

Percent of men & women with and without a disablement condition ~~currently ill, either off work or if at home were ill in bed or confined to the house for different periods during the previous 12 months~~

Number of weeks illness off work or confined to house house	Men			Women		
	No disablement condition	One disablement condition	Two or more conditions	No disablement condition	One dis condition	Two or more dis. cond.
None or less than one	98.4	87.3	84.1	98.5	91.5	84.1
1 or 2	0.4	0.4	0.0	0.6	1.2	0.9
3 or 4	0.2	0.9	1.4	0.2	1.5	0.9
5 to 8	0.2	1.3	1.4	0.1	0.9	1.9
8 to 20	0.5	3.1	2.9	0.2	0.6	2.8
More than 20	0.3	7.0	10.1	0.4	4.4	9.3
	100	100	100	100	100	100
	2657	228	69	2696	341	107

Source: Disability Series Table 21

Note 1. Vast majority of those ~~even~~ with one, or even two disablement conditions, are not ~~at~~ currently ill.

2 Only 5 per cent of those with one dis. condition, and 12 per cent with two or more, have been ill off work or confined to the house for 8 weeks or more

3. Many people ill for 8 weeks or more do not have a disablement condition (two fifths of men and three-quarters of women, as table below shows)

Absolute numbers in sample		men			women		
		Not ill	under 8 weeks	8 weeks + over	Not ill	under 8 weeks	8 weeks and over
No dis condition	2615 (91%)	24	21	2656	24	33	
One or more dis conditions	257	8	32	402	16	13	
		up to 10	over 10		up to 10	over 10	
Dis score 0	2428	18	5	2297	23	8	
1-2	215	3	4	311	2	1	
3-6	148	8	11	254	8	8	
7+	81	8	25	196	11	32	

[Source Disability Series No. 6]

4. Note that fewer of non-incapacitated (than of those with ~~disablement~~ condition) have been ill for any length of time.

Handwritten notes on lined paper, including a header section and several paragraphs of text.

Handwritten Notes

1. The first paragraph discusses the importance of maintaining accurate records and the role of the accounting department in ensuring the integrity of the financial statements.

2. The second paragraph describes the various methods used to collect and analyze data, including interviews, surveys, and focus groups.

3. The third paragraph outlines the results of the study, highlighting the key findings and the implications for future research.

4. The fourth paragraph discusses the limitations of the study and the need for further research to address these limitations.

5. The fifth paragraph concludes the study by summarizing the main points and providing a final statement on the importance of the research.
