefully writing in the code "01" (i.e. Family Allowances) "02" (i.e. Retirement Pension) and so on so that we are clearly aware of the allowances to which the amounts refer.

Amounts will sometimes be joint—e.g. retirement pension for man and wife—or will be for several members of the household—e.g. sickness benefit for man and wife and children. In these instances the amount should be entered (if necessary, after the interview) in one column only, under that member of household receiving the payment. Wherever possible encourage informants (especially when elderly) to show you the allowance or pension book.

CODE 01 Family Allowances

	First child	Second	Third	Fourth & subsequent
up to April 1968	nil	8s.	10s.	15s.
after April 1968	nil	13s.	17s.	17s.

counting children under 15 or up to 19 if still in full-time education or college or an apprentice on low wages.

CODE 02 Retirement Pension

Note that the actual amounts vary widely. Increased pensions are paid if retirement is deferred. There are now in addition small graduated state pensions (averaging about 3s.) and pensions may be reduced because of earnings or a deficient contribution record. Note that some of these points also apply to other benefits. Pensions and supplementary benefits can be combined in a single payment. You will be prompting for supplementary benefit and wherever possible we should like you to list the amount separately (as well as the fact that it is being received). But whenever the rate given to you exceeds the standard rate below you should check the reason.

Single person (husband)	£4 10s. 0d.
Wife's income	£2 16s. 0d.
1st dependent child	£1 5s. 0d.
2nd dependent child	17s. 0d.

CODE 03 Standard Widow's Pension

Note: not the widow's allowance which is paid for the first 26 weeks after widowhood.

Widow or widowed mother	£4 10s. 0d.
1st dependent child	£2 2s. 6d.
2nd child	£1 14s. 6d.
3rd and subsequent child	£1 12s. 6d.

Depending on the circumstances of the death of the husband (armed service and so on) widows' pensions may differ in size. Note that family allowances are received in addition to dependent children's allowances.

Widow's Allowance: Widow £6 7s., children as for widow's pension

CODE 04 and 05 Sickness Benefit and Unemployment Benefit

Sickness benefit is often paid for periods other than a week. Find what was the last payment and for how many days (excluding Sundays). A payment for 6 days, excluding Sunday, makes up a "week's" benefit. Note that an earnings-related supplement may be paid in addition to the flat rate benefits listed below. Moreover, these benefit rates depend on the contribution record.

Single person	£4 10s. 0d.
Married woman	£2 16s. 0d.
1st dependent child	£1 5s. 0d.
Each subsequent child	17s. 0d.

CODE 06 Supplementary Benefit

The former "national assistance". Rent is sometimes paid direct to the landlord by the Supplementary Benefits Commission. There is a check later that the amount is known and counted as income.

CODE 07 Industrial Injury Benefit

£6 7s. 0d. (with additions for dependants) is payable for the first 26 weeks after injury after which the injured person goes before a Board to have his injury assessed for an individual disablement pension.

CODES 08 and 09 Industrial and Disablement Pensions

The 100 per cent rate is £7 12s. 0d. (with additions for dependants). **CODE 09:** Note that these are war pensions, not service pensions included under occupational pensions later in Q. 19.

CODE 10 Maternity Allowance

The standard rate of maternity allowance is £4 a week. It is paid to women who have been paying full national insurance contributions. It begins 11 weeks before the expected confinement and ends after the sixth week following it.

CODE 11 Maternity Grant

This grant is £22 either for home or hospital confinement.

CODE 14 Single Grant

This is officially described as an exceptional needs grant. The Ministry of Social Security has replaced the former National Assistance Board and you may need to explain "a grant from the Assistance". Probe carefully for this for all income units who are not employed, whether or not they receive supplementary benefit. A large number of people obtain single grants, e.g. for spectacles or dentures, even though they are not normally eligible to receive supplementary benefit. Note also that since you are asking about a period of 12 months there will be instances of people now in work who obtained a grant at an earlier point in the year.

2nd
£4.10.0 usual rate
for 3 wks on
has need of house etc.
Extra £4.10.0
1.5.0
Widow Allowance 15.0
Total £6.10.0
£4 was Subsidy
Benefit

*Rented from
N.9. Housing Trust*

QUESTION 25(a) Private and business accommodation

Count as "business" accommodation any accommodation which counts for purposes of offsetting tax. This may include a study room for some teachers, for example.

QUESTION 25(e) Rate rebate or reduction

Note that many councils pay rebates twice a year.

QUESTION 25(h) Mortgage

The informant may know the total sum paid in the previous year but not the division of the sum between interest and repayments of principal. Yet it is essential for us to find how much of the payment represents capital repayments and how much interest payments, because otherwise we cannot work out housing costs which are comparable with costs incurred by households paying rent. In many instances a monthly or annual payment slip will show the two amounts and the informant should be encouraged to look this up. Note that if the informant still **cannot** give you the answer we have provided certain questions on the right-hand side of the page which will allow us to make a reliable estimate. You should note certain details in the

- (a) source of loan or mortgage;
- (b) term of repayment;
- (c) number of years paid;
- (d) amount of loan.

Please make special note if the repayment of a mortgage is covered by an endowment policy and note the amount and frequency of the premium. As elsewhere put a tick in the small box or make a note if you are fortunate enough to be shown documents.

QUESTION 25(i) Value of house/flat

Ask for an estimate and only show Flashcard No. 3 if the informant hesitates in giving an answer and you judge that it would be appropriate. Always insert the code number as given on the Flashcard, even if you also obtain an exact estimate.

QUESTION 25(l) Government's Mortgage Scheme

Note that, broadly, this is advantageous only to a householder with relatively low income who does not expect to pay tax at the standard rate in the foreseeable future.

QUESTION 27(a)

Our object is to try to find what rent might be paid in normal circumstances in that area for such accommodation. We have asked you to make an estimate in the light of your knowledge of the area if the informant cannot make such an estimate.

*Rent for
12.9 Housing Unit*

QUESTION 28(a) Years on list

Sometimes the tenant will have taken on a tenancy from a member of the family who has died or moved away. Code "inherited tenancy" in all instances except that of a woman who has become the tenant through the death or absence of her husband.

QUESTION 28(d) Reason for obtaining council accommodation

Interpret "inheriting tenancy" as above. Although more than one reason may be advanced code what the informant considers to be the chief one.

QUESTION 28(e) Rent reduction or rebate

Broadly three types of scheme have been introduced. Some councils operate an automatic differential rents scheme and some informants may have their rents reduced initially upon the introduction of the scheme. But in this sort of scheme most people will not know whether or not their rents are "reduced". The second scheme is one where the tenant has to apply for a reduction of rent he expects to pay in the future, upon test of means. The third scheme is one where the tenant applies for a rebate of rent paid in the past, on test of means. We are primarily concerned with the second and third schemes here.

QUESTION 4 Special schools & centres

This question is asked only of persons who have been ill and off work or confined to bed or the house for eight weeks or more continuously, and those who are coded for any item in Question 3.

QUESTION 5 Date of onset of sickness or disabling condition

Our object is to establish the year of onset but the question is worded 'first have any condition' so as to allow for the fact that some conditions develop out of others. For persons with a disabling condition you ask, in effect, when all the trouble started.

Previous occupation

In the section on Employment you have already asked for the last occupation of everyone not now at work (p. 7). Some people change their occupation because of a disabling condition before finally being obliged to give up work. You should probe for the (previous) occupation which people had before any history of illness or disability started.

QUESTION 6 Mobility

You should code people according to their usual mobility, taking no account of a temporary illness or injury. "Usual mobility" may be interpreted as "for at least eight weeks and unlikely to become more mobile in the immediate future" or "for less than eight weeks but unlikely to become more mobile within at least that total period." Someone who spends most of the time in bed and needs help to get out to sit in a chair is defined as bedfast. Someone who can get out of his bed into a chair or wheelchair and who can walk indoors but not even a few yards outdoors without help is defined as housebound. The test is whether someone can walk on his own (without the assistance or company of any other person — though with or without sticks or crutches).

QUESTION 7 Incapacity

In prompting this series of questions you may find it simplest to ask the question without the variation in brackets, unless it seems appropriate. Remember you are asking whether they have any difficulty in doing X. Sometimes certain questions will not apply to particular people or to particular situations. You will meet people who do not (or say they do not) wash down, negotiate stairs (living in bungalows), go shopping and do housework (especially some men). The question should then be asked in terms of "But would you have any difficulty in doing X if you had to?" The codes 0, 1, 2 are listed in increasing order of difficulty and you should check that you ring one of them for each item.

QUESTION 7e

It would be insensitive and unnecessary to ask questions about the daily activities of the bedfast. They are therefore excluded from this question and the rest of the series. You may encounter other people (e.g. advanced obesity) of whom it is clear that they cannot do certain activities. You may refrain from putting questions to them. The same is true of any situations in which the questions are likely to cause great distress. BUT AS A GENERAL RULE QUESTIONS 7 (e) to (i) SHOULD BE ASKED FOR ALL OTHER THAN THE BEDFAST AND CHAIRFAST.

QUESTIONS 8 & 9 Variation in incapacity

These questions explore whether the pattern of answers to Question 7 is permanent. Question 8 seeks any indication of seasonal variations (e.g. bronchitis) and Question 9 day-to-day variations in the effects of disability.
